The Routledge Handbook of Political Ecology Tom Perreault, Gavin Bridge, James McCarthy, 2015-06-12 The Routledge Handbook of Political Ecology presents a comprehensive and authoritative examination of the rapidly growing field of political ecology Located at the intersection of geography anthropology sociology and environmental history political ecology is one of the most vibrant and conceptually diverse fields of inquiry into nature society relations within the social sciences The Handbook serves as an essential guide to this rapidly evolving intellectual landscape With contributions from over 50 leading authors the Handbook presents a systematic overview of political ecology's origins practices and core concerns and aims to advance both ongoing and emerging debates While there are numerous edited volumes textbooks and monographs under the heading political ecology these have tended to be relatively narrow in scope either as collections of empirically based mostly case study research on a given theme or broad overviews of the field aimed at undergraduate audiences The Routledge Handbook of Political Ecology is the first systematic comprehensive overview of the field With authors from North and South America Europe Australia and elsewhere the Handbook of Political Ecology provides a state of the art examination of political ecology addresses ongoing and emerging debates in this rapidly evolving field and charts new agendas for research policy and activism The Routledge Handbook of Political Ecology introduces political ecology as an interdisciplinary academic field By presenting a state of the art examination of the field it will serve as an invaluable resource for students and scholars It not only critically reviews the key debates in the field but develops them The Handbook will serve as an excellent resource for graduate and advanced undergraduate teaching and is a key reference text for geographers anthropologists sociologists environmental historians and others working in and around political ecology

Political Ecology Karl S. Zimmerer, Thomas J. Bassett, 2012-06-15 This volume offers a unique integrative perspective on the political and ecological processes shaping landscapes and resource use across the global North and South Twelve carefully selected case studies demonstrate how contemporary geographical theories and methods can contribute to understanding key environment and development issues and working toward effective policies Topics addressed include water and biodiversity resources urban and national resource planning scientific concepts of resource management and ideas of nature and conservation in the context of globalization Giving particular attention to evolving conceptions of nature society interaction and geographical scale an introduction and conclusion by the editors provide a clear analytical focus for the volume and summarize important developments and debates in the field

Political Ecology Dimitrios I. Roussopoulos, 1993 As with other social movements for change the movement for the protection of the environment embraces several schools of thought and action There is now a strong tendency among ecologists to go beyond engaging in educational efforts traditional protests government lobbying and participating in annual Earth Day activities and to make a serious commitment to bringing about more fundamental social and political change Political programmes are being elaborated which insist on the need for the basic transformation of the dominant institutions

in our society to enable people to live in peace with nature rather than in conflict with our natural environment The new direction in thinking which is advanced by Greens political ecologists and Green political organizations engaged in electoral action at various levels in liberal democracies can have a far reaching effect on our lifestyles our neighbourhoods and cities and on our politics Examining various streams of environmentalist and ecological thought this book presents an overview of the origins and nature of political ecology as well as a summary of the differences and similarities between political ecology and social ecology The unambiguous premise of the book is that the resolution of the current planetary crisis hinges on the fate and outcome of this new politics Page 4 of cover

Critical Political Ecology Tim Forsyth, 2003 Describes new ways of looking at environmental science and politics and discusses the problems of formulating and implementing environmental policy particularly in the global arena and in developing countries

Making Political Ecology Rod Neumann, 2014-05-12 Making Political Ecology presents a comprehensive view of an important new field in human geography and interdisciplinary studies of nature society relations Tracing the development of political ecology from its origins in geography and ecological anthropology in the 1970s to its current status as an established field the book investigates how late twentieth century developments in social and ecological theories are brought together to create a powerful framework for comprehending environmental problems Making Political Ecology argues for an inclusionary conceptualization of the field which absorbs empirical studies from urban rural First World and Third World contexts and the theoretical insights of feminism poststructuralism neo Marxism and non equilibrium ecology Throughout the book excerpts from the writings of key figures in political ecology provide an empirical grounding for abstract theoretical concepts Making Political Ecology will convince readers of political ecology's particular suitability for grappling with the most difficult questions concerning social justice environmental change and human relationships with nature

Political Ecology Paul Robbins, 2019-12-16 An accessible focused exploration of the field of political ecology The third edition of Political Ecology spans this sprawling field using grounded examples and careful readings of current literature While the study of political ecology is sometimes difficult to fathom owing to its breadth and diversity this resource simplifies the discussion by reducing the field down into a few core questions and arguments These points clearly demonstrate how critical theory can make pragmatic contributions to the fields of conservation development and environmental management The latest edition of this seminal work is also more closely focused with references to recent work from around the world Further Political Ecology raises critical questions about traditional approaches to environmental questions and problems This new edition Includes international work in the field coming out of Europe Latin America and Asia Explains political ecology and its tendency to disrupt the environmental research and practice by both advancing and

undermining associated fields of study Contains contributions from a wide range of diverse backgrounds and expertise Offers a resource that is written in highly accessible straightforward language Outlines the frontiers of the field and frames climate change and the end of population growth with the framework of political ecology An excellent resource for undergraduates and academics the third edition of Political Ecology offers an updated edition of the guide to this diverse quickly growing field that is at the heart of how humans shape the world and in turn are shaped by it **Third World Political Ecology**

Raymond L. Bryant, Sinéad Bailey, 1997 By drawing on examples from throughout the Third World Bryant and Bailey explain the development and characteristics of environmental problems that plague parts of Asia Africa and Latin America and their political and economic bases *Political Ecology Across Spaces, Scales, and Social Groups* Susan Paulson, Lisa L.

Gezon, 2005 Environmental issues have become increasingly prominent in local struggles national debates and international policies In response scholars are paying more attention to conventional politics and to more broadly defined relations of power and difference in the interactions between human groups and their biophysical environments Such issues are at the heart of the relatively new interdisciplinary field of political ecology forged at the intersection of political economy and cultural ecology This volume provides a toolkit of vital concepts and a set of research models and analytic frameworks for researchers at all levels The two opening chapters trace rich traditions of thought and practice that inform current approaches to political ecology They point to the entangled relationship between humans politics economies and environments at the dawn of the twenty first century and address challenges that scholars face in navigating the blurring boundaries among relevant fields of enquiry The twelve case studies that follow demonstrate ways that culture and politics serve to mediate human environmental relationships in specific ecological and geographical contexts Taken together they describe uses of and conflicts over resources including land water soil trees biodiversity money knowledge and information they exemplify wide ranging ecological settings including deserts coasts rainforests high mountains and modern cities and they explore sites located around the world from Canada to Tonga and cyberspace *Political Ecology of Industrial Crops*

Abubakari Ahmed, Alexandros Gasparatos, 2021-09-02 This book employs a political ecology lens to unravel how industrial crops catalyse ecological agrarian socioeconomic and institutional transformation Using the conceptual tools and perspectives of political ecology namely multi scalar analysis and attention to marginalisation social difference and discourses and narratives this volume provides a critical and comprehensive assessment of the transformative power of industrial cropping systems It presents a truly international overview by drawing on a range of case studies from the global South including soybeans in South America cashew nuts in Guinea Bissau cotton in India maize in China jatropha in Ghana sugarcane in Peru and Eswatini and oil palm in Ghana and Peru The unique case studies are put into perspective with chapters introducing the key concepts of political ecology and critical dimensions of industrial cropping systems related to large scale land acquisitions land grabbing and marginal land The individual chapters employ different approaches all rooted

in political ecology thus offering a rich overview of how the field engages with such cropping systems Overall this volume contains valuable propositions for improving current policies and practices in industrial crop settings in both developed and developing countries Through its comprehensive and interdisciplinary outlook this volume will be of great interest to students and scholars of political ecology agrarian studies development studies and ecological economics

The Political Ecology of Austerity Rita Calvário, Maria Kaika, Giorgos Velegrakis, 2021-11-10 The Political Ecology of Austerity explores the environmental dimension of austerity that has thus far escaped academic policy and media attention Offering a better comprehension of the full socio environmental impact of austerity measures the book highlights the importance of considering environmental issues when designing responses to economic crisis in the future Mobilising detailed case studies from across the world the volume documents the ways in which austerity impacts global and local ecologies shapes environmental conflicts and gives rise to new forms and practices of social mobilisation and resistance Bringing together theoretical debates and rigorous case studies the book proposes the political ecology of austerity as an appropriate method of analysis that can inform our understanding of the shift in environmental protection policies and the intensification of growth practices green or otherwise that followed the 2008 global economic crisis The Political Ecology of Austerity discloses austerity to be a globalised set of tools not only for budgetary discipline but also for socio environmental discipline that justifies the continuation of capital accumulation at the expense of further global environmental degradation This book will be of great interest to students and scholars of social and political sciences environmental studies urban studies and political ecology

Land Change Science, Political Ecology, and Sustainability Christian Brannstrom, Jacqueline M. Vadjunec, 2014-01-23 Recent claims regarding convergence and divergence between land change science and political ecology as approaches to the study of human environment relationships and sustainability science are examined and analyzed in this innovative volume Comprised of 11 commissioned chapters as well as introductory and concluding synthesis chapters it advances the two fields by proposing new conceptual and methodological approaches toward integrating land change science and political ecology The book also identifies areas of fundamental difference and disagreement between fields These theoretical contributions will help a generation of young researchers refine their research approaches and will advance a debate among established scholars in geography land use studies and sustainability science that has been developing since the early 2000s At an empirical level case studies focusing on sustainable development are included from Africa Central and South America and Southeast Asia The specific topics addressed include tropical deforestation swidden agriculture mangrove forests gender and household issues

The Barcelona School of Ecological Economics and Political Ecology Sergio Villamayor-Tomas, Roldan Muradian, 2023-02-28 In this open access book ecological economics and political ecology traditions converge into a single academic school The book constitutes a common ground where multiple and critical voices are expressed covering a broad scope of urgent matters at the crossroad between society economy and the natural

environment The manuscripts composing this compendium offer appealing material for both experienced and younger researchers interested in interdisciplinary exchanges in the field of the social environmental sciences It combines historical accounts with recent theoretical and empirical developments revolving around the interaction between three foundational notions of the Barcelona School social metabolism environmental justice and self reflective science

Exploring Political Ecology Alexander M. Ervin, 2024-08-30 This book explores some of the conditions and underlying causes of the multiple environmental crises facing humanity Rooted in anthropology but multidisciplinary in scope it surveys the many socio cultural and socio economic errors foibles and follies that brought us to these circumstances Crucially and uniquely it outlines an array of viable and practical solutions some of which are radically different from the current status quo and cultural expectations The first chapter canvasses the emerging interdisciplinary field of political ecology then Part I examines details and trends in agriculture Part II portrays the threats posed by carbon dependent and combusive technologies as well as the hydro and nuclear energy systems now powering the majority of human actions in developed parts of the world and expanding beyond The third part turns to consider solutions including green new deals de growth policies localization agroecology alternative energy systems and many more possibilities The conclusions engage with urgent moral and legal issues and outline social movement strategies all related to our collective neglect of climate change and then finally speculate upon possible futures This book is key reading for researchers and students interested in climate change across the social and physical sciences and humanities

Political Ecology, Food Regimes, and Food Sovereignty Mark Tilzey, 2017-10-20 This book asks how we are to understand the relationship between capitalism and the environment capitalism and food and capitalism and social resistance These questions come together to form a study of food regimes and the means by which capitalism organises both the environment and people to provision its distinctive system of ever expanding consumption with food Political Ecology Food Regimes and Food Sovereignty explores whether there are environmental limits to capitalism and its economic growth by addressing the ongoing and inter linked crises of food fossil fuels and finance It also considers its political limits as the globally burgeoning precariat peasants and indigenous people resist the further commodification of their livelihoods This book draws from the field of Political Ecology to approach new ways of analysing capitalism the environment and resistance and also to propose new solutions to the current agro ecological economic crisis It will be of particular interest to students and academics of Environmental Sociology Human Geography and Environmental Geography

The Political Ecology of Climate Change Adaptation Marcus Taylor, 2014-11-17 This book provides the first systematic critique of the concept of climate change adaptation within the field of international development Drawing on a reworked political ecology framework it argues that climate is not something out there that we adapt to Instead it is part of the social and biophysical forces through which our lived environments are actively yet unevenly produced From this original foundation the book challenges us to rethink the concepts of climate change vulnerability

resilience and adaptive capacity in transformed ways With case studies drawn from Pakistan India and Mongolia it demonstrates concretely how climatic change emerges as a dynamic force in the ongoing transformation of contested rural landscapes In crafting this synthesis the book recalibrates the frameworks we use to envisage climatic change in the context of contemporary debates over development livelihoods and poverty With its unique theoretical contribution and case study material this book will appeal to researchers and students in environmental studies sociology geography politics and development studies *Vibrant Matter* Jane Bennett, 2010-01-04 Theorizes the political agency of things and natural phenomena such as trash food weather and electricity to examine how non human elements exert force on human politics and social relations
