many centuries women on the Chinese stage committed suicide in beautiful and pathetic ways just before crossing the border for an interracial marriage *Uncrossing the Borders* asks why this theatrical trope has remained so powerful and attractive The book analyzes how national cultural and ethnic borders are inevitably gendered and incite violence against women in the name of the nation The book surveys two millennia of historical literary dramatic texts and sociopolitical references to reveal that this type of drama was especially popular when China was under foreign rule such as in the Yuan Mongol and Qing Manchu dynasties and when Chinese male literati felt desperate about their economic and political future due to the dysfunctional imperial examination system Daphne P Lei covers border crossing Chinese drama in major theatrical genres such as zaju and chuanqi regional drama such as jingju Beijing opera and yueju Cantonese opera and modernized operatic and musical forms of such stories today *Qing Imperial Illustrations of Tributary Peoples (Huang Qing zhigong tu)*, 2022-08-15 Commissioned by the Qianlong emperor in 1751 the *Qing Imperial Illustrations of Tributary Peoples Huang Qing zhigong tu* is a captivating work of art and an ideological statement of universal rule best understood as a cultural cartography of empire This translation of the ethnographic texts accompanied by a full color reproduction of Xie Sui's hand painted scroll helps us to understand the conceptualization of imperial tributary relationships the work embodies as rooted in both dynastic history and the specifics of Qing rule *Mapping China and Managing the World* Richard J. Smith, 2013-05-20 From the founding of the Qin dynasty in 221 BCE to the present the Chinese have been preoccupied with the notion of ordering their world Efforts to create and maintain order are expressed not only in China's bureaucratic institutions and methods of social and economic organization but also in Chinese philosophy religious and secular ritual and comprehensive systems of classifying all natural and supernatural phenomena *Mapping China and Managing the World* focuses on Chinese constructions of order zhi and examines the most important ways in which elites in late imperial China sought to order their vast and variegated world This book begins by exploring the role of ancient texts and maps as the two prominent symbolic devices that the Chinese used to construct cultural meaning and looks at how changing conceptions of the world shaped Chinese cartography whilst both shifting and enduring cartographic practices affected how the Chinese regarded the wider world Richard J Smith goes on to examine the significance of ritual in overcoming disorder and by focusing on the importance of divination shows how Chinese at all levels of society sought to manage the future as well as the past and the present Finally the book concludes by emphasizing the enduring relevance of the *Yijing* Classic of Changes in Chinese intellectual and cultural life as well as its place in the history of Sino foreign interactions Bringing together a selection of essays by Richard J Smith one of the foremost scholars of Chinese intellectual and cultural history this book will be welcomed by Chinese and East Asian historians as well as those interested more broadly in the culture of China and East Asia *Asia Inside Out* Eric Tagliacozzo, Helen F. **The Rebel Den of Nung Tri Cao** James A. Anderson, 2012-09-01 The Rebel Den of Nung Tri Cao examines the rebellion of the eleventh century Tai chieftain Nung Tri Cao ca 1025-1055 whose struggle for independence along Vietnam's mountainous northern frontier was a pivotal event in Sino-Vietnamese relations. Tri Cao's revolt occurred during Vietnam's earliest years of independence from China and would prove to be a vital test of the Vietnamese court's ability to confront local political challenges and maintain harmony with its powerful northern neighbor. Tri Cao established his first kingdom in 1042 at the age of seventeen but was captured by Vietnamese troops. After his release in 1048 he announced the founding of a second kingdom but an attack by Vietnamese forces drove him to flee into Chinese territory. Tri Cao made his final attempt in 1052 proclaiming a new kingdom and leading thousands of his subjects in a revolt that swept across the South China coast. But within a year Chinese imperial troops had forced him to flee to the nearest independent kingdom. Official Chinese and Vietnamese accounts of the rebel leader's end vary according to the Chinese: the ruler of the independent kingdom had Tri Cao executed but in popular accounts Tri Cao was granted safe passage into northern Thailand where his descendants are said to flourish today. Scholar James Anderson places Tri Cao in context by exploring the Sino-Vietnamese tributary relationship and the conflicts that engaged both the Song and Vietnamese courts. The Rebel Den of Nung Tri Cao reconstructs the series of negotiations that took place between border communities and representatives of the imperial courts, examining the ways in which Tai and other ethnic groups deftly navigated the unstable political situation that followed the demise of China's cosmopolitan Tang dynasty. Though his rebellion was ill-fated, Tri Cao is almost a thousand years later still worshipped in temples along the Sino-Vietnamese border and his memory provides a point of unity for people who have become separated by modern political boundaries.

**China and International Relations** Zheng Yongnian, 2010-09-13 Focussing on one of the most influential scholars writing on international relations, Wang Gungwu, this book explores the limitations of Western international relations approaches to China and explains China's IR from a non-Western perspective and demonstrates how the study of Chinese experiences can enrich the IR field.

**Information, Territory, and Networks** Hilde De Weerd, 2020-05-11 The occupation of the northern half of the Chinese territories in the 1120s brought about a transformation in political communication in the south that had lasting implications for imperial Chinese history. By the late eleventh century the Song court no longer dominated the production of information about itself and its territories. Song literati gradually consolidated their position as producers, users, and discussants of court gazettes, official records, archival compilations, dynastic histories, military geographies, and maps. This development altered the relationship between court and literati in political communication for the remainder of the imperial period. Based on a close reading of reader responses to official records and derivatives and on a mapping of literati networks, the author further proposes that the twelfth-century geopolitical crisis resulted in a lasting literati preference for imperial

restoration and unified rule Hilde De Weerdts makes an important intervention in cultural and intellectual history by examining censorship and publicity together In addition she reorients the debate about the social transformation and local turn of imperial Chinese elites by treating the formation of localist strategies and empire focused political identities as parallel rather than opposite trends Chinese Annals in the Western Observatory Edward Shaughnessy,2019-11-18 Since the beginning of the twentieth century hundreds of thousands of documents of all sorts have been unearthed in China opening whole new fields of study and transforming our modern understanding of ancient China While these discoveries have necessarily taken place in China Western scholars have also contributed to the study of these documents throughout this entire period This book provides a comprehensive survey of the contributions of these Western scholars to the field of Chinese paleography and especially to study of oracle bone inscriptions bronze and stone inscriptions and manuscripts written on bamboo and silk Each of these topics is provided with a comprehensive narrative history of studies by Western scholars as well as an exhaustive bibliography and biographies of important scholars in the field It is also supplied with a list of Chinese translations of these studies as well as a complete index of authors and their works Whether the reader is interested in the history of ancient China ancient Chinese paleographic documents or just in the history of the study of China as it has developed in the West this book provides one of the most complete accounts available to date **Asian Borderlands** Charles Patterson Giersch,2006 With comparative frontier history and pioneering use of indigenous sources Giersch provides a groundbreaking challenge to the China centered narrative of the Qing conquest He focuses on the Tai domains of the Yunnan frontier on the politically fluid borderlands where local indigenous leaders were crucial actors in an arena of imperial rivalry **China Marches West** Peter C Perdue,2009-06-30 From about 1600 to 1800 the Qing empire of China expanded to unprecedented size Through astute diplomacy economic investment and a series of ambitious military campaigns into the heart of Central Eurasia the Manchu rulers defeated the Zunghar Mongols and brought all of modern Xinjiang and Mongolia under their control while gaining dominant influence in Tibet The China we know is a product of these vast conquests Peter C Perdue chronicles this little known story of China s expansion into the northwestern frontier Unlike previous Chinese dynasties the Qing achieved lasting domination over the eastern half of the Eurasian continent Rulers used forcible repression when faced with resistance but also aimed to win over subject peoples by peaceful means They invested heavily in the economic and administrative development of the frontier promoted trade networks and adapted ceremonies to the distinct regional cultures Perdue thus illuminates how China came to rule Central Eurasia and how it justifies that control what holds the Chinese nation together and how its relations with the Islamic world and Mongolia developed He offers valuable comparisons to other colonial empires and discusses the legacy left by China s frontier expansion The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule At the same time China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies China Marches

**Dynasty, 25-220 CE** Wicky W. K. Tse, 2018-06-27 In the Later Han period the region covering the modern provinces of Gansu southern Ningxia eastern Qinghai northern Sichuan and western Shaanxi was a porous frontier zone between the Chinese regimes and their Central Asian neighbours not fully incorporated into the Chinese realm until the first century BCE Not surprisingly the region had a large concentration of men of martial background from which a regional culture characterized by warrior spirit and skills prevailed This military elite was generally honoured by the imperial centre but during the Later Han period the ascendancy of eastern based scholar officials and the consequent increased emphasis on civil values and demilitarization fundamentally transformed the attitude of the imperial state towards the northwestern frontiersmen leaving them struggling to achieve high political and social status From the ensuing tensions and resentment followed the capture of the imperial capital by a northwestern military force the deposing of the emperor and the installation of a new one which triggered the disintegration of the empire Based on extensive original research and combining cultural military and political history this book examines fully the forging of military regional identity in the northwest borderlands and the consequences of this for the early Chinese empires *Global Gifts* Zoltán Biedermann, Anne Gerritsen, Giorgio Riello, 2018 *Global Gifts* considers the role that the circulation of material culture played in the establishment of early modern global diplomacy

**Chinese Steles** Dorothy C. Wong, 2004-09-30 Buddhist steles represent an important subset of early Chinese Buddhist art that flourished during the Northern and Southern Dynasties period 386 581 More than two hundred Chinese Buddhist steles are known to have survived Their brilliant imagery has long captivated scholars yet until now the Buddhist stele as a unique art form has received little scholarly attention Dorothy Wong rectifies that insufficiency by providing in this well illustrated volume the first comprehensive investigation of this group of Buddhist monuments She traces the ancient roots of the Chinese stele tradition and investigates the process by which Chinese steles were adapted for

Buddhist use She arranges the known corpus of Buddhist steles into broad chronological and regional groupings and analyzes not only their form and content but also the nexus of complex issues surrounding this art form from cultural symbolism to the interrelations between religious doctrine and artistic expression economic production patronage and the synthesis of native and foreign art styles In her analysis of Buddhism s dialogue with native traditions Wong demonstrates how the Chinese artistic idiom planted the seeds for major achievements in figural and landscape arts in the ensuing Sui and Tang periods

*Asian Expansions* Geoff Wade, 2014-10-17 Asia as we know it today is the product of a wide range of polity expansions over time Recognising the territorial expansions of Asian polities large and small through the last several millennia helps rectify the fallacy long held and deeply entrenched that Asian polities have been interested only in the control of populations not in expanding their command of territory In countering this misapprehension this book suggests that Asian polities have indeed been concerned with territorial control and expansion over time whether for political or strategic advantage trade purposes defence needs agricultural expansion or increased income through taxation The book explores the historical experiences of a set of polity expansions within Asia specifically in East and Southeast Asia and by examining the motivations mechanisms processes validations and limitations of these Asian territorial expansions reveals the diverse avenues by which Asian polities have grown The chapters draw on these historical examples to highlight the connections between Asian polity expansion and centralised political structures and this aids in a broader and more comprehensive understanding of Asian political practice both past and present Through these chapter studies and the integrative introduction the book interrogates key concepts such as imperialism and colonialism and the applicability and relevance of such terminology in Asian contexts both historical and contemporary Comparisons and contrasts with European historical expansions are also suggested This book will be welcomed by students and scholars of Asian history as well as by those with an interest in Asian interactions international relations polity expansion Asia Europe historical comparisons and globalisation
