Political Theory Michael Freeden, 1996-10-25 Ideologies play a crucial role in the way we understand and shape the political world But no one has yet satisfactorily explained the nature of ideologies themselves In this important study Michael Freeden offers a ground breaking approach to the subject Drawing on the political experience of Britain France Germany and the USA over the past two centuries the author provides an in depth examination of the key political ideologies liberalism conservatism socialism feminism and green political thought He goes on to outline a powerful and sophisticated new theory of ideologies and argues that by paying special attention to the complexity conceptual inter relationship and historical and contemporary context of ideologies we can both better understand them and reinvigorate the study of political theory From reviews of the hardback What is on offer here is both a highly original and profoundly stimulating analysis of ideological thinking Freeden's book will undoubtedly shape and redefine the field of ideological studies as it presently stands initiating fruitful lines of research for many years to come There is much to admire in this book History of European Ideas The approach is immensely illuminating The outstanding merit of Freeden's work is that he has shown what political philosophy presently lacks and has done so by demonstrating that ideologies should not be dismissed as merely the poor cousins of philosophies Both political theory and political philosophy have a great deal to learn from this book Radical Philosophy

Group Psychology and Political Theory C. Theories of Tyranny Roger Boesche, 2010-11-01 Ch 10 pp 381 454 Fromm Neumann and Arendt

Three Early Interpretations of Nazi Germany discusses the views of Franz Neumann and Hannah Arendt on Nazi antisemitism Neumann in his *Behemoth* 1942 stated that the Nazis needed a fictitious enemy in order to unify the completely atomized German society into one large Volksgemeinschaft The terrorization of Jews was a prototype of the terror to be used against other peoples Arendt contends in *The Origins of Totalitarianism* 1951 that it was imperialism which brought about Nazism Nazi antisemitism and the Holocaust Totalitarianism is nothing but imperialism which came home Insofar as imperialism transcends national boundaries racism may be very helpful for it because racism proposes another principle to define the enemy Jews and other ethnic groups e.g. Slavs became easy targets as groups whose claims clashed with those of the expanding German nation Terror is the essence of totalitarianism and extermination camps were necessary for the Nazis to prove the omnipotence of their regime and their capability of total domination
