Political Conditionality:

Political Conditionality Georg Sorensen, 2013-11-05 Political conditionality involves the linking of development aid to certain standards of observance of human rights and liberal democracy in recipient countries. Although this may seem to be an innocent policy, it has the potential to bring about a dramatic change in the basic principles of the international system. Putting human rights first means putting respect for individuals and rights before respect for the sovereignty of states.

Aid and Political Conditionality Olav Stokke, 2013-04-03 Foreign aid has increasingly become subject to political conditionality. In the 1980s, some institutions made aid dependent upon the recipient countries' economic policy reforms. Market liberalisation was the primary instrument and objective. In the 1990s, such conditionality was brought one step further: aid was now linked to political reforms affecting recipient countries' governing systems, requiring democracy, human rights, and good governance. This volume looks at these developments and considers the conditionality policies of several European aid donors. Such policies are also considered from recipient perspectives, both from the Third World and Russia, and the issue is also considered from a historical perspective. European Union's Approach to Human Rights Conditionality in Practice

Elena Fierro, 2003. 2.2.3 Rule of Law. **The Use of Political Conditionality in the EU's Relations with Third Countries** Karen Elizabeth Smith, 1997. **Croatia and the European Union** Pero Maldini, Davor Pauković, 2016-03-09. The accession of Croatia to the EU marked the end of a long and arduous period of transition. Croatia had to meet significantly higher criteria than previous states, with suspicion and concerns among existing members about further enlargement increasing. Meanwhile, initially strong public support in Croatia declined as inconsistencies in EU policy entry criteria and problems caused by the economic crisis, all combined with fears about the loss of national identity and the ability to realize national interests. The successful Croatian accession to the EU in 2013 shows that despite concerns on both sides, the EU continues to have meaning and significance and that membership remains highly desirable. Through nine mutually interrelated chapters, the contributors speak not only about the political and social situation in Croatia but also prospects for the European Union itself. **Conflicting Objectives in Democracy Promotion** Julia Leininger, Sonja Grimm, Tina Freyburg, 2017-07-05. The agenda of external actors often includes a number of objectives that do not necessarily and automatically go together. Fostering security and stability in semi-authoritarian regimes collides with policies aimed at the support of processes of democratization, prone to conflict and destabilization. Meanwhile, the promotion of national self-determination and political empowerment might lead to forms of democracy partially incompatible with liberal understandings. These conflicting objectives are often problematized as challenges to the effectiveness of international democracy promotion. This book presents systematic research about their emergence and effects. The contributing authors investigate post-conflict societies, developing countries, and authoritarian regimes in Southeast Europe, Latin America, Africa, and Asia. They identify the socio-economic and political conditions in the recipient country, the interaction between

international and local actors and the capacity of international and local actors as relevant for explaining the emergence of conflicting objectives And they empirically show that faced with conflicting objectives donors either use a wait and see approach i e not to act to overcome such conflicts they prioritize security state building and development over democracy or they compromise democracy promotion with other goals However convincing strategies for dealing with such conflicts still need to be devised This book was published as a special issue of Democratization

The EU and Member State Building Soeren Keil,Zeynep Arkan,2014-12-05 This book critically examines the process of statebuilding by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union s policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU s actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general

Divergent Pathways: Turkey and the European Union Meltem Müftüler-Baç,2016-01-18 Should Turkey become a part of the European Union This heated debate has been going on for many years now always under the assumption that it is the membership candidate alone who needs to adjust to the EU s influence The book s main argument is precisely that the Turkish accession needs to be analyzed not only by looking at the EU s impact on Turkish transformation but also from an angle that captures the Turkish role in recasting Europe

Foreign Aid in a Changing World Peter Burnell,1997-09-16 An accessible introduction for all social science students A balanced comprehensive and up to date treatment of the issues and trends A guide to the past present and future of foreign aid Foreign aid has undergone considerable changes over the past fifty years Foreign Aid in a Changing World explores the changes and locates them in a context of wider economic and political developments These are the developments affecting all countries in North South East and West and in particular the changing relations among them The book analyses the different reasons why some countries both in the developing world and former communist states seem to need assistance It critically surveys the values based and interests based arguments in

favour of aid and its many forms encompasses the important non governmental and multilateral dimensions as well as the bilateral flows at national and sub national levels and focuses particularly on the contemporary emphasis on making aid dependent on democratization and good government Peter Burnell examines the principal influences on foreign aid what makes aid controversial and whether it has a future He provides an important text for all students of international relations and development studies across the social science disciplines Aid and the Political Economy of Policy Change Tony

Killick, Ramani Gunatilaka, Ana Marr, 1998 Confronts the theory of conditionality with its limitations in practice analyses the reasons for these limitations and suggests constructive alternatives **International Politics and National Political**

Regimes Peter Burnell, Oliver Schlumberger, 2014-06-11 There is much speculation about whether democracy is still advancing around the world and the influence that leading authoritarian or semi authoritarian regimes such as Russia are starting to have on the trends This collection assesses global trends in democratisation reviews the condition of international democracy promotion and enquires into whether serious competition in the form of autocracy promotion is now a major possibility The influence of international politics on national political regimes is explored in more detail for Russia s resistance to democracy promotion and Russian influence on regimes in Central Asia in particular along with an Indian perspective on India s reluctance to push for democracy abroad and concerns that democracy promotion itself should be considered more critically if it undermines democratisation in foreign aid dependent states The book concludes by briefly addressing the potential significance of the 2011 Arab spring for these themes This book was published as a special issue of Contemporary Politics Integrating the Balkans Máire Braniff, 2011-06-30 Emerging from a decade of violent ethnic and

inter state conflict during the 1990s the countries of the Western Balkans entered a phase of rebuilding and reconciliation Due to the key role played by the EU in the region s rebuilding efforts Integrating the Balkans explores this institution s considerable efforts to influence and shape the nature of state society and foreign relations as it utilised the promise of membership as a vital tool to exert its influence The picture that materialises is one of the EU s discernible but often contradictory impact as it offers the carrot of EU membership in the hope that the legacies of the past conflict can be re evaluated re imagined and transformed By also analysing the conditions that come with EU aid such as co operation with the International Criminal Tribunal for the former Yugoslavia ICTY Maire Braniff offers an extremely important perspective for all those involved in the study and practice of the processes of European integration and post conflict resolution Political

Mistakes and Policy Failures in International Relations Andreas Kruck, Kai Oppermann, Alexander Spencer, 2018-02-16 This edited volume analyzes mistakes in different areas of international relations including the realms of security foreign policy finance health development environmental policy and migration By starting out from a broad concept of mistakes as something considered to have gone wrong the edited volume enables comparisons of various kinds of mistakes from a range of analytical perspectives including objectivist and interpretivist approaches in order to draw out answers to the following

guiding questions How does one identify and research a mistake Why do mistakes happen How are actors made responsible When and how do actors learn from mistakes This book will be of great interest to scholars undergraduate and postgraduate students as well as practitioners in International Relations Foreign Policy Analysis Security Studies International Political Economy and Diplomatic History

The Political Economy of Aid in Palestine Sahar Taghdisi-Rad, 2010-10-04 This book examines the nature of donor operations in Palestine and questions the viability of aid as an instrument of economic development in conflict zones It highlights the political and ideological determinants of aid allocation and effectiveness arguing that aid to Palestine cannot bring about significant improvement as long as the Palestinian economy is fundamentally affected by Israeli occupation settlement and blockade

International Actors, Democratization and the Rule of Law Amichai Magen, Leonardo Morlino, 2008-07-25 Explores how external influences and international actors can help hybrid regimes which display minimal elements of an electoral democracy to be transformed into a quality democracy

Interests and Stability or Ideologies and Order in Contemporary World Politics Fabio Fossati, 2017-05-11 Drawing upon extensive experience of both theoretical and empirical research according to the Italian school of Political Science this book provides a holistic assessment of contemporary world politics It begins by defining concepts such as world order before going on to classify foreign policies into four models of political cultures namely the interests intensive conservative the ideologies intensive liberal the leftist constructivist and the leftist Manichean The volume shows how multipolar and bipolar systems have remained relatively stable with each main power defending its own interests yet ultimately not promoting ideas and order Change periods however are instable Between 1915 and 1945 Nazi fascist and communist ideologies emerged but after Yalta the West did not effectively export market democracy and peace to the Third World After 1989 the ideas of liberalism in economic globalization and EU enlargement neo conservatism in the Iraq war and multi cultural leftism in pluri national conflict resolution processes began to be applied toward a near world order Since 2001 Islamic fundamentalism s threat has prevented both stability with the failure of the concert of powers of the 1990s and order with minimal improvements in democracy and peace Following the Arab Spring Obama has also abandoned interests intensive conservative diplomacy no longer supporting lesser evils personalistic or military regimes against absolute evils such as the Islamic State and waged only low intensity wars in Iraq Syria and Libya

European Union Jeremy Richardson, 2006-01-16 This best selling book delivers a comprehensive introduction to the policy making processes at work in the European Union Written by some of the leading authorities in the field this new edition has been significantly improved to make it even more accessible for second and third year undergraduates Addressing some of the more contentious areas in order to stimulate students interest this book also continues to cover the vital elements of EU courses including theory history institutions policy relations with member states external relations enlargement A companion website also supports this edition with a clear guide to more technical material such as statistics as well as regular updates This volume is essential reading for all students of politics and

the European Union *Soviet Foreign Policy in a Changing World* Robbin F. Laird, Erik P. Hoffmann, 2021-03-22 No detailed description available for Soviet Foreign Policy in a Changing World *Developmentality* Jon Harald Sande Lie, 2015-09-01 Drawing on ethnographic fieldwork within the World Bank and a Ugandan ministry this book critically examines how the new aid architecture recasts aid relations as a partnership While intended to alter an asymmetrical relationship by fostering greater recipient participation and ownership this book demonstrates how donors still seek to retain control through other indirect and informal means The concept of developmentality shows how the World Bank's ability to steer a client's behavior is disguised by the underlying ideas of partnership ownership and participation which come with other instruments through which the Bank manipulates the aid recipient into aligning with its own policies and practices **Europe and the Post-Yugoslav Space** Branislav Radeljic, 2016-04-22 Charting the path from intervention to integration Europe and the Post Yugoslav Space examines the role of Europeanization on the development of the countries of the former Yugoslavia Slovenia Croatia Macedonia Montenegro Serbia Bosnia and Herzegovina and Kosovo may have a shared history but their experiences views and attitudes to European integration vary dramatically Opinion within each state is often equally as keenly divided as to the benefits of active membership The debate within each country and their comparative differences in approach provide fascinating case studies on the importance and relevance of the EU and the effectiveness of Europeanization A wide range of contributors with significant experience gained within the EU as well as their country of origin use their expert understanding of the language and cultures of the countries concerned to provide detailed and rich insights into the troubled history and potential of the post Yugoslav space

The Top Books of the Year Political Conditionality The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Political Conditionality : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
