**Proust, the Body and Literary Form** Michael R. Finn, 1999-03-25 This 1999 study examines the connections between Proust's fin de siècle nervousness and his apprehensions regarding literary form Michael Finn shows that Proust's anxieties both about bodily weakness and about novel writing were fed by a set of intriguing psychological and medical texts and were mirrored in the nerve-based afflictions of earlier writers including Flaubert Baudelaire Nerval and the Goncourt brothers Finn argues that once Proust cast off his concerns about being a nervous weakling he was freed to poke fun both at the

supposed purity of the novel form Hysteria as a figure and as a theme becomes a key to the Proustian narrative and a certain kind of wordless bodily copying of gesture and event is revealed to be at the heart of a writing technique which undermines many of the conventions of fiction     The Age of Conversation Benedetta Craveri, 2006-08-01 Now in paperback an award winning look at French salons and the women who presided over them In the seventeenth and eighteenth centuries between the reign of Louis XIII and the Revolution French aristocratic society developed an art of living based on a refined code of good manners Conversation which began as a way of passing time eventually became the central ritual of social life In the salons freed from the rigidity of court life it was women who dictated the rules and presided over exchanges among socialites writers theologians and statesmen They contributed decisively to the development of the modern French language new literary forms and debates over philosophical and scientific ideas With a cast of characters both famous and unknown ranging from the Marquise de Rambouillet to Madame de Sta l and including figures like Ninon de Lenclos the Marquise de Sevigne and Madame de Lafayette as well as Pascal La Rochefoucauld Diderot and Voltaire Benedetta Craveri traces the history of this worldly society that carried the art of sociability to its supreme perfection and ultimately helped bring on the Revolution that swept it all away     **Conversational Enlightenment** David Randall, 2019-01-30 Traces the spread of the concept of conversation during the Enlightenment including the project of politeness the fine arts philosophy and public opinion The book narrates this triumph of conversational style and thought partly as a succession to the oratorical rhetoric that characterized the Renaissance and partly as the victory of the only mode of speech that recognized women as women and not as imitation men It also rewrites J rgen Habermas history of the public sphere as the history of rational conversation

constructed their cultural relations with the French as relations of seduction and desire. She argues that this produced anxiety on the part of the English over the effect of French practices on English masculinity and the virtue of English women. By the end of the century representing the French as an effeminate other was integral to the forging of English masculine national identity. Michele Cohen examines the derogation of women and the French which accompanied the emergent masculine English identity. While taciturnity became emblematic of the English gentleman's depth of mind and masculinity, sprightly conversation was seen as representing the shallow and inferior intellect of English women and the French of both sexes. Michele Cohen also demonstrates how visible evidence of girls' verbal and language learning skills served only to construe the female mind as inferior. She argues that this perception still has currency today. *Surrealist Collage in Text and Image* Elza Adamowicz, 1998-05-28 A new analysis of Surrealist collage in France leading to a radical reassessment of Surrealism. *Symbolist Aesthetics and Early Abstract Art* Dee Reynolds, 1995-03-30 This innovative analysis of the role of imagination as a central concept in both literary and art criticism studies works by Rimbaud, Mallarmé, Kandinsky and Mondrian. **Literature, Art and the Pursuit of Decay in Twentieth-Century France** Timothy Mathews, 2006-01-19 Mathews examines work by writers and painters working in France in the twentieth century. *Democracy and the Death of Shame* Jill Locke, 2016-04-01 Is shame dead? With personal information made so widely available, an eroding public/private distinction and a therapeutic turn in public discourse, many seem to think so. People across the political spectrum have criticized these developments and sought to resurrect shame in order to protect privacy and invigorate democratic politics. *Democracy and the Death of Shame* reads the fear that shame is dead as an expression of anxiety about the social disturbance endemic to democratic politics. Far from an essential supplement to democracy, the recurring call to bring back shame and other civilizing mores is a disciplinary reaction to the work of democratic citizens who extend the meaning of political equality into social realms. Rereadings from the ancient Cynics to the mid twentieth century challenge the view that shame is dead and show how shame as a politically charged idea is disavowed, invoked and negotiated in moments of democratic struggle. **Mariette and the Science of the Connoisseur in Eighteenth-Century Europe** Kristel Smentek, 2017-07-05 Celebrated connoisseur, drawings collector, print dealer, book publisher and authority on the art of antiquity, Pierre Jean Mariette 1694-1774 was a pivotal figure in the eighteenth-century European art world. Focusing on the trajectory of Mariette's career, this book examines the material practices and social networks through which connoisseurs forged the idea of art as an object of empirical and historical analysis. Drawing on significant unpublished archival material as well as on histories of science, publishing, collecting and display, this book shows how Mariette and his colleagues' practices of classification and interpretation of the graphic arts gave rise to new conceptions of artistic authorship and to a history of art that transcended the biographies of individual artists. To follow Mariette's career through the eighteenth century is to see that art was consolidated as a specialized category of intellectual inquiry and that style emerged as its structuring analytic.

device in the overlapping spaces of the collector's cabinet, the connoisseur's portfolio and the dealer's shop      **From Bayle to the Batavian Revolution** Wiep van Bunge, 2018-10-22 This book is an attempt to assess the part played by philosophy in the eighteenth century Dutch Enlightenment. Following Bayle's death and the demise of the radical Enlightenment, Dutch philosophers soon embraced Newtonianism, and by the second half of the century Wolffianism also started to spread among Dutch academics. Once the Republic started to crumble, Dutch enlightened discourse took a political turn, but with the exception of Frans Hemsterhuis, who chose to ignore the political crisis, it failed to produce original philosophers. By the end of the century, the majority of Dutch philosophers typically refused to embrace Kant's transcendental project as well as his cosmopolitanism. Instead, early nineteenth century Dutch professors of philosophy preferred to cultivate their joint admiration for the Ancients.

System and Writing in the Philosophy of Jacques Derrida Christopher Johnson, 1993-04-15 This is an important new critical analysis of Derrida's theory of writing based on close readings of key texts. It reveals a dimension of Derrida's thinking that has been neglected in favor of those deconstructionist clichés favored by much recent literary criticism. Christopher Johnson highlights the special character of Derrida's philosophy that comes from his contact with contemporary natural science and with systems theory. This study casts new light on an exacting set of intellectual issues facing philosophy and critical theory today.
