

# The Government and Politics of Japan

Hiroshi Ake, Muneyuki Shindo, and Sadafusa Kuroda  
Translated and with an Introduction by  
James W. W. W. W.

UNIVERSITY OF CHICAGO PRESS

# Political Dynamics Of Japan

**Jun'ichi Kyōgoku**

## Political Dynamics Of Japan:

**The Political Dynamics of Japan** Jun'ichi Kyōgoku,1987      **Regime Shift** T. J. Pempel,1998 Pempel contrasts the political economy of Japan during two decades the 1960s when the nation experienced conservative political dominance and high growth and the early 1990s when the bubble economy collapsed and electoral politics changed The different dynamics of the two periods indicate a regime shift in which the present political economy deviates profoundly from earlier forms This shift has involved a transformation in socioeconomic alliances political and economic institutions and public policy profile rendering Japanese politics far less predictable than in the past Pempel weighs the Japanese case against comparative data from the USA Great Britain Sweden and Italy to show how unusual Japan's political economy had been in the 1960s The text suggests that Japan's present troubles are deeply rooted in the economy's earlier success      *Political Dynamics in Contemporary Japan* Gary D. Allinson,Yasunori Sone,1993      **The Political Dynamics of Japan** Jun'ichi Kyōgoku,1987  
*The Post-war Roots of Japanese Political Malaise* Dagfinn Gatu,2015-06-12 Writings on post war Japanese politics have tended to take for granted the dominance of the Liberal Democratic Party LDP as inevitable without questioning how this came about This book analyses the nature of Japanese party politics over the first four decades following the Second World War assessing how the chief contenders the conservative LDP and the socialists JSP Japan Socialist Party competed in terms of their strengths and weaknesses relative to the other Throughout it addresses the questions How effectively were the parties strengths harnessed How did they alter over time To what extent was the winning formula challenged Did the loser have access to strengths with a major potential and if so why did these remain underdeveloped It extends widely to include discussion of the political system the social and economic environment in which parties operated internal party matters especially factions personal support groups special interest groups and the role of government bureaucracy It shows why the Liberal Democratic Party was dominant why the Japan Socialist Party remained out of power and how successive prime ministers conducted policymaking in ways which often resulted in the bureaucracy taking the lead Overall the book shows how precedents for the political system and for policymaking were set in this important period precedents which continue and which have contributed significantly to the present conservative stance on many key issues      *The Evolution of Japan's Party System* Leonard James Schoppa,2011-01-01 The Evolution of Japan's Party System analyses the transition by examining both party politics and public policy This volume discusses how older parties such as the LDP and the Japan Socialist Party failed to adapt to the new policy environment of the 1990s      **Dictionary of the Modern Politics of Japan** Prof J A A Stockwin,J. A. A. Stockwin,2003-08-27 An accessible work of reference bringing together information and authoritative analysis on all aspects of the politics of Japan and the Japanese political system      *Japanese Political History Since the Meiji Restoration, 1868-2000* R. Sims,2019-06-12 Japanese Political History Since the Meiji Restoration 1868 2000 explores through a combination of narrative and analysis the changes in the political process which lay behind Japan's transformation

into a modern nation state its successive turn toward militarism fascism and the Pacific War and the imposition of a fully democratic constitution Sims examines closely such central topics as the Meiji renovation samurai modernisers the rise of liberal political parties the Meiji constitution Taisho democracy the wartime changes in the political system postwar reforms and the reverse course four decades of Liberal Democratic rule and the shake up of Japanese politics during the 1990s No other book has covered Japanese political history over the entire period since 1868 in such detail and the present volume aims to fill the gap between the various general histories of modern Japan and the ever increasing monographic literature

**The Political History of Modern Japan** Kitaoka Shinichi, 2018-10-10 Spanning the 130 year period between the end of the Tokugawa Era and the end of the Cold War this book introduces students to the formation collapse and rebirth of the modern Japanese state It demonstrates how faced with foreign threats Japan developed a new governing structure to deal with these challenges and in turn gradually shaped its international environment Had Japan been a self sufficient power like the United States it is unlikely that external relations would have exercised such great control over the nation And if it were a smaller country it may have been completely pressured from the outside and could not have influenced the global stage on its own For better or worse therefore this book argues Japan was neither too large nor too small Covering the major events actors and institutions of Japan's modern history the key themes discussed include Building the Meiji state and Constitution The establishment of Parliament The First Sino Japanese and Russo Japanese Wars Party Politics and International Cooperation The Pacific War Development of LDP politics Changes in the international order and the end of the Cold War This book written by one of Japan's leading experts on Japan's political history will be an essential resource for students of Japanese modern history and politics

**Women and Political Inequality in Japan** Mikiko Eto, 2020-12-17 Why are there so few Japanese women involved in the political system In 2019 Japanese women made up 10% of the national Lower House 21% of the Upper House and 14% of local assemblies According to the Inter Parliamentary Union this places Japan 164th out of 193 countries when it comes to women's representation in the legislature The percentage of women in the Lower House has only increased by fewer than two percentage points since women gained full suffrage and the right to stand for election in Japan in 1946 Eto analyses the various factors that have led to women's low presence in the Japanese legislature She evaluates ways in which it might be possible for Japan to catch up and in doing so examines how Japanese society continues to perpetuate gender rigid expectations of people This text is a valuable study for scholars of Japanese politics and society and for readers with an interest in the broader issue of the representation of women in politics

*Area Handbook for Japan* Donald P. Whitaker, 1974 *Governmental Changes and Party Political Dynamics in Korea and Japan* Korean Political Science Association, Japanese Political Science Association, 2012 *Parallel Politics* Samuel Kernell, 2010-12-01 While much has been written about economic competition between the United States and Japan it is easy to lose sight of the fact that their relationship is founded essentially on each sides domestic political concerns Many critics have concluded that to gain a

new equilibrium in relations the two countries must develop a sophisticated appreciation of each other's political dynamics. Because budgets, taxes and macroeconomic policy are so central to activities of both governments, this book by Japanese and American experts focuses on the role of political institutions in formulating economic policy. Despite the differences in the two countries' political systems, one party parliamentary versus two party presidential, there are striking similarities in the way politics is transacted in Japan and the United States. In particular, politicians in both countries are motivated primarily by the desire to serve local constituencies, which leads to overly parochial public policies. Combining case studies and discussions, the contributors provide an overview of the Japanese and American political systems, particularly those aspects that are most relevant to economic policymaking. In addition, they offer a comparative analysis of the politics of budgeting, tax reform and structural policies.

**The Logic of Japanese Politics** Gerald L. Curtis, 2000-11-05. Widely recognized both in America and Japan for his insider knowledge and penetrating analyses of Japanese politics, Gerald Curtis is the political analyst best positioned to explore the complexities of the Japanese political scene. Today, Curtis has personally known most of the key players in Japanese politics for more than thirty years, and he draws on their candid comments to provide invaluable and graphic insights into the world of Japanese politics. By relating the behavior of Japanese political leaders to the institutions within which they must operate, Curtis makes sense out of what others have regarded as enigmatic or illogical. He utilizes his skills as a scholar and his knowledge of the inner workings of the Japanese political system to highlight the commonalities of Japanese and Western political practices while at the same time explaining what sets Japan apart. Curtis rejects the notion that cultural distinctiveness and consensus are the defining elements of Japan's political decision making, emphasizing instead the competition among and the profound influence of individuals operating within particular institutional contexts on the development of Japan's politics. The discussions featured here, as they survey both the detailed events and the broad structures shaping the mercurial Japanese political scene of the 1990s, draw on extensive conversations with virtually all of the decade's political leaders and focus on the interactions among specific politicians as they struggle for political power. **The Logic of Japanese Politics** covers such important political developments as the Liberal Democratic Party's egress from power in 1993 after reigning for nearly four decades and their crushing defeat in the voters' revolt of the 1998 upper house election; the formation of the 1993 seven party coalition government led by prime minister Morihiro Hosokawa and its collapse eight months later; the historic electoral reform of 1994 which replaced the electoral system operative since the adoption of universal manhood suffrage in 1925 and the decline of machine politics and the rise of the mutohaso, the floating nonparty voter. Scrutinizing and interpreting a complex and changing political system, this multi-layered chronicle reveals the dynamics of democracy at work, Japanese style. In the process, **The Logic of Japanese Politics** not only offers a fascinating picture of Japanese politics and politicians but also provides a framework for understanding Japan's attempts to surmount its present problems and helps readers gain insight into Japan's future.

**Bargaining with Japan** Leonard James Schoppa, 1997

Schoppa documents how U S pressure has been misapplied in the past insisting on the need for a strategy more informed about internal Japanese politics While a strategy reliant on brute force is liable to backfire he argues one which works with domestic politics in Japan can succeed      **Living Cities in Japan** André Sorensen,Carolyn Funck,2007 Over the last fifteen years local citizens movements have spread rapidly throughout Japan This volume examines the growth and nature of civil society participation in local urban and environmental governance      **Japan's Budget Politics** Takaaki Suzuki,2000 What is the source of the increasing politicization of Japan s budgetary policy In this text Takaaki Suzuki explores this question finding answers in the interplay of domestic and international politics from the early 1970s through the 1990s      *Dynamic and Immobilist Politics in Japan* Martin Collick,Aurelia George,James Horne,Daiichi It,Alan Rix,J.A.A. Stockwin,1988-05-17 Over the past thirty years Japan has shown that it is a highly dynamic society and its economic policy making has often astonished the world Japanese politics however though sometimes showing dynamism are very stable and frequently strangely immobilist In this book six specialists on Japanese politics seek to find out why      **Japanese Democracy** Bradley Richardson,Bradley M. Richardson,1997-01-01 Richardson refutes the widely accepted hypothesis that postwar Japan has been a semiauthoritarian and consensual state arguing that Japanese political life has been extremely fragmented and discordant at all levels      **Japan: Shadow WTO Agricultural Domestic Support Notifications** Yoshihisa Godo and Daisuke Takahashi,

## **Political Dynamics Of Japan** Book Review: Unveiling the Magic of Language
