Williams, 2020-11-12 In this book Anthony Williams investigates the history of Christian Socialist thought in Britain from the late nineteenth to mid twentieth century Through analysis of the writings of ten key Christian Socialists from the period Williams reframes the ideology of Christian Socialism as a coherent and influential body of political thought moving the study of Christian Socialism away from historical narratives and towards political ideology The book sheds new light on a key period in British political development in particular Williams demonstrates how the growth of the Christian Socialist movement exercised a profound impact on the formation of the British Labour party which would go on to radically change 20th century politics in Britain Political Ideology Today Ian Adams, 2001 Examines the tenets of liberalism socialism conservatism Marxism anarchism and fascism *Principles and Politics in Contemporary Britain* Mark Garnett, 2013-10-28 This book shows the importance of political ideas in policy making and demonstrates the extent to which pragmatic considerations preclude the imposition of rigid ideological programmes It charts the decline of the postwar British consensus the changing face of both the Conservative and Labour parties under the long shadow of Thatcherism and the growing emergence of single issue policies such as environmentalism and feminism With an extensive bibliography and suggested seminar and essay topics Principles and Politics can be used on any course which focuses on contemporary British politics as well as having general appeal to those interested in looking at the contemporary political and ideological debate in the context of wider issues and trends This second edition is completely revised and updated *Politics East and West: A*
