Political Culture In Libya:

Political Culture in Libya Amal S M Obeidi, Amal Obeidi, 2013-09-05 Few empirical studies of Arab countries have dealt with political culture and political socialisation or focused on people's beliefs, values and attitudes towards the government or political leaders mainly because the regimes have been reluctant to allow opinion to be tested. The significance of this book is that it assesses the influence of state ideology on the new generation of Libyans and examines their political culture.

Political Culture in Libya Amal Suleiman Mahmoud Obeidi, 1996 **Libya's Past, Present, and Vision of the Future** Mehmet Nesip Ögün, Serdar Yurtsever, Abdulkarim Said, 2020-02-26 The dynamics of religion, tribalism, oil and ideology have always been dominant in Libya, which is trying to establish a new order in the political arena after the Gadhafi regime and NATO intervention. This process, which has had painful side effects and faced various serious difficulties, is carried out with a certain system. This book examines the current political practices of Libya and the state administration process and studies the past and present administrative processes that are present in the social and cultural structure of Libyan society.

PHD THESIS: Political Culture in Libya Amal Suleman Mahamoud Obeidi, 1996 Libya and the Global Enduring Disorder Jason Pack, 2022-02-15 We no longer inhabit a world governed by international coordination, a unified NATO bloc or an American hegemon. Traditionally, the decline of one empire leads to a restoration in the balance of power via a struggle among rival systems of order. Yet this dynamic is surprisingly absent today; instead, the superpowers have all at times sought to promote what Jason Pack terms the Enduring Disorder. He contends that Libya's ongoing conflict, more so than the civil wars in Yemen, Syria, Venezuela or Ukraine, constitutes the ideal microcosm in which to identify the salient features of this new era of geopolitics. The country's post-Qadhafi trajectory has been molded by the stark absence of coherent international diplomacy, while Libya's incremental implosion has precipitated cross-border contagion, further corroding global institutions and international partnership. Pack draws on over two decades of research in and on Libya and Syria to highlight the Kafkaesque aspects of today's global affairs. He shows how even the threats posed by the Arab Spring and the Benghazi assassination of US Ambassador J. Christopher Stevens couldn't occasion a unified Western response. Rather, they have further undercut global collaboration, demonstrating the self-reinforcing nature of the progressively collapsing world order.

Islamist Radicalisation in North Africa George Joffe, 2012-06-12 This book focuses on the current issues and analytical approaches to the phenomenon of radicalisation in North Africa. Taking a comprehensive approach to the subject, it looks at the processes that lead to radicalisation rather than the often violent outcomes. *The 2011 Libyan Uprisings and the Struggle for the Post-Qadhafi Future* J. Pack, 2013-06-18 The 2011 Libyan Uprisings is a thematic investigation of how pre-existing social, regional, tribal and religious fissures influenced the trajectory of the 2011 Libyan Uprisings and an analysis of what this means for the post-Qadhafi future. *Libya's Fragmentation* Wolfram Lacher, 2020-02-20 Shortlisted for the Conflict Research Society's 2021 Book of the Year Prize. Shortlisted for the British Kuwait Friendship Society 2021 Book Prize.

After the overthrow of the Qadhafi regime in 2011 Libya witnessed a dramatic breakdown of centralized power. Countless local factions carved up the country into a patchwork of spheres of influence. Almost no nationwide or even regional organizations emerged and no national institutions survived the turbulent descent into renewed civil war. Only the leader of one armed coalition, Khalifa Haftar, managed to overcome competitors and centralize authority over eastern Libya. But tenacious resistance from armed groups in western Libya blocked Haftar's attempt to seize power in the capital Tripoli. Rarely does political fragmentation occur as radically as in Libya, where it has been the primary obstacle to the re-establishment of central authority. This book analyzes the forces that have shaped the country's trajectory since 2011. Confounding widely held assumptions about the role of Libya's tribes in the revolution, Wolfram Lacher shows how war transformed local communities and explains why Khalifa Haftar has been able to consolidate his sway over the northeast. Based on hundreds of interviews with key actors in the conflict, Lacher advances an approach to the study of civil wars that places the transformation of social ties at the centre of analysis.

Political Aesthetics of Global Protest Pnina

Werbner, 2014-07-30 From Egypt to India and from Botswana to London, worker, youth and middle class rebellions have taken on the political and bureaucratic status quo. When most people can no longer earn a decent wage, they pit themselves against the privilege of small wealthy and often corrupt elites. A remarkable feature of the protests from the Arab Spring onwards has been the salience of images, songs, videos, humour, satire and dramatic performances. This collection explores the central role the aesthetic played in energising the massive mobilisations of young people, the disaffected middle classes and the apolitical silent majority. Discover how it fuelled solidarities and alliances among democrats, workers, trade unions, civil rights activists and opposition parties.

Political Islam in a Time of Revolt Ferran Izquierdo Brichs, John Etherington, Laura

Feliu, 2017-07-31 This book explores the increasing political and social prominence of Islamist groups across the Middle East in recent years. The aftermath of the 2011 uprisings saw some groups access or even control political institutions through success at the ballot box, while there has also been a marked resurgence of armed Islamist groups that have had profound effects at both the national and regional level. This volume helps us to understand the nature and development of organised political Islam over recent decades in several key Arab and Mediterranean countries: Mauritania, Morocco, Algeria, Tunisia, Libya, Egypt, Syria, Lebanon, the Palestinian Territories and Turkey. The book identifies the central social and political Islamist actors, traces their ideological differences and similarities and analyses power relations both within and between these organizations in the context of political instability and uncertainty. It will be of interest to students and scholars across a broad range of disciplines including political science, sociology and international relations.

Multiculturalism and

Democracy in North Africa Moha Ennaji, 2014-04-16 Investigating the connections between multiculturalism, minorities, citizenship and democracy in North Africa, this book argues that multiculturalism in this region and in the Arab world at large has reached a significant level in terms of scale and importance. In the rest of the world, there has been a trend, albeit a

contested one toward a greater recognition of minority rights The Arab world however particularly North Africa seems to be an exception to this trend as Arab states continue to promote highly unitary and homogenizing ideas of nationhood and state unity whilst discouraging or even forbidding minority political mobilization The central theoretical premise of this book is that North Africa is a multicultural region where culture is inherently linked to politics religion gender and society and a place where democracy is gradually taking root despite many political and economic hurdles Addressing the lacuna in literature on this issue this book opens new avenues of thought and research on diversity linking policy based on cultural difference to democratic culture and to social justice Multiculturalism and Democracy in North Africa will be of use to students and researchers with an interest in Sociology Cultural Studies and Political Science more broadly

Local Self-Governance and Varieties of Statehood Dieter Neubert, Hans-Joachim Lauth, Christoph

Mohamad-Klotzbach, 2022-12-13 The debate on governance originates in the OECD world At the latest since the postcolonial debate we know that we need to test our assumptions under radically different conditions This book offers an extended perspective of local self governance by examining cases from South Asia Africa and Latin America together with a study of militias in the USA The chapters present a wide variety of local actors who pursue different notions of order legitimized by local traditions based on hierarchy or deeply rooted communalism Islamic theology or grassroots democracy Some local actors claim a state like authority and challenge the territorial state In such cases there is no longer a shadow hierarchy but opposition to the state Different violent actors fight for supremacy and the state is just one actor among others The empirical studies presented in this book show how different kinds of local self governance are combined with varieties of statehood and thus contribute to an understanding of the notion of governance in a fundamental sense that goes beyond the special case of the OECD world

Ahram,2019-01-09 Since 2011 civil wars and state failure have wracked the Arab world underlying the misalignment between national identity and political borders In **Break all the Borders** Ariel I Ahram examines the separatist movements that aimed to remake those borders and create new independent states With detailed studies of the Islamic State in Iraq and Syria the federalists in eastern Libya the southern resistance in Yemen and Kurdish nationalist parties Ahram explains how separatists captured territory and handled the tasks of rebel governance including managing oil exports electricity grids and irrigation networks Ahram emphasizes that the separatism arose not just as an opportunistic response to state collapse Rather separatists drew inspiration from the legacy of Woodrow Wilson and ideal of self determination They sought to reinstate political autonomy that had been lost during the early and mid twentieth century Speaking to the international community separatist promised a more just and stable world order In Yemen Syria Iraq and Libya they served as key allies against radical Islamic groups Yet their hopes for international recognition have gone unfulfilled Separatism is symptomatic of the contradictions in sovereignty and statehood in the Arab world Finding ways to integrate instead of eliminate separatist movements may be critical for rebuilding regional order **Handbook of Revolutions in the 21st Century** Jack A.
