**The Polish-Lithuanian Monarchy in European Context, C.1500-1795** R. Butterwick, 2001-06-26 The Polish Lithuanian Commonwealth is often considered an aberration where monarchy was reduced by the nobility to impotence and which was consequently partitioned However historians reappraisal of monarchy in early modern Europe calls for a reconsideration of the extent of Polish Lithuanian divergence The essays of this collection assess the institution and idea of monarchy in one of Europe s largest and most neglected states It will appeal to all those interested in early modern history

**Elective Monarchy in Transylvania and Poland-Lithuania, 1569-1587** Felicia Roşu, 2017 This book examines the transformation of the elective principle in Transylvania and the newly created Polish Lithuanian Commonwealth in the early 1570s These countries insisted on their right to free elections despite the threat to public stability and this served to transform their institutions and constitutions

**The Polish-Lithuanian Commonwealth** Andrzej Chwalba, Krzysztof Zamorski, 2020-10-15 This volume provides a fresh perspective of the history and legacy of the Polish Lithuanian Commonwealth as well as the often disputed memory of it in contemporary Europe The unions between the Crown of the Kingdom of Poland and the Grand Duchy of Lithuania have fascinated many readers particularly because many solutions that have been implemented in the European Union have been adopted from its Central and Eastern European predecessor The collection of essays presented in this volume are divided into three parts the Beginnings of Poland Lithuania the Polish Lithuanian Commonwealth and Legacy and Memory of the Polish Lithuanian Commonwealth and represent a selection of the papers delivered at the Third Congress of International Researchers of Polish History which was held in Cracow on 11 14 October 2017 Through their application of different historiographical perspectives and schools of history they offer the reader a fresh take on the Commonwealth s history and legacy as well as the memory of it in the countries that are its inheritors namely Poland Lithuania Latvia Belarus and Ukraine An exploration of one of the biggest countries in Early Modern Europe this will be of interest to historians political scientists cultural anthropologists and other scholars of the history of Central and Eastern Europe in the Early Modern period

**A History of Eastern Europe 1740-1918** Ian D. Armour, 2012-11-22 A History of Eastern Europe 1740 1918 Empires Nations and Modernisation provides a comprehensive authoritative account of the region during a troubled period that finished with the First World War Ian Armour focuses on the three major themes that have defined Eastern Europe in the modern period empire nationhood and modernisation whilst chronologically tracing the emergence of Eastern Europe as a distinct concept and place Detailed coverage is given to the Habsburg Ottoman German and Russian Empires that struggled for dominance during this time In this exciting new edition Ian Armour incorporates findings from new research into the nature and origins of nationalism and the attempts of supranational states to generate dynastic loyalties as well as concepts of empire Armour s insightful guide to early Eastern Europe considers the important figures and governments analyses the significant events and discusses the socio economic

e strengthening the country posed a threat to the partitioners primarily Russia This is one of the premises that emerges from the concise but richly detailed book by Richard Butterwick Professor of History at the University of London awarded a PhD title by the University of Oxford a scholar specialising in 18th century Polish history [The Russia Anxiety](#) Mark B. Smith, 2019 Russia is not unknowable and its past might offer hints into its future and place in the world one that reaches beyond crisis and confrontation *The Call of Albion* Mirosława Hanusiewicz-Lavallee, 2024-07-22 An in depth look at British Polish literary pre Enlightenment contacts The Call of Albion explores how the reverberations of British religious upheavals in distant Poland Lithuania surprisingly served to strengthen the impact of English Scottish and Welsh works on Polish literature This book argues that Jesuits played a key role in that process It provides an insightful account of how the transmission translation and recontextualization of key publications by British Protestants and Catholics served Calvinist and Jesuit agendas while occasionally bypassing barriers between confessionally defined textual communities and inspiring Polish Lithuanian political thought as well as literary tastes **Britain and Poland-Lithuania** Richard Unger, Jakub Basista, 2008-05-02 Twenty four papers deal with various aspects of the economies politics religion art and culture of Britain and Poland Lithuania from the Middle Ages down to the Third Partition illustrating unexpected similarities and long standing ties between the two regions **Deposing Monarchs** Cathleen Sarti, 2021-12-30 Deposing Monarchs analyses depositions in Northern Europe between 1500 and 1700 as a type of frequent political conflict which allows to present new ideas on early modern state formation monarchy and the conventions of royal rulership The book revises earlier conceptualizations of depositions as isolated unique events that emerged in the context of national historiographies An examination of the official legitimations of depositions reveals that in times of crisis concepts of tradition rule of law and political consensus are much more influential than the divine right of kings Tracing the similarities and differences of depositions in Northern Europe transnationally and diachronically the book shows monarchical succession as more non linear than previously presumed It offers a transferable model of the different elements needed in depositions such as opposition to the monarch by multiple groups in a realm the need for a convincing rival candidate and a legitimation based on political traditions or religious ideas Furthermore the book bolsters our understanding of authority and rule as a constant process of negotiation adding to recent research on political culture and on the cultural history of politics *Colonial Fantasies, Imperial Realities* Lenny A. Ureña Valerio, 2019-08-28 In Colonial Fantasies Imperial Realities Lenny Ure a Valerio offers a transnational approach to Polish German relations and nineteenth century colonial subjectivities She investigates key cultural dynamics in the history of medicine colonialism and migration that bring Germany and Prussian Poland closer to the colonial and postcolonial worlds in Africa and Latin America She also analyzes how Poles in the German Empire positioned themselves in relation to Germans and native populations in overseas colonies She thus recasts Polish perspectives and experiences allowing new insights into identity formation and nationalist movements within the German Empire Crucially Ure a Valerio also studies the medical

projects and scientific ideas that traveled from colonies to the German metropole and vice versa which were influential not only in the racialization of Slavic populations but also in bringing scientific conceptions of race to the everydayness of the German Empire As a whole *Colonial Fantasies Imperial Realities* illuminates nested imperial and colonial relations using sources that range from medical texts and state documents to travel literature and fiction By studying these scientific and political debates Ure a Valerio uncovers novel ways to connect medicine migration and colonialism and provides an invigorating model for the analysis of Polish history from a global perspective

**The Struggle for the Eurasian Borderlands** Alfred J. Rieber, 2014-03-20 A major new account of the Eurasian borderlands as shatter zones which have generated some of the world's most significant conflicts

Heart of Europe Peter H. Wilson, 2016-04-04 The Holy Roman Empire lasted a thousand years far longer than ancient Rome Its continuity rested on the ideal of a unified Christian civilization As Peter Wilson shows the Empire tells the story of Europe better than histories of individual nation states and its legacy can be seen today in debates over the nature of the European Union

Diversity and Dissent Howard Louthan, Gary B. Cohen, Franz A. J. Szabo, 2011-03-01 Early modern Central Europe was the continent's most decentralized region politically and its most diverse ethnically and culturally With the onset of the Reformation it also became Europe's most religiously divided territory and potentially its most explosive in terms of confessional conflict and war Focusing on the Holy Roman Empire and the Polish Lithuanian Commonwealth this volume examines the tremendous challenge of managing confessional diversity in Central Europe between 1500 and 1800 Addressing issues of tolerance intolerance and ecumenism each chapter explores a facet of the complex dynamic between the state and the region's Catholic Protestant Orthodox Utraquist and Jewish communities The development of religious toleration one of the most debated questions of the early modern period is examined here afresh with careful consideration of the factors and conditions that led to both confessional concord and religious violence

Land Air Sea Jennifer Ferng, Lauren Jacobi, 2023-12-14 Land Air Sea Architecture and Environment in the Early Modern Era positions the long Renaissance and eighteenth century as being vital for understanding how many of the concerns present in contemporary debates on climate change and sustainability originated in earlier centuries Traversing three physical and intellectual domains Land Air Sea consists of case studies examining how questions of environmentalism were formulated in early modern architecture and the built environment Addressing emergent technologies indigenous cultural beliefs natural philosophy and political statecraft this book aims to recast our modernist conceptions of what buildings are by uncovering early modern epistemologies that redefined human impact on the habitable world

**Lithuania** Richard Butterwick, 2025-12 The first popular history of a small post Soviet state and a very old European power

**The Oxford Handbook of Early Modern European History, 1350-1750** Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More

recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power

**The End of Enlightenment** Richard Whatmore, 2023-12-07 A brilliant work of intellectual interpretation by our foremost historian of Enlightenment ideas Whatmore rescues the Enlightenment from today's circular debates and places it where it belongs in the pulsing chaotic era of its genesis and demise Christopher de Bellaigue The Enlightenment is popularly seen as the Age of Reason a key moment in human history when ideals such as freedom progress natural rights and constitutional government prevailed In this radical re-evaluation historian Richard Whatmore shows why for many at its centre the Enlightenment was a profound failure By the early eighteenth century hope was widespread that Enlightenment could be coupled with toleration the progress of commerce and the end of the fanatic wars of religion that were destroying Europe At its heart was the battle to establish and maintain liberty in free states and the hope that absolute monarchies such as France and free states like Britain might even subsist together equally respectful of civil liberties Yet all of this collapsed when states pursued wealth and empire by means of war Xenophobia was rife and liberty itself turned fanatic The End of Enlightenment traces the changing perspectives of economists philosophers politicians and polemicists around the world including figures as diverse as David Hume Adam Smith Edmund Burke and Mary Wollstonecraft They had strived to replace superstition with reason but witnessed instead terror and revolution corruption gross commercial excess and the continued growth of violent colonialism Returning us to these tumultuous events and ideas and digging deep into the thought of the men and women who defined their age Whatmore offers a lucid exploration of disillusion and intellectual transformation a brilliant meditation on our continued assumptions about the past and a glimpse of the different ways our world might be structured especially as the problems addressed at the end of Enlightenment are still with us today
