[The Polish-Lithuanian State, 1386-1795](#) Daniel Z. Stone,2014-07-01 For four centuries the Polish Lithuanian state encompassed a major geographic region comparable to present day Poland Lithuania Belarus Ukraine Russia Latvia Estonia and Romania Governed by a constitutional monarchy that offered the numerous nobility extensive civil and political rights it enjoyed unusual domestic tranquility for its military strength kept most enemies at bay until the mid seventeenth century and the country generally avoided civil wars Selling grain and timber to western Europe helped make it exceptionally wealthy for much of the period The Polish Lithuanian State 1386 1795 is the first account in English devoted specifically to this important era It takes a regional rather than a national approach considering the internal development of the Ukrainian Jewish Lithuanian and Prussian German nations that coexisted with the Poles in this multinational state Presenting Jewish history also clarifies urban history because Jews lived in the unincorporated private cities and suburbs which historians have overlooked in favor of incorporated royal cities In the seventeenth and eighteenth centuries the private cities and suburbs often thrived while the inner cities decayed The book also traces the institutional development of the Roman Catholic Church in Poland Lithuania one of the few European states to escape bloody religious conflict during the Reformation and Counter Reformation Both seasoned historians and general readers will appreciate the many excellent brief biographies that advance the narrative and illuminate the subject matter of this comprehensive and absorbing volume

**Art and Architecture in the Eastern Polish-Lithuanian Commonwealth (1697-1863)** Urszula Szulakowska,2022-04-25 This book explores the history of art and architecture in the Polish Lithuanian

Commonwealth from the 18th century to the uprising against the Russian occupation of 1863-64. It serves to introduce the English language reader to research produced by East European scholars. The geographical area under discussion consists of the modern nation states of Latvia, Lithuania, Belarus and Ukraine which from 1772 were incorporated into the empires of Russia, Austria and Prussia. One of the major questions raised is what became of the old Commonwealth's artistic and cultural traditions under the rule of these alien powers. The book strives to do justice to the history of all the national groups involved even though the region was heavily Polonised from the 16th century onwards. The art, architecture and culture introduced from western Europe are analysed in their effects not only on Polish culture but also on that of the Orthodox and Uniate Ruthenians, Ukrainians, on the Jewish settlement and on those of the Karaime and Islamic Tatars. An additional concern is the history, art and architecture of the Baltic Germans in the Latvian region. The book suggests a critical approach involving alternative models to those of nationalistic schools of art. It is geography that dictates the writing of history rather than national identity.

**Anabaptism Revisited** Walter Klaassen, 2001-11-07. In *Anabaptism Revisited* distinguished Anabaptist scholars offer essays on important issues in Anabaptist and Mennonite Studies. Many essays focus on sixteenth and seventeenth century studies. They address various aspects of such key Anabaptist topics as baptism, the sacraments, conversion and the inner versus the outer word. Several essays bridge the gap between past theologies and the current applications. These essays focus on current trends in the life and thought of Mennonites who are among contemporary descendants of the Anabaptists. Topics discussed include pluralism, changing identity and the free church. In addition to offering material at the cutting edge of Anabaptist research, this volume honors Anabaptist scholar C. J. Dyck. Included are biographical vignettes from his life and a bibliography of his works. [Polonia; or, Monthly reports on Polish affairs](#). Literary association of the friends of Poland, **Women in Early Modern Polish Society, Against the European Background**

Maria Bogucka, 2017-03-02. While far fewer studies on women and gender have been published in Poland than in the West, the last decade has seen growing interest in gender history among Polish scholars. The first general history of Polish women in the early modern times was published by Dr Bogucka in Polish in 1998; the present study constitutes an expansion as well as a translation into English of that seminal work. *Women in Early Modern Polish Society against the European Background* makes widely available to historians and women's studies scholars in the West a mass of information about women in Poland from the 16th to the 18th century, previously inaccessible in Polish archives. In the preface Bogucka points to the need for theoretical reflection within Polish studies of women's history and the need to develop standard concepts and terms for the study of gender to allow this research to develop further. She emphasizes that scholars of women's history must rely on all documents of a given epoch if they want to examine women's lives. Urban and rural records, especially law court records, church archives, private archives, diaries, noblemen's records, collections of sermons, last wills, inventories, belles lettres, correspondence are all sources which always contain scattered direct or indirect information on women and gender relations.

Bogucka examines the stages of the typical woman's life: girl, married woman, widow, discussing their position in the family and society as well as the societal changes that occurred in this sphere from the sixteenth to the eighteenth century. She also looks among other things at the role of women's work in the countryside and in towns according to social status and education, religious life which offered possibilities to women to appear and to act outside the home, the impact of Reformation on the situation of women, the participation of women in the creation and consumption of culture and women's roles in political life. Finally, she places her discussion of Polish women in comparative context, exploring the legal status and general situation of women in Poland against those in Western countries: Germany, France, and England, as well as Central and Eastern Europe, Hungary, Bohemia, and Russia.

The Myth of the Reformation Peter Opitz, 2013-06-19. Im Juni 2011 fand die erste Konferenz des Reformation Research Consortium (RefoRC) am Institut für Schweizerische Reformgeschichte an der Theologischen Fakultät Zürich statt. Der Titel 'Mythos der Reformation' ermutigte kritische Perspektiven auf herkömmliche Vorstellungen über die Reformation des 16. Jahrhunderts. Peter Opitz bietet eine Auswahl von dort gehaltenen Vorträgen und versammelt facettenreiche Aspekte und Perspektiven zur Thematik. Dadurch gelingt es Opitz, zumindest einen Mythos zu widerlegen, nämlich dass die Reformationszeit eine langweilige Periode war, in der es nicht viel mehr außer den herkömmlichen Mythen zu entdecken gab.

Jews and Heretics in Catholic Poland Magda Teter, 2005-12-26. Jews and Heretics in Catholic Poland takes issue with historians' common contention that the Catholic Church triumphed in Counter-Reformation Poland. In fact, the Church's own sources show that the story is far more complex. From the rise of the Reformation and the rapid dissemination of these new ideas through printing, the Catholic Church was overcome with a strong sense of insecurity. The infidel Jews, enemies of Christianity, became symbols of the Church's weakness and simultaneously instruments of its defence against all of its other adversaries. This process helped form a Polish identity that led, in the case of Jews, to racial anti-Semitism and to the exclusion of Jews from the category of Poles. This book portrays Jews not only as victims of Church persecution but as active participants in Polish society who, as allies of the nobles placed in positions of power, had more influence than has been recognised.

*Liturgy in Migration* Teresa Berger, 2012. Liturgy migrates. That is, liturgical practices, forms, and materials have migrated and continue to migrate across geographic, ethnic, ecclesial, and chronological boundaries. *Liturgy in Migration* offers the contributions of scholars who took part in the Yale Institute of Sacred Music's 2011 international liturgy conference on this topic. Presenters explored the nature of liturgical migrations and flows, their patterns, directions, and characteristics. Such migrations are always wrapped in their social and cultural contexts. With this in mind, these essays recalibrate for the twenty-first century older work on liturgical inculturation. They allow readers to better understand contemporary liturgical flows in the light of important and fascinating migrations of the past.

**Renaissance and Baroque Art and Culture in the Eastern Polish-Lithuanian Commonwealth (1506-1696)** Urszula Szulakowska, 2019-01-29. This monograph serves as an

introduction to the art architecture and literary culture of the Eastern Polish Lithuanian Commonwealth in the 16th and 17th centuries The geographical area under discussion comprises the regions of contemporary Lithuania western Belarus and western Ukraine The introduction of the Renaissance and Baroque classical revival into these lands is considered here within the political context of nationalistic and religious loyalties as well as economic status and class The central discussion focuses on the issue of national identity and religious loyalty in the inter relation between the Byzantine inheritance of the Lithuanian and Ruthenian populace and the Polonizing Catholic influences entering from the west A close study is made of the royal noble and urban patronage of the richly diverse visual and literary modes developed in these two centuries as well as examining the cultural achievements of the many national groups in the Eastern Commonwealth including Ruthenians Lithuanians Poles Armenians Jews Karaite and Islamic Tatars A major issue explored here is the problem of restoring and conserving the vast amount of devastated material culture in these regions particularly in Belarus

**The Enlightenment that Failed** Jonathan I. Israel, 2019-11-28 The Enlightenment that Failed explores the growing rift between those Enlightenment trends and initiatives that appealed exclusively to elites and those aspiring to enlighten all of society by raising mankind's awareness freedoms and educational level generally Jonathan I Israel explains why the democratic and radical secularizing tendency of the Western Enlightenment after gaining some notable successes during the revolutionary era 1775 1820 in numerous countries especially in Europe North America and Spanish America ultimately failed He argues that a populist Robespierriste tendency sharply at odds with democratic values and freedom of expression gained an ideological advantage in France and that the negative reaction this generally provoked caused a more general anti Enlightenment reaction a surging anti intellectualism combined with forms of religious revival that largely undermined the longings of the deprived underprivileged and disadvantaged and ended by helping albeit often unwittingly conservative anti Enlightenment ideologies to dominate the scene The Enlightenment that Failed relates both the American and the French revolutions to the Enlightenment in a markedly different fashion from how this is usually done showing how both great revolutions were fundamentally split between bitterly opposed and utterly incompatible ideological tendencies Radical Enlightenment which had been an effective ideological challenge to the prevailing monarchical aristocratic status quo was weakened then almost entirely derailed and displaced from the Western consciousness in the 1830s and 1840s by the rise of Marxism and other forms of socialism

A Heretical History of Architecture Andrzej Piotrowski, 2024-12-09 A Heretical History of Architecture challenges the conventional understanding of significant developments in Western architecture as a series of alignments among dominant ideologies and artistic programs arguing instead that the most consequential changes in the evolution of artistic and design practices across Europe between the fifth and seventeenth centuries were motivated by tensions between local religious or cultural traditions and centralized power This groundbreaking study richly demonstrates the processes through which heterodox beliefs that persisted within numerous diverse communities resulted in design

experimentation so syncretic that it has heretofore eluded scholars employing conventional Euro centric taxonomies of architectural styles
