James Gregor, 2015-03-08 How valid are the assertions of contemporary radicals who insist that they are Marxists A James Gregor measures the distance that separates today s radicals from the belief system of Marx and Engels He finds that the characteristic qualities of modern mass mobilizing movements bear more impressive similarities to the paradigmatic Fascism of Benito Mussolini than to classical Marxism Thus he offers a new conceptual framework for the analysis of contemporary totalitarian movements and established regimes Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **The Necessary Nation** Gregory Jusdanis, 2011-06-27 In this controversial look at nationalism Gregory Jusdanis offers a sweeping defense of the nation as a protector of cultural difference and a catalyst for

modernization Since the end of the Cold War the nation state has undergone intense scrutiny among critics in the media and the academy Many believe that civic nationalism may be fruitful but that cultural nationalism fosters xenophobia and backward thinking Jusdanis however emphasizes the positive collaboration between nation building and culture Through a series of critical readings of multicultural postcolonial and globalization theories the author reveals how nationalism enables people to defend their distinctive ways of life to fight colonial oppression and to build an independent society of citizens He explains why people over the last two hundred years have politicized their ethnic identities and have sought a union of culture and power within an autonomous nation state While seeking to defend nationalism Jusdanis also examines its potential to unleash extraordinary violence into the world He thus proposes federalism as a political solution to the challenges posed by nationalism and globalization Jusdanis applies the tools of disciplines ranging from anthropology to philosophy as he explores the nation building projects of numerous and diverse countries around the world What emerges is a fresh perspective on the subjects of national culture identity political nations globalization postcolonialism and diaspora

**Contemporary Democracies** G. Bingham POWELL, G. Bingham Powell, 2009-06-30 Why do some democracies succeed while others fail In seeking an answer to this classic problem G Bingham Powell Jr examines the record of voter participation government stability and violence in 29 democracies during the 1960s and 1970s The core of the book and its most distinguishing feature is the treatment of the role of political parties in mobilizing citizens and containing violence [A](#)

Selected List of U.S. Readings on Development Saul Milton Katz, Frank McGowan, 1963 **The Sociology and Politics of Development** Baidya Nath Varma, 2010-11-26 Originally published in 1980 this work answers the crucial question of how social change should be guided in the developing countries Professor Varma begins by posing the problems of the general scope of modernization and the general criteria used in the modernization process He examines carefully some of the models that have been used for this purpose in the past providing extensive summaries of the views on modernization of theorists in various social science disciplines including sociology politics economics and anthropology and stresses the importance of these views in guiding policy decisions The book concludes with a comparison of the development processes of the United States the Soviet Union China Japan and India **Nationalist Voices in Jordan** Betty S. Anderson, 2009-09-15 According to

conventional wisdom the national identity of the Jordanian state was defined by the ruling Hashemite family which has governed the country since the 1920s But this view overlooks the significant role that the Arab street in this case ordinary Jordanians and Palestinians played and continues to play in defining national identity in Jordan and the Fertile Crescent as a whole Indeed as this pathfinding study makes clear the street no less than the state has been a major actor in the process of nation building in the Middle East during and after the colonial era In this book Betty Anderson examines the activities of the Jordanian National Movement JNM a collection of leftist political parties that worked to promote pan Arab unity and oppose the continuation of a separate Jordanian state from the 1920s through the 1950s Using primary sources including memoirs

interviews poetry textbooks and newspapers as well as archival records she shows how the expansion of education new jobs in the public and private sectors changes in economic relationships the establishment of national militaries and the explosion of media outlets all converged to offer ordinary Jordanians and Palestinians who were under the Jordanian government at the time an alternative sense of national identity Anderson convincingly demonstrates that key elements of the JNM's pan Arab vision and goals influenced and were ultimately adopted by the Hashemite elite even though the movement itself was politically defeated in 1957

The Clash Within Civilizations Dieter Senghaas, 2002 Expanding upon and engaging with the influential theories of Francis Fukuyama in *The End of History* and Samuel Huntington in *The Clash of Civilisations* this book is a major and controversial contribution to these key contemporary debates Dieter Senghaas examines some of the most significant political issues we face today How do societies cope with pluralization Can tolerance be a successful solution What is the role of culture in recent conflicts which have been described as culturally induced And will twenty first century world politics sink into cultural conflicts on a biblical scale Dieter Senghaas explores these questions within the context of the main non Western cultural areas Chinese political philosophy Islam Buddhism and Hinduism and goes on to reflect on the possibility of a constructive form of intercultural dialogue Senghaas's distinctive and radical approach will be of great interest and topicality to all those working in politics international relations sociology cultural studies development studies religion and international political economy

**Nation Building in Comparative Contexts** William Foltz, 2017-07-12 What is and what makes a nation What forces work for and against the emergence of new nations What does the emergence of a nation mean to its people and what does it mean to international stability *Nation Building in Comparative Contexts* answers these questions Nine leading area specialists compare and analyze the long history of nationalism in Europe with its shorter histories in the Americas Asia and Africa The result is an outstanding contribution to understanding the problems confronting today's emerging nations one that remains of importance to the field The essays in this book provide the tools for comparison and analysis across continents and centuries The chapters dealing with Europe where the political and historical evidence is richest stress the broadest outlines of the nation making process The chapter on Asia concentrates on revolutionary war the two chapters on Africa where the creation or failure of nation states is a matter of the political situation of the moment raise the largest number of concrete problems Investigators have discovered that the making and breaking of nations is a process that must be studied in its general and uniform aspects especially if the unique features of each country and epoch are to be understood better The essays in this book are first steps in the comparison and analysis across the continents and centuries To some degree each combines concerns of the historian social scientist and of policy maker and statesman
