

Polish Renaissance In Its European Context

Danilo Facca, Valentina Lepri

Polish Renaissance In Its European Context:

The Polish Renaissance in Its European Context Samuel Fiszman, 1988-01-01 The Polish Renaissance in Its **European Context** Samuel Fiszman, 1988 Polish Renaissance in Its European Context Samuel Fiszman, 1982 The Polish-Lithuanian Monarchy in European Context, C.1500-1795 R. Butterwick, 2001-06-26 The Polish Lithuanian Commonwealth is often considered an aberration where monarchy was reduced by the nobility to impotence and which was consequently partitioned However historians reappraisal of monarchy in early modern Europe calls for a reconsideration of the extent of Polish Lithuanian divergence The essays of this collection assess the institution and idea of monarchy in one of Europe s largest and most neglected states It will appeal to all those interested in early modern history in the Renaissance Danilo Facca, Valentina Lepri, 2013 During the most recent conference of the Renaissance Society of America two sessions were devoted entirely to the Renaissance in Poland In fifty nine editions of what is considered the most prestigious international appointment for experts of Renaissance culture this is the first time that characteristic features of sixteenth century Poland were the subject of analysis and debate The interest generated at the conference and the academic value of the contributions convinced the organisers of the panels to ask the speakers to develop and revise their contributions to conform with the conventions of the academic article. The result is a selection of essays that pursue specific pathways in exploring the cultural factors that affected the Renaissance in Poland influences and originality in Polish literary and artistic production orthodoxy and dissidence the circulation of thought and reflection on the Res Publica in the spheres of both politics and philosophy Adopting a distinctly interdisciplinary approach the aim of this publication is to focus certain aspects of the Polish Renaissance and the cultural identity of sixteenth century Poland in relation to the European context

Renaissance and Baroque Art and Culture in the Eastern Polish-Lithuanian Commonwealth (1506-1696)

Urszula Szulakowska, 2019-01-29 This monograph serves as an introduction to the art architecture and literary culture of the Eastern Polish Lithuanian Commonwealth in the 16th and 17th centuries The geographical area under discussion comprises the regions of contemporary Lithuania western Belarus and western Ukraine The introduction of the Renaissance and Baroque classical revival into these lands is considered here within the political context of nationalistic and religious loyalties as well as economic status and class The central discussion focuses on the issue of national identity and religious loyalty in the inter relation between the Byzantine inheritance of the Lithuanian and Ruthenian populace and the Polonizing Catholic influences entering from the west A close study is made of the royal noble and urban patronage of the richly diverse visual and literary modes developed in these two centuries as well as examining the cultural achievements of the many national groups in the Eastern Commonwealth including Ruthenians Lithuanians Poles Armenians Jews Karaite and Islamic Tatars A major issue explored here is the problem of restoring and conserving the vast amount of devastated material culture in these regions particularly in Belarus

Collectivistic Religions Slavica Jakelic, 2016-05-23 Collectivistic Religions draws upon

empirical studies of Christianity in Europe to address guestions of religion and collective identity religion and nationalism religion and public life and religion and conflict It moves beyond the attempts to tackle such questions in terms of choice and religious nationalism by introducing the notion of collectivistic religions to contemporary debates surrounding public religions Using a comparison of several case studies this book challenges the modernist bias in understanding of collectivistic religions as reducible to national identities A significant contribution to both the study of religious change in contemporary Europe and the theoretical debates that surround religion and secularization it will be of key interest to scholars across a range of disciplines including sociology political science religious studies and geography The Polish Renaissance in Its Historical Concepts Between Eastern and Western Europe Manfred Hildermeier, 2007 More **European Context** ,1982 than a decade after the breakdown of the Soviet Empire and the reunification of Europe historiographies and historical concepts still stood very much apart This book talks about how there were no common efforts for joint interpretations and no attempts to reach a common understanding of central notions and concepts The Polish-Lithuanian State, 1386-1795 Daniel Z. Stone, 2014-07-01 For four centuries the Polish Lithuanian state encompassed a major geographic region comparable to present day Poland Lithuania Belarus Ukraine Russia Latvia Estonia and Romania Governed by a constitutional monarchy that offered the numerous nobility extensive civil and political rights it enjoyed unusual domestic tranquility for its military strength kept most enemies at bay until the mid seventeenth century and the country generally avoided civil wars Selling grain and timber to western Europe helped make it exceptionally wealthy for much of the period The Polish Lithuanian State 1386 1795 is the first account in English devoted specifically to this important era It takes a regional rather than a national approach considering the internal development of the Ukrainian Jewish Lithuanian and Prussian German nations that coexisted with the Poles in this multinational state Presenting Jewish history also clarifies urban history because Jews lived in the unincorporated private cities and suburbs which historians have overlooked in favor of incorporated royal cities In the seventeenth and eighteenth centuries the private cities and suburbs often thrived while the inner cities decayed The book also traces the institutional development of the Roman Catholic Church in Poland Lithuania one of the few European states to escape bloody religious conflict during the Reformation and Counter Reformation Both seasoned historians and general readers will appreciate the many excellent brief biographies that advance the narrative and illuminate the subject matter of this comprehensive and absorbing volume The Torah Ark in Renaissance Poland Ilia M. Rodov, 2013-02-01 The book explores the patronage formation and symbolism of the Renaissance Torah ark in Polish Polish Republican Discourse in the Sixteenth Century Dorota Pietrzyk-Reeves, 2020-04-09 A landmark study synagogues of republican discourse in sixteenth century Poland Lithuania and its original contribution to early modern republicanism Humanism in FIfteenth-Century Europe Stephen J. Milner, John Monfasani, John L. Flood, Jacqueline Glomski, Cristina Neagu, Jeremy Lawrance, Craig Taylor, Tom Rutledge, Daniel Wakelin, Oren Margolis, 2012-12-01 Nothing provided Toward

a Geography of Art Thomas DaCosta Kaufmann, 2004-03-14 Art history traditionally classifies works of art by country as well as period but often political borders and cultural boundaries are highly complex and fluid Questions of identity policy and exchange make it difficult to determine the place of art and often the art itself results from these conflicts of geography and culture Addressing an important approach to art history Thomas DaCosta Kaufmann's book offers essays that focus on the intricacies of accounting for the geographical dimension of art history during the early modern period in Europe Latin America and Asia Toward a Geography of Art presents a historical overview of these complexities debates contemporary concerns and completes its exploration with a diverse collection of case studies Employing the author's expertise in a variety of fields the book delves into critical issues such as transculturation of indigenous traditions mestizaje the artistic metropolis artistic diffusion transfer circulation subversion and center and periphery What results is a foundational study that establishes the geography of art as a subject and forces us to reconsider assumptions about the place of art that underlie the longstanding narratives of art history The History of Poland M. B. B. Biskupski, 2018-09-07 This book is an engaging explanation of the complicated history of Poland one of the least well known countries in Europe Poland which has one of the strongest economies in the European Union has faced significant turmoil throughout the years Encapsulating centuries of development this book distills Poland's historical evolution into patterns including those that have developed since the first edition was published nearly 20 years ago The book begins with an overview of contemporary Poland providing both basic information about the geography culture and current political climate of the country while tying these to major contemporary issues This introduction is followed by chapters discussing Poland's long history starting with the 10th century The second half of the book presents a history of Poland in the 20th and 21st centuries covering the major issues affecting the country and offering possible interpretations of them This updated and revised edition accounts for recent events in Poland and examines the effects of the Polish diaspora globally Catholic Europe, 1592-1648 Tadhg Ó hAnnracháin, 2015-10-15 Catholic Europe 1592 1648 examines the processes of Catholic renewal from a unique perspective rather than concentrating on the much studied heartlands of Catholic Europe it focuses primarily on a series of societies on the European periphery and examines how Catholicism adapted to very different conditions in areas such as Ireland Britain the Netherlands East Central Europe and the Balkans In certain of these societies such as Austria and Bohemia the Catholic Reformation advanced alongside very rigorous processes of state coercion In other Habsburg territories most notably Royal Hungary and in Poland Catholic monarchs were forced to deploy less confrontational methods which nevertheless enjoyed significant measures of success On the Western fringe of the continent Catholic renewal recorded its greatest advances in Ireland but even in the Netherlands it maintained a significant body of adherents despite considerable state hostility In the Balkans hAnnrach in examines the manner in which the papacy invested substantially more resources and diplomatic efforts in pursuing military strategies against the Ottoman Empire than in supporting missionary and educational activity The chronological focus of the

book is also unusual because on the peripheries of Europe the timing of Catholic reform occurred differently Catholic Europe 1592 1648 begins with the pontificate of Clement VIII and rather than treating religious renewal in the later sixteenth and seventeenth centuries as essentially a continuation of established patterns of reform it argues for the need to understand the contingency of this process and its constant adaptation to contemporary events and preoccupations "A Pearl of Powerful Learning": The University of Cracow in the Fifteenth Century Paul Knoll, 2016-08-09 Winner of The Polish Institute of Arts and Sciences of America's 2018 Oskar Halecki Award and Winner of the Early Slavic Studies Association 2016 Book Prize The first fully developed history of the University of Cracow in this period in over a century A Pearl of Powerful Learning The University of Cracow in the Fifteenth Century places the school in the context of late medieval universities traces the process of its foundation analyzes its institutional growth its setting in the Polish royal capital its role in national life and provides a social and geographical profile of students and faculty The book includes extended treatment of the content of intellectual life and accomplishments of the school with reference to the works of its most important scholars in the medieval arts curriculum medicine law and theology The emergence of early Renaissance humanist interests at the university is also discussed Winner of the Early Slavic Studies Association 2016 Book Prize for most outstanding recent scholarly monograph on pre modern Slavdom The work was described by the prize committee as A thoughtful highly informed and nuanced history of the University of Cracow an important institution in a pivotal period of Poland's history Knoll's treatment of such important issues as the role of the University in national life and the controversial and highly technical matter of the impact of Humanism are dealt with tactfully and thoughtfully The book will become the definitive work on this topic and will ensure that the material will rapidly be absorbed into general histories of education and of universities in the Renaissance Winner of The Polish Institute of Arts and Sciences of America's 2018 Oskar Halecki Award This award recognizes a book of particular value and significance dealing with the Polish experience and is named after the distinguished 20th century Polish medieval historian Oskar Halecki who was one of the founders of PIASA Professor Knoll will be recognized for this award during the 77th Annual Meeting of PIASA in Gdansk Poland in June 2019 My Dear Daughter Edward Fram, 2007-12-31 How did Jewish women in sixteenth century Poland learn all the rules rituals and customs pertaining to the sexual life of couples within the context of marriage As in other areas of ritual life that concerned the household it would seem that the primary source for the education of Jewish women was other women But rabbinic law dictates that Jewish women who experience uterine bleeding are prohibited from having physical contact of any kind with their husbands and the intricate laws of niddah enforced separation spell out exactly when and under what circumstances physical marital relations even simple touching can be resumed Particularly difficult issues could be addressed only by rabbis or other learned men since women rarely if ever attained the level of rabbinic scholarship necessary to pare the details of these complicated laws To educate both men and women but particularly women in a more systematic and impersonal manner the young rabbi Benjamin Slonik ca 1550

after 1620 who later became one of the leading rabbinic authorities in eastern Europe harnessed the relatively new technology of printing and published a how to book for women in the Yiddish vernacular Seder mitzvot hanashim The Order of Women's Commandments illuminates the history of Yiddish printing and public education But it is also a rare remnant of a direct interface between a member of the rabbinic elite and the laity especially women Slonik's text also sheds light on the history of Jewish law particularly the reception of the Shulhan Arukh an important legal code that had just been published. This volume makes available the 1585 edition of the Seder mitzvot hanashim in Yiddish and English Fram sets Slonik's work in its bibliographical and historical contexts demonstrating its relationship with the Shulhan Arukh exploring how rabbis opposed formal education for women considering how upheavals accompanying geographic shifts in the Ashkenazic community help explain how the women's commandments texts came to be used in Poland and offering a treasure trove of information on the place and roles of women in Polish Jewish society Fram thus creates a composite picture of how Slonik along with other men of his time perceived the main audience for his work and sought to connect it to contemporary texts

White Eagle, Black Madonna Robert E. Alvis, 2016-08-01 In 1944 the Nazis razed Warsaw s historic Cathedral of St John the Baptist They knew that the strength of the Polish nation was rooted in the Cross Christ's Passion the spirit of the Gospels and the invincible Church argued Cardinal Stefan Wyszy ski in a letter celebrating the building s subsequent reconstruction To weaken and destroy the nation they knew they must first deprive it of its Christian spirit Wyszynski insisted that Catholicism was an integral component of Polish history culture and national identity The faithfulness of the Polish people fortified them during times of trial and inspired much that was noble and good in their endeavors Filling a sizable gap in the literature White Eagle Black Madonna is a systematic study of the Catholic Church in Poland and among the Polish diaspora Polish Catholicism has not been particularly well understood outside of Poland and certainly not in the Anglophone world until now Demonstrating an unparalleled mastery of the topic Robert E Alvis offers an illuminating vantage point on the dynamic tension between centralization and diversity that long has characterized the Catholic Church s history Written in clear concise accessible language the book sheds light on the relevance of the Polish Catholic tradition for the global Catholic Church a phenomenon that has been greatly enhanced by Pope John Paul II whose theology ecclesiology and piety were shaped profoundly by his experiences in Poland and those experiences in turn shaped the course of his long and influential pontificate Offering a new resource for understanding the historical development of Polish Catholicism White Eagle Black Madonna emphasizes the people places events and ritual actions that have animated the tradition and that still resonate among Polish Catholics today From the baptism of Duke Mieszko in 966 to the controversial burial of President Lech Kaczy ski in 2010 the Church has accompanied the Polish people during their long and often tumultuous history While often controversial Catholicism s influence over Poland s political social and cultural life has been indisputably profound

The Struggle for the Eurasian Borderlands Alfred J. Rieber, 2014-03-20 This book explores the Eurasian borderlands

as contested shatter zones which have generated some of the world's most significant conflicts Analyzing the struggles of Habsburg Russian Ottoman Iranian and Qing empires Alfred J Rieber surveys the period from the rise of the great multicultural conquest empires in the late medieval early modern period to their collapse in the early twentieth century He charts how these empires expanded along moving military frontiers competing with one another in war diplomacy and cultural practices while the subjugated peoples of the borderlands strove to maintain their cultures and to defend their autonomy The gradual and fragmentary adaptation of Western constitutional ideas military reforms cultural practices and economic penetration began to undermine these ruling ideologies and institutions leading to the collapse of all five empires in revolution and war within little more than a decade between 1911 and 1923
