Poland George Sanford, 2012-12-06 Poland pioneered the collapse of communism in Eastern Europe Domestic reformism and the negotiated abdication of ruling elites in 1989 have structured the country's politics in the 1990s But the division between the communist and Solidarity camps continues to cause problems for a potential reform coalition aiming to complete modernisation through the restructuring required for EU membership Secular Catholic and rural urban conflicts and well as the growing regional split between the north west and south east have fragmented political life and the party system Nevertheless Poland has made remarkable steps in the consolidation of democracy and the development of her political system whilst maintaining social stability she is also successfully transcending her historical security dilemma of open western and eastern frontiers and stronger aggressive neighbours by embedding herself in Europe through membership of NATO and the EU Poland is overcoming her historical problems

Jews, Catholics, and the Burden of History Eli Lederhendler, 2006-03-02 Volume XXI of the distinguished annual Studies in Contemporary Jewry marks sixty years since the end of the Second World War and forty years since the Second Vatican Council's efforts to revamp Church relations with the Jewish people and the Jewish faith Jews Catholics and the Burden of History offers a collection of new scholarship on the nature of the Jewish Catholic encounter between 1945 and 2005 with an emphasis on how this relationship has emerged from the shadow of the Holocaust

The Origins of Anti-Authoritarianism Nina Witoszek, 2018-10-31 This book discusses the ongoing revolution of dignity in human history as the work of humanist outliers small groups and individuals dedicated to compassionate social emancipation It argues that anti authoritarian revolutions like 1989's Autumn of the Nations succeeded in large part due to cultural and political innovations springing from such small groups The author explores the often ingenious ways in which these maladapted and liminal outliers forged a cooperative and dialogic mindset among previously resentful and divided communities Their

strategies warrant closer scrutiny in the context of the ongoing 21st century revolution of dignity and efforts to re unite an ever more troubled and divided world The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Working on Rights Anna Delius, 2023-11-20 This book is the first to connect global labor history and the history of human rights By focusing on democratic labor oppositions in Spain and Poland between 1960 and 1990 it shows how workers in authoritarian regimes addressed repression and whether they developed a language of rights in the light of a globally dynamic human rights discourse The study argues that the democratic labor oppositions in Spain and Poland were both variants of emancipatory and democracy oriented social movements with global interconnections that emerged in the 1960s It reveals that the demands for free and independent trade unions which in both countries became a flashpoint in the fight for broader democratic demands was not always discussed in rights terms but rather presented as an inevitable necessity At the same time these labor movements and their intellectual allies morally delegitimized state repression against workers and thereby employed the concepts of democracy participation solidarity progress and eventually rights Integrating the history of two European semi peripheric societies into a broader narrative this book is relevant for readers interested in global labor history human rights history and the history of democratization in Europe in the late twentieth century The East European Economy in Context David Turnock, 2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In The East European Economy in Context Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism The East European Economy in Context provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change Democratic Government in Poland G. Sanford, 2002-07-16 Democratic government has now been entrenched in Poland An increasingly significant European actor Poland presents problematic but also stimulating challenges to new NATO and EU associates This authoritative overview examines in depth the constitutional and governmental framework in Poland since 1989 and its central political institutions mechanisms and actors Sanford demonstrates how the governmental system evolved pragmatically during the 1990s to cope with modernization and consolidated viable independent statehood consensually around Poland's hardy constitutional values Cinema in the Cold War Cyril Buffet, 2017-10-02 The film industry was an important propaganda element during the Cold War As with other conflicts the Cold War was fought not just with weapons but with words and images Throughout the conflict cinema was a reflection of the societies the ideologies and the political

climates in which the films were produced On both sides great stars major companies famous scriptwriters and filmmakers were enlisted to help the propaganda effort It was not only propaganda that was created by the cinema of the Cold War it also articulated criticism and the movie industries were centres of the fabrication of modern myths The cinema was undoubtedly a place of Cold War confrontation and rivalry and yet there were aesthetic technical narrative exchanges between West and East All genres of film contributed to the Cold War thrillers westerns comedies musicals espionage films documentaries cartoons science fiction historical dramas war films and many more These films shaped popular culture and national identities creating vivid characters like James Bond Alec Leamas Harry Palmer and Rambo While the United States and the Soviet Union were the two main protagonists in this on screen duel other countries such as Britain Germany Poland Italy and Czechoslovakia also played crucially important parts and their prominent cinematographic contributions to the Cold War are all covered in this volume This book was originally published as a special issue of Cold War History

BOOK JACKET Limits to Democratic Constitutionalism in Central and Eastern Europe Bogusia Puchalska, 2016-05-06 In this book Bogusia Puchalska develops an original theory of democratic constitutionalism and uses it to support the argument that constitution making and law making in constitutional moments should be politically and not just constitutionally legitimate In doing so she expertly assesses the potential implications of the prospects of democratic consolidation and constitutionalism in Poland after 1989 and asks whether it is likely to be applicable to other transition countries such as Hungary Czech Republic and Slovakia This original and informative book should be read by all curious to understand how the democratic learning and the foundations of grass root constitutionalism might have been damaged in post communist countries

Sacred Weapons, Profane Enemies Geoff Bardell, 2014-02-14 This book tells the story of how Saint John Paul II politically deployed sacred weapons and profane enemies in his war on communism The effects of his deployment chiefly during his three pilgrimages to communist Poland were to evoke and refashion nationalist and religious cultural memories shaped over centuries and thereby influence the prevailing political culture of opposition In his doing so the Polish Pope inspired the opposition to peacefully and successfully challenge a communist regime that had at its disposal a full panoply of repressive forces The Pope's sacred weapons were above all the powerful myths and symbols attached to holy figures wars insurrections and martyrdom and the potent rituals of anniversary commemorations holy masses beatifications

canonizations and pilgrimages afforded to him as Head of the Roman Catholic Church Poland's profane enemies were the Jewish German and Russian Enemies and the powerful myths and symbols associated with them **Constitutionalism and Democracy** Douglas Greenberg, Stanley N. Katz, Steven C. Wheatley, Melanie Beth Oliviero, 1993-07-08 The political changes which have occurred in the last three years have been phenomenal the dissolving of the former Soviet Union the impending union of Western Europe and the evolution of democracy in Eastern Europe What changes have occurred in the legal structure of these countries How have their constitutions been affected by these developments Stanley Katz Douglas Greenberg and other scholars and politicians from numerous countries discuss in this work the experiences of constitutionalism Previously little work has been done in this field but now Constitutionalism and Democracy represents the range and depth for serious constitutional analysis Discussing concrete issues such as human rights nationalism and pluralism this volume will be essential in understanding the phenomenon of constitutionalism in various parts of the world

National Myths Gérard Bouchard, 2013-05-02 Myths are a major universal sociological mechanism which is still rather poorly understood Demonstrates the relevance and the potential of myths as a research area Provides a timely shift in the usual focus of national studies which typically centers on ethnicity immigration integration citizenship cultural diversity and nationalism Demonstrates the nature and the functioning of myths in contemporary societies as a nexus of meanings that feed identities memory and utopias Contributions from international authors **Poland** Patrice M. Dabrowski, 2014-10-01 Since its beginnings Poland has been a moving target geographically as well as demographically and the very definition of who is a Pole has been in flux In the late medieval and early modern periods the country grew to be the largest in continental Europe only to be later wiped off the map for more than a century The Polish phoenix that rose out of the ashes of World War I was obliterated by the joint Nazi Soviet occupation that began with World War II The postwar entity known as Poland was shaped and controlled by the Soviet Union Yet even under these constraints Poles persisted in their desire to wrest from their oppressors a modicum of national dignity and ultimately managed to achieve much more than that Poland is a sweeping account designed to amplify major figures moments milestones and turning points in Polish history These include important battles and illustrious individuals alliances forged by marriages and choices of religious denomination and meditations on the likes of the Polish battle slogan for our freedom and yours that resounded during the Polish fight for independence in the long 19th century and echoed in the Solidarity period of the late 20th century The experience of oppression helped Poles to endure and surmount various challenges in the 20th century and Poland's demonstration of strength was a model for other peoples seeking to extract themselves from foreign yoke Patrice Dabrowski's work situates Poland and the Poles within a broader European framework that locates this multiethnic and multid denominational region squarely between East and West This illuminating chronicle will appeal to general readers and will be of special interest to those of Polish descent who will appreciate Poland's longstanding republican experiment Landmark 1989 Heinrich Best, Agnieszka Wenninger, 2010 The

year 1989 marks an upheaval in Central and Eastern Europe and stands for a radical change in such spheres as society economy politics and culture in this region This volume presents a collection of articles and analyses exploring a broad range of aspects of post 1989 developments ranging from historical legacies and politics of history changing values and mentality old and new inequalities elites and European integration written by recognised social scientists from both Eastern and Western Europe The chapters included in the volume present not only recent advances and findings but also state of the art of research and emerging trends and future challenges in the above mentioned areas
