Political Psychology And Biopolitics Assessing And Predicting Elite Behavior In Foreign Policy Crises:

Political Psychology And Biopolitics Gerald W. Hopple, 2019-06-10 The interface between psychology and politics has been an area of sustained inquiry for several decades More recently the nexus between psychopolitical factors and international politics linkages among biopolitics political psychology elite analysis foreign affairs and world politics has been explored This volume reviews and assesses the m **Military Lessons Of The Falkland Islands War** Bruce W.

Watson, 2021-11-28 Contains analyses of the war by several prominent U S experts on national security affairs Their observations reflect the continuing debate on such key issues in U S defence planning and in Soviet defence planning as well as the controversy over large versus small carriers the advantages and disadvantages of a diesel versus nuclear powered submarine fleet the effectiveness of the Harrier type aircraft the influence of high technology on amphibious warfare and the ever increasing use of smart weapons by all purpose conventional armed forces **International Relations** Margot

Light, A.J.R. Groom, 2016-10-06 International Relations offers a guide to the state of International Relations theory during the Cold War It provides a critical commentary on the literature of the time and covers all aspects of this discipline in detail

Biology and Political Science Robert Blank, Samuel M. Hines Jr., 2002-03-11 This book demonstrates the increasing interest of some social scientists in the theories research and findings of life sciences in building a more interdisciplinary approach to the study of politics It discusses the development of biopolitics as an academic perspective within political science reviews the growing literature in the field and presents a coherent view of biopolitics as a framework for structuring inquiry across the current subfields of political science Expert-generated Data Gerald W. Hopple, 2020-12-17 In the

aftermath of the explosion of hard data sets in the 1960s for the study of international relations there has been a movement back toward the use of various experts to quantify the more elusive aspects of the international situation These aspects range from the beliefs and perceptions of decision makers to the array of stresses that confront nation states both internally and externally This volume reflects the most recent and innovative work in the use of data generated by academic policy and other experts The authors discuss expert generated data as a means of data making data refinement and policy analysis They present all of the major expert based approaches and offer a variety of methodological and substantive applications **Ibss**

Poli Sci 29 1980 "International Committee For Social Sciences Documentation", 2013-10-15 The International Bibliography of the Social Sciences IBSS is an essential tool for librarians academics and researchers wishing to be kept up to date with the published literature in the social sciences IBSS is compiled in four divisions Anthropology Sociology Economics and Political Science This is Volume XXIX of the International bibliography of political science as of 1980 **International**

Incidents W. Michael Reisman, Andrew R. Willard, 2014-07-14 What law counts in international politics Does any How are effective international norms established This provocative book introduces a new way of looking at these questions It shows that many international standards of acceptable conduct derive far less from adjudications statutes or treaties and far more

from what is found to be acceptable in the conflicts that we today call international incidents The contributors demonstrate how law that counts has been developed modified and terminated in a variety of dramatic international incidents the Cosmos 954 satellite accident the downing of Korean Air Lines Flight 007 the Harrods bombing the Argentine invasion of the Falklands Las Malvinas the incursions of foreign submarines into Swedish waters the Soviet gas pipeline problem the situation in Lebanon and the Gulf of Sidra incident This volume is a first experimental effort at establishing a format for a new and more relevant kind of international political and legal analysis Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

International Negotiations: A Bibliography Amos Lakos, 2019-02-22 The international system comprises a plurality of sovereign states often pursuing conflicting interests One means of resolving or managing conflicts between those states is diplomatic bargaining or negotiation In the last fifteen years the study of negotiation has attracted researchers from various disciplines in the social sciences and the vol

Foreign Policies Of Northern Europe Bengt Sundelius, 2019-04-05 This cross national treatment of the foreign policies of Northern Europe Denmark Finland Iceland Norway Sweden is organized by substantive policy areas rather than by country thus allowing most similar case analyses of several dimensions of the countries international relations The authors make comparisons among the countries in each area of investigation and present details of security international development and neighborhood and foreign policy processes They also describe and explain international and domestic forces that shape the region s external policies The combination of sound empirically based data and attention to broader international and theoretical interests allows relevant comparisons with other advanced industrial states

Politics and the Life Sciences Robert H. Blank, Samuel M. Hines Jr., Odell Funke, Joseph Losco, Patrick Stewart, 2014-10-21 This book examines the development of biopolitics as an academic perspective within political science It reviews the work of the leading proponents of this perspective and presents a comprehensive view of biopolitics as a framework to structure political inquiry

Crisis and War Patrick James, 1988-03-01 His analysis suggests that certain explanations have not been sufficiently considered in previous works For example prior domestic strife can be linked to the escalation of foreign conflict in an impressive number of cases a discovery which runs counter to the consensus which has emerged over the last two decades among political scientists Prior research on causes of war has often lacked rigour James has tried to remedy this through a long term comparative approach to the subject matter While *Crisis and War* follows the tradition of aggregate research statistical analysis is always connected to particular events through discussions of situations and leaders in both diplomatic history and contemporary world politics James

comprehensive and original approach to past theories both clarifies and critiques them *Power and Policy in Quest of Law* Myres S. McDougal, W.M. Reisman, 2024-09-02 Biology And The Social Sciences Thomas C. Wiegele, 2019-03-01 Exciting new developments in behavioral biology are creating an intellectual revolution in the study of human behavior and are causing social scientists to reassess the ways in which they approach their disciplines This book examines how these new findings are likely to transform and shape anthropology sociology economics and political science in the coming decade The book begins with an overview of the rapidly changing relationship between biological and social studies In successive sections well known social scientists biologists and philosophers address the theoretical challenges involved in incorporating material from sociobiology ecology genetics and psychophysiology into their own disciplines approaches to the analysis of human behavior The concluding chapters examine specific methodological problems and related issues Toward Effective Strategic Analysis Albert Clarkson, 2019-06-04 Exploring the future of strategic analysis this book identifies problems at the heart of the historical U S failure to perform effective strategic analysis then explains and dramatizes how new applications of information technology can make significant progress possible Certain specific limitations of human memory says the author are major ca **Politics and the Life Sciences**, 1989 *Global Risk Assessments, Issues, Concepts & Applications in Business Environment Risk Assessment, Country, Investment & Trade Risk Analysis, Political Risk Assessment & Management*, 1983 Limited Adversaries Jianwei Wang, 2000 This is a comparative study of U S China mutual images in the post Tiananmen and post Cold War context It theoretically and empirically explores three broad questions what are the cognitive structures and ingredients of Sino American mutual images and how do they converge or conflict with each other With the current mutual images of the American and Chinese elites as a base line how have these images evolved since the 1970s and what patterns of perceptual change have emerged And finally what are some of the important sources of image formation and evolution and how do they function for different image dimensions Political Psychology Margaret G. Hermann, 1986 **U.S.-China Mutual Images in the Post-Tiananmen Era** Jian Wei Wang, 1994 Foreign Policy Behavior Jonathan Wilkenfeld, 1980-08
