## **Political Economy Of Conflict And Appropriation:**

**The Political Economy of Conflict and Appropriation** Michelle R. Garfinkel, Stergios Skaperdas, 1996-06-13 This collection of essays illustrates the importance of the institutional setting in determining economic activity The first of the two sets of essays examines the allocation of resources among productive and appropriative activities in an anarchical political environment without legal or constitutional tradition Their objective is to understand different facets of the emergence of order and restraint on individual behavior out of conditions with few or no assumed constraints The second set focuses on different types of political institutions illustrating how they shape conflict and economic activity and how they themselves can be shaped by conflict     [The Oxford Handbook of Political Economy](#) Barry R. Weingast, Donald Wittman, 2008-06-19 Over its lifetime political economy has had different meanings This handbook views political economy as a synthesis of the various strands of social science treating it as the methodology of economics applied to the analysis of political behaviour and institutions     **The Political Economy of Predation** Mehrdad Vahabi, 2016 This book analyses conflict theory through one type of conflict in particular manhunting or predation     *The Political Economy of Destructive Power* Mehrdad Vahabi, 2004-01-01 This book will appeal to a broad and varied readership from a range of disciplines across the social sciences including economics politics sociology history and psychology **BOOK JACKET**     *The Security Factor in The Political Economy of Development* Mr. Martin C. McGuire, 1998-03-01 A country's judiciary police and security forces are essential to protect the State from external aggression By virtue of the State's monopoly of coercion they maintain a stable legal framework and the safety of persons and property All these activities enhance a society's productivity but they also sustain the particular political regime and its redistributive ethic in power They absorb resources but they also waste them since security forces tend to be rent seekers This paper analyzes both the productive and the unproductive side of security provision and shows that the balance depends on the nature of the political regime     *The Oxford Handbook of the Economics of Peace and Conflict* Michelle R. Garfinkel, Stergios Skaperdas, 2012-04-20 This Handbook brings together contributions from leading scholars who take an economic perspective to study peace and conflict Some chapters are largely empirical exploring the correlates and quantifying the costs of conflict Others are more theoretical examining the mechanisms that lead to war or are more conducive to peace     *The Political Economy of Land* Mika Hyötyläinen, Robert Beauregard, 2022-11-30 Recent years have seen a gathering interest in the importance of real estate development to the growth and development of cities This has included theoretical work on such topics as land rent and property rights as well as empirical studies on property investments assetization securitization and the effects of changing property values on economic growth and the global status of cities In the field of urban political economy attention has turned particularly to the financialization of land and the built environment and to the globalization of property ownership real estate development and architectural design This edited volume brings together a collection of original investigations of the current thinking on three

broad themes the assetization of land and buildings the relationship of land rent to valuation and speculation in the markets for private and public properties and the different ways in which land functions as a social relation In order to ground the discussion each chapter combines a theoretical perspective with empirical evidence And to convey a sense of the global nature of these phenomena the book includes cases from Finland India Spain Singapore Hong Kong Japan Italy China and the United States Although its prime goal is to solidify and extend the political economy of land this book is also a celebration of the Finnish scholar Anne Haila who was a major contributor to this literature and specifically to the work of this book's authors Prior to her sudden death in 2019 she was a key figure in the discussions that are at the core of the political economy of land this book in part is a public acknowledgement of her contributions

Murray Wolfson, 2012-12-06 cancer in any malignant tumor Metastasis may occur via the bloodstream or the lymphatic channels or across body cavities setting up secondary tumors Each individual primary tumor has its own pattern There are probably many causative factors Treatment depends on the type of tumor the site of the primary tumor and the extent of the spread Oxford Concise Medical Dictionary 1996 97 Let us begin by stating the obvious Acts of organized violence are not necessarily of human nature but they are endogenous events arising within the an intrinsic part evolution of complex systems of social interaction To be sure all wars have features in common people are killed and property is destroyed but in their origin wars are likely to be at least as different as the social structures from which they arise Consequently it is unlikely that there can be a simple theory of the causes of war or the maintenance of peace The fact that wars are historical events need not discourage us On the contrary we should focus our understanding of the dimensions of each conflict or classes of conflict on the conjuncture of causes at hand It follows that the study of conflict must be an interdisciplinary one It is or a penchant for eclecticism that leads to that conclusion but the not humility multi dimensionality of war itself

### **Political Economics**

Torsten Persson, Guido Tabellini, 2002-01-25 What determines the size and form of redistributive programs the extent and type of public goods provision the burden of taxation across alternative tax bases the size of government deficits and the stance of monetary policy during the course of business and electoral cycles A large and rapidly growing literature in political economics attempts to answer these questions But so far there is little consensus on the answers and disagreement on the appropriate mode of analysis Combining the best of three separate traditions the theory of macroeconomic policy public choice and rational choice in political science Torsten Persson and Guido Tabellini suggest a unified approach to the field As in modern macroeconomics individual citizens behave rationally their preferences over economic outcomes inducing preferences over policy As in public choice the delegation of policy decisions to elected representatives may give rise to agency problems between voters and politicians And as in rational choice political institutions shape the procedures for setting policy and electing politicians The authors outline a common method of analysis establish several new results and identify the main outstanding problems

Handbook of Defense Economics Todd Sandler, Keith Hartley, 2007-04-12 The

second volume of the Handbook of Defense Economics addresses defense needs practices threats and policies in the modern era of globalization This new era concerns the enhanced cross border flows of all kinds e g capital and labor flows revolutionary rhetoric guerrillas and terrorists including the spillovers of benefits and costs associated with public goods and transnational externalities i e uncompensated interdependencies affecting two or more nations These ever increasing flows mean that military armaments and armies are less able to keep out security threats Thus novel defense and security barriers are needed to protect borders that are porous to terrorists pollutants political upheavals and conflicts Even increased trade and financial flows imply novel security challenges and defenses Globalization also underscores the importance of a new set of institutions e g the European Union and global governance networks and agents e g nongovernmental organizations and partnerships This volume addresses the security challenges in this age of globalization where conflicts involve novel tactics new technologies asymmetric warfare different venues and frightening weapons Volume 2 contains topics not covered in volume 1 i e civil wars peacekeeping economic sanctions the econometrics of arms races conversion peace economics and the interface of trade peace and democracy Volume 2 also revisits topics from volume 1 where there has been a significant advancement of knowledge i e conflict analysis terrorism arms races arms trade military manpower and arms industries All of the main securities concerns of today are analyzed Chapters are written by the leading contributors in the topic areas Up to date surveys on the pressing defense issues theoretical empirical and policy issues Coverage of theoretical and empirical studies of terrorism Contributions by the leading researchers in the field of defense economics *The Political Economy of Rural-Urban Conflict* Topher L. McDougal, 2017-07-07 In some cases of insurgency the combat frontier is contested and erratic as rebels target cities as their economic prey In other cases it is tidy and stable seemingly representing an equilibrium in which cities are effectively protected from violent non state actors What factors account for these differences in the interface between urban based states and rural based challengers To explore this question this volume examines two regions representing two dramatically different outcomes In West Africa Liberia and Sierra Leone capital cities became economic targets for rebels who posed dire threats to the survival of the state In Maoist India despite an insurgent ideology aiming to overthrow the state via a strategy of progressive city capture the combat frontier effectively firewalls cities from Maoist violence This book argues that trade networks underpinning the economic relationship between rural and urban areas termed interstitial economies may differ dramatically in their impact on and response to the combat frontier It explains rebel predatory tendencies towards cities as a function of transport networks allowing monopoly profits to be made by urban based traders It explains combat frontier delineation as a function of the social structure of the trade networks hierarchical networks permit elite elite bargains that cohere the frontier These factors represent what might be termed respectively the hardware and software of the rural urban economic relationship Of interest to any student of political economy and violence this book presents new arguments and insights about the relationships between violence and the economy predation and

Cole, Michael D.

McGinnis, 2015-09-04 In addition to winning the 2009 Nobel Prize in Economic Sciences for her path breaking research on economic governance especially the commons Elinor Lin Ostrom also made important contributions to other fields of political economy and public policy This four volume compendium of papers written by Lin often with coauthors most notably her husband Vincent along with papers by others expanding on her work brings together the strands of her entire empirical analytical theoretical and methodological research program Together with Vincent's important theoretical contributions they defined a distinctive Bloomington School of political economic thought Volume 2 examines Lin's work on the commons in which she demonstrated that in many cases local resource users can solve collective action problems through common property management regimes It comprises papers including some that are not well known related to and building on the findings of *Governing the Commons* 1990 Part I focuses on key attributes of biophysical resources and the institutions human communities have designed to govern them Part II shows how in various social and ecological circumstances different sets of institutions facilitate or impede the long run sustainability of resources Part III highlights Ostrom's first major research project on water resources in Southern California It was a topic she and her students returned to with the specific intention of gathering data more than 50 years worth for longitudinal analyses of combined institutional and ecological change In sum this volume contextualizes what is at present thought to be Lin's greatest legacy to social science the conditions under which resources can be sustainably managed over very long periods of time by the collective action of ordinary people beyond markets and states **The Political Economy of Armed Conflict** Karen Ballentine, Jake Sherman, 2003 Globalization

suggest the authors of this collection is creating new opportunities some legal some illicit for armed factions to pursue their agendas in civil war Within this context they analyze the key dynamics of war economies and the challenges posed for conflict resolution and sustainable peace Thematic chapters consider key issues in the political economy of internal wars as well as how differing types of resource dependency influence the scope character and duration of conflicts Case studies of Burma Colombia Kosovo Papua New Guinea and Sri Lanka illustrate a range of ways in which belligerents make use of global markets and the transnational flow of resources An underlying theme is the opportunities available to the international community to alter the economic incentive structure that inadvertently supports armed conflict *Institutionalized Corruption and the Kleptocratic State* Mr. Joshua Charap, Christian Harm, 1999-07-01 This paper argues that corruption patterns are endogenous to political structures Thus corruption can be systemic and planned rather than decentralized and

coincidental In an economic system without law or property rights a kleptocratic state may arise as a predatory hierarchy from a state of pure anarchy A dictator minimizes the probability of a palace revolution by creating a system of patronage and loyalty through corrupt bureaucracy Competitive corruption patterns are associated with anarchy and weak dictators while strong dictators implement a system of monopolistic corruption Efforts at public sector reform may meet resistance in countries featuring such systemic corruption *Issues in Positive Political Economy* Syed Mansoob Murshed,2002-05-09 Political economy the original name for economics in its entirety has in recent years witnessed a semantic broadening to include some of the preoccupations of classical economics This intriguing collection of contributed work is concerned mainly with developments in the neo classical tradition and examines the role played by rational choice in Border Studies Thomas M. Wilson,2025-08-11 This multidisciplinary book provides a diverse overview of social science approaches to geopolitical borders social boundaries and cultural frontiers An array of esteemed specialists examine political imaginaries of border security and identify methodological innovations that will enhance future scholarly work in the field They also discuss the multiplicity of borders with a view to addressing the question how far have we come *War, Hunger, and Displacement:* E. Wayne Nafziger,Frances Stewart,Raimo Väyrynen,2000-10-19 Since the end of the cold war the number of civil wars in developing countries has escalated to the point where they are the most significant source of human suffering in the world today Although there are many political analyses of these emergencies this two volume work is the first comprehensive study of the economic social and political roots of humanitarian emergencies identifying early measures to prevent such disasters Nafziger Stewart and Väyrynen draw on a wide range of specialists on the political economy of war and on major conflicts to show the causes of conflict The first volume provides a general overview of the nature and causes of the emergencies including economic political and environmental factors The second volume provides detailed case studies of thirteen conflicts including Rwanda Burundi the Congo Afghanistan and the Caucasus that originated in the weakness of the state or where economic factors predominate The volumes emphasize the significance of protracted economic stagnation and decline high and increasing inequality government exclusion of distinct social groups state failure and predatory rule They debunk beliefs recurrent in the literature that emergencies are the result of deteriorating environmental conditions structural adjustment and deep seated ethnic animosity By analysing the causes and prevention of war and humanitarian emergencies in developing countries this work outlines a less costly alternative to the present strategy of the world community of spending millions of dollars annually to provide mediation relief and rehabilitation after the conflict occurs
