Van den Bosch, 2021-04-20 This book presents an innovative model linking insights from democratization development and conflict studies to explain personalist behavior and their violent transitions Based on multiple case studies from Sub Saharan Africa the author maps and predicts regime transitions presenting examples of how

states can avoid such vicious circles of conflict and tyranny By integrating decades of specialist literature from various subfields of political science the book models personalist behavior its impact on the states they govern and their future transitions By systematizing regime behavior coup proofing gatekeeping repression and hoarding the model identifies the mechanics on how personalist regimes establish vicious circles of personalism and explains how exactly they end up again in authoritarianism or in new personalist tyrannies after their demise and so seldom transition to democracy This book will be of key interest to scholars and students of African politics democratization and democratic consolidation authoritarian rule and more broadly to political science comparative politics area studies political leadership peace and conflict studies and development studies

Electoral Politics in Sri Lanka S. Keethaponcalan, 2022-07-21 This volume examines and analyses electoral politics in Sri Lanka through the theoretical framework of manipulation The following questions guided the study how do political actors manipulate elections and what are the salient features of electoral politics in Sri Lanka Primary and secondary data formed the basis of the analysis examining eight presidential elections The research findings indicated that Sri Lankan governments political parties and political leaders have taken advantage of six types of electoral manipulation including constitutional tinkering field fixing time fixing vote suppression process manipulation and resource manipulation Through a close examination of eight presidential elections research carried out for the volume found that elections are often associated with violence presidential elections are mainly a majoritarian affair in which minority communities play only a marginal role there is a significant gender imbalance as women's participation in the electoral process is very limited despite the presence of a large number of candidates contesting the election it always remains a two way race and amid extensive manipulation and other problems voter participation tends to be high This volume will be a valuable resource for students academics and researchers who focus on democracy good governance electoral studies and South Asian politics and history and will enhance the conceptual foundation of democracy advocates and activists

IQ and the Wealth of Nations Richard Lynn,Tatu Vanhanen,2002-02-28 Lynn and Vanhanen test the hypothesis on the causal relationship between the average national intelligence IQ and the gap between rich and poor countries by empirical evidence Based on an extensive survey of national IQ tests the results of their work challenge the previous theories of economic development and provide a new basis to evaluate the prospects of economic development throughout the world They begin by reviewing and evaluating some major previous theories The concept of intelligence is then described and intelligence quotient IQ introduced Next they show that intelligence is a significant determinant of earnings within nations and they connect intelligence with various economic and social phenomena The sociology of intelligence at the level of sub populations in nations is examined and the independent national IQ and dependent various measures of per capita income and economic growth rates variables are defined and described They then provide empirical analyses starting from the 81 countries for which direct evidence of national IQs is available the analysis is then extended to the world group of 185 countries The hypothesis is tested by the methods of correlation and regression analyses The results of statistical analyses support the hypothesis strongly The results of the analyses and various means to reduce the gap between rich and poor countries are discussed A provocative analysis that all scholars students and researchers involved with economic development need to confront

The 1990s Slump Mario Baldassarri,Luigi Paganetto,Edmund S. Phelps,2016-07-27 At the beginning of the 1990 s unemployment grew in all industrialized countries the essays in this collection focus on the causes and cures of this worrying phenomenon The volume starts by analysing the disparities in the different national experiences and then focusing on European unemployment This is followed by more theoretical discussions using econometric models The volume ends with policy recommendations
