Presley,2016-01-09 **Legal Evolution and Political Authority in Indonesia** Daniel Lev,2021-10-25 For nearly forty years following the collapse of Indonesia s parliamentary system Indonesia s once independent legal institutions were transformed into dedicated instruments of a powerful elite and allowed to sink into a deep mire of corruption and malfeasance Legal process was devastated far beyond the capacity of any simple effort at reconstruction by post Suharto governments Indonesia s problems in this respect surpass those of other countries in the region compelled by economic crisis to re examine institutional structures The works reprinted in this collection constitute a case study over time of legal decay and the rise of reform interests in one of the most complex countries in the world Written during a period of more than thirty years beginning in the early 1960s the essays trace several themes in the legal history of modern Indonesia They make clear however that legal history is seldom that alone but rather like law itself is largely derivative fundamentally imbedded in the interest ideas purposes and contentions of local political social and economic power *William Lethaby, Symbolism and the Occult* Amandeep Kaur Mann,2022-03-23 This book delves into the life and work of architect William Richard Lethaby 1857 1931 and his relationship with the occult and alchemy in particular Using detailed analysis of Lethaby s drawings and architecture the research uncovers Lethaby s

Sanneh, 2016-08-19 Over the course of the last 1400 years Islam has grown from a small band of followers on the Arabian peninsula into a global religion of over a billion believers How did this happen The usual answer is that Islam spread by the

sword believers waged jihad against rival tribes and kingdoms and forced them to convert Lamin Sanneh argues that this is far from the whole story Beyond Jihad examines the origin and evolution of the African pacifist tradition in Islam beginning with an inquiry into the faith's origins and expansion in North Africa and its transmission across trans Saharan trade routes to West Africa The book focuses on the ways in which without jihad the religion spread and took hold and what that tells us about the nature of religious and social change At the heart of this process were clerics who used religious and legal scholarship to promote Islam Once this clerical class emerged it offered continuity and stability in the midst of political changes and cultural shifts helping to inhibit the spread of radicalism and subduing the urge to wage jihad With its policy of religious and inter ethnic accommodation this pacifist tradition took Islam beyond traditional trade routes and kingdoms into remote districts of the Mali Empire instilling a patient Sufi inspired and jihad negating impulse into religious life and practice Islam was successful in Africa Sanneh argues not because of military might but because it was made African by Africans who adapted it to a variety of contexts

The Other Quiet Revolution José E. Igartua, 2011-11-01 In the twenty years following the Second World War representations of national identity in anglophone Canada underwent a deep transformation Ethnic definitions of Canadian identity gave way to a rights based concept of citizenship The Other Quiet Revolution traces this under examined cultural transformation woven through key developments in the formation of Canadian nationhood from the 1946 Citizenship Act and the 1956 Suez crisis to the Royal Commission on Bilingualism and Biculturalism 1963 1970 and the adoption of the federal multiculturalism policy in 1971 In this elegant work Jos Igartua analyzes editorial opinion political rhetoric history textbooks and public opinion polls to show how Canada's self conception as a British country extended into the 1950s In the decade that followed however the British definition of Canada dissolved Struggles with bilingualism and biculturalism as well as Quebec's constitutional demands helped to fashion new representations of national identity in English speaking Canada based on the civic principle of equality With its sophisticated conceptual framework and systematic approach to understanding the discourse of Canadian collective identity The Other Quiet Revolution will appeal to readers interested in Canadian identity and nationalism and to general readers of Canadian history

Origins of Muslim Consciousness in India Syed Nesar Ahmad, 1991-08-30 The debate over the underlying causes of the clash between Hindus and Muslims which continues to polarize India is the central concern of this volume Syed Nesar Ahmad challenges popular viewpoints regarding the Hindu Muslim conflict by asserting that although intrinsic differences between the two cultures do exist and this schism has been somewhat fueled by the cultural conditions in colonial India the emergence and growth of the conflict is primarily the result of social and economic forces both global and regional that has caused the initial differences to intensify into cultural rift Ahmad presents a thorough account of Indian history during the 19th and 20th centuries analyzing how the relationship between Hindus and Muslims has been shaped by each significant political and social development Evidence of both selectivism and assimilation

between Hindus and Muslims a concept not previously accepted is apparent throughout the history and the issue of the origins of the identity of the Muslim consciousness which now exerts such influence in the region is explained in terms of the interaction of religious social cultural and global factors By viewing India s struggle for its post colonial identity from this comprehensive historical perspective this work illuminates some of the fundamental causes of similar conflicts throughout the former colonial world

Risky Medicine Robert Aronowitz,2015-09-16 Will ever more sensitive screening tests for cancer lead to longer better lives Will anticipating and trying to prevent the future complications of chronic disease lead to better health Not always says Robert Aronowitz In fact it often is hurting us Drawing on such controversial examples as HPV vaccines cancer screening programs and the cancer survivorship movement Aronowitz demonstrates that patients and their doctors have come to believe perilously that far too many medical interventions are worthwhile because they promise to control our fears and reduce uncertainty Taken from book flyleaf
