## **Polite Protesters The American Peace Movement Of The 1980s:**

Polite Protesters John Lofland,1993 Lofland brings his wealth of knowledge about social movements and collective behavior to this sociological study His analyses reveal a peace movement with organization culture and tactics quite different from those of the 1960s and 1970s The radicals of the 1980s were polite protesters more likely to turn to the politics of interest groups and lobbyists than to that of involved demonstrations and flag burnings **American Anti-Nuclear Activism, 1975-1990** K. Harvey,2014-10-28 Looking at national peace organizations alongside lesser known protest collectives this book argues that anti nuclear activists encountered familiar challenges common to other social movements of the late twentieth century **Polite Protesters** John Lofland,1993 Lofland brings his wealth of knowledge about social movements and collective behavior to this sociological study His analyses reveal a peace movement with organization culture and tactics quite different from those of the 1960s and 1970s The radicals of the 1980s were polite protesters more likely to turn to the politics of interest groups and lobbyists than to that of involved demonstrations and flag burnings **Coalitions & Political Movements** Thomas R. Rochon,David S. Meyer,1997 Twelve contributions apply recent theory on movements to the nuclear freeze movement of the 1980s Subject areas include the development of the freeze movement its social and political impact and the question of whether the movement simply disintegrated or was transformed into other forms of activism Annotation copyrighted by Book News Inc Portland OR *Common Enemies* Rachel Kahn Best,2019-07-01 For over a hundred years millions of Americans have joined together to fight a common enemy by campaigning against diseases In *Common Enemies* Rachel Kahn Best asks why disease campaigns have dominated a century of American philanthropy and health policy and how the fixation on diseases shapes efforts to improve lives Combining quantitative and qualitative analyses in an unprecedented history of disease politics Best shows that to achieve consensus disease campaigns tend to neglect stigmatized diseases and avoid controversial goals But despite their limitations disease campaigns do not crowd out efforts to solve other problems Instead they teach Americans to give and volunteer and build up public health infrastructure bringing us together to solve problems and improve our lives *Recovering Civility during COVID-19* Matteo Bonotti,Steven T. Zech,2021-03-02 This Open Access book examines many of the challenges posed by the COVID 19 pandemic through the distinctive lens of civility The idea of civility appears often in both public and academic debates and a polarized political climate frequently leads to allegations of uncivil speech and behaviour Norms of civility are always contested even more so in moments of crisis such as a global pandemic A focus on civility provides crucial insight and guidance on how to navigate the social and political challenges resulting from COVID 19 Furthermore it offers a framework through which citizens and policymakers can better understand the causes and consequences of incivility and devise ways to recover civility in our social and political lives **From Conflict Resolution to Peacebuilding** Charles Hauss,2019-11-05 *From Conflict Resolution to Peacebuilding* is designed to introduce students to the key concepts of conflict resolution from a real world perspective

Expanding the Boundaries of Transformative Learning E. O'Sullivan, A. Morrell, M. O'Connor, 2016-04-30 Transformative learning involves experiencing a deep structural shift in the basic premises of thought feelings and actions It is a shift of consciousness that dramatically and permanently

alters our way of being in the world Such a shift involves our understanding of ourselves and our self locations our relationships with other humans and with the natural world our understanding of relations of power in interlocking structures of class race and gender our body awarenesses our visions of alternative approaches to living and our sense of possibilities for social justice and peace and personal joy The editors of this collection make several challenges to the existing field of transformative learning the first is to theoreticians who have attempted to describe the nature of transformative learning without regard to the content of transformative learning The editors argue that transformative learning theory cannot be constructed in a content neutral or context free way Their second challenge which assumes the importance content for transformative learning is to educators as practitioners The editors argue that transformative learning requires new educational practices consistent with the content Arts based research and arts based teaching learning practices are one example of such new educational practices Education for the soul or spiritual practices such as meditation or modified martial arts or indigenous peoples forms of teaching learning is another example Each article in the collection presents a possible model of these new practices

*Peacebuilding, Memory and Reconciliation* Bruno Charbonneau, Genevieve Parent, 2013-06-17 This book aims to bridge the gap between what are generally referred to as top down and bottom up approaches to peacebuilding After the experience of a physical and psychological trauma the period of individual healing and recovery is intertwined with political and social reconciliation The prospects for social and political reconciliation are undermined when a top down approach is favoured over the bottom up strategy the prioritization of structural stability over societal well being Peacebuilding Memory and Reconciliation explores the inextricable link between psychological recovery and socio political reconciliation and the political issues that dominate this relationship Through an examination of the construction of social narratives about or for peace the text offers a new perspective on peacebuilding which challenges and questions the very nature of the dichotomy between top down and bottom up approaches This book will be of much interest to students of peacebuilding peace and conflict studies social psychology political science and IR in general

**Beyond the Power Mystique** Robert Prus, 1999-02-25 Despite the considerable attention given to power by foundational sources such as Machiavelli Hobbs Weber Durkheim and Marx and those social theorists who have built on their works surprisingly little attention has been given to the study of power as an enacted feature of community life Locating power more directly within a symbolic interactionist framework Beyond the Power Mystique not only enables scholars to permeate much of the mystique shrouding power but explicitly viewing power as intersubjective accomplishment the material presented here fosters a research agenda that is highly attentive to the collectively articulated aspects of power relations Consideration is given to the ways in which power is brought into existence

implemented experienced sustained objectified resisted dissipated and reconstituted in actual practice Addressing the full range of associations occurring in all human arenas from small group settings to large scale theaters of operations this volume provides a conceptually viable means of synthesizing so called macro and micro realms of power Prus considers people s definitions of and routings into situations of power as well as the dilemmas they face the strategies they assume and the limitations they encounter as they enter into interchanges with others on both more individualized and collectively coordinated bases and in both long term and more situated instances **Plowshares** Kristen Tobey,2016-07-28 In September 1980 eight Catholic activists made their way into a Pennsylvania General Electric plant housing parts for nuclear missiles Evading security guards these activists pounded on missile nose cones with hammers and then covered the cones in their own blood This act of nonviolent resistance was their answer to calls for prophetic witness in the Old Testament They shall beat their swords into plowshares and their spears into pruning hooks Nation shall not take up sword against nation they shall never again know war Plowshares explores the closely interwoven religious and social significance of the group s use of performance to achieve its goals It looks at the group s acts of civil disobedience such as that undertaken at the GE plant in 1980 and the Plowshares behavior at the legal trials that result from these protests Interpreting the Bible as a mandate to enact God s kingdom through political resistance the Plowshares work toward symbolic disarmament with the aim of eradicating nuclear weapons Plowshares activists continue to carry out such divine obediences against facilities where equipment used in the production or deployment of nuclear weapons is manufactured or stored Whether one agrees or disagrees with their actions this volume helps us better understand their motivations logic identity and ultimate goal

Realizing Peace Louis Kriesberg,2015-03-30 Early work in conflict resolution and peace research focused on why wars broke out why they persisted and why peace agreements failed to endure Later research has focused on what actions and circumstances have actually averted destructive escalations stopped the perpetuation of destructive conduct produced a relatively good conflict transformation or resulted in an enduring and relatively equitable relationship among former adversaries This later research which began in the 1950s recognizes that conflict is inevitable and is often waged in the name of rectifying injustice Additionally it argues that damages can be minimized and gains maximized for various stakeholders in waging and settling conflicts This theory which is known as the constructive conflict approach looks at how conflicts can be waged and resolved so they are broadly beneficial rather than mutually destructive In this book Louis Kriesberg one of the major figures in the school of constructive conflict looks at major foreign conflict episodes in which the United States has been involved since the onset of the Cold War to analyze when American involvement in foreign conflicts has been relatively effective and beneficial and when it has not In doing so he analyzes whether the US took constructive approaches to conflict and whether the approach yielded better consequences than more traditional coercive approaches Realizing Peace helps readers interested in engaging or learning about foreign policy to better understand what has happened in past American

involvement in foreign conflicts to think freshly about better alternatives and to act in support of more constructive strategies in the future     **A Theory of Nonviolent Action** Stellan Vinthagen, 2015-11-15 In this ground breaking and much needed book Stellan Vinthagen provides the first major systematic attempt to develop a theory of nonviolent action since Gene Sharp's seminal *The Politics of Nonviolent Action* in 1973 Employing a rich collection of historical and contemporary social movements from various parts of the world as examples from the civil rights movement in America to anti Apartheid protestors in South Africa to Gandhi and his followers in India and addressing core theoretical issues concerning nonviolent action in an innovative penetrating way Vinthagen argues for a repertoire of nonviolence that combines resistance and construction Contrary to earlier research this repertoire consisting of dialogue facilitation normative regulation power breaking and utopian enactment is shown to be both multidimensional and contradictory creating difficult contradictions within nonviolence while simultaneously providing its creative and transformative force An important contribution in the field *A Theory of Nonviolent Action* is essential for anyone involved with nonviolent action who wants to think about what they are doing     *Ibss: Political Science: 1994* British Library of Political and Economic Science at the London School of Economics, 1995-12-08 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences
