**Theories of International Relations: Approaches to international relations: structuralism** Stephen Chan, Cerwyn Moore, 2006 Comprises 80 articles representing the most influential theoretical writings by international relations scholars Introduced by an essay from Stephen Chan and Cerwyn Moore the four thematically organised volumes cover the major traditions of IR theory Together these four volumes provide broad coverage of the subject and historical depth

*Totalitarianism and Political Religions, Volume 1* Hans Maier, 2004-10-14 We are used to distinguishing the despotic regimes of the 20th century communism fascism National Socialism Maoism very precisely according to place and time origins and influences But what should we call that which they have in common On this question there has been and is still a passionate debate This book documents the first international conference on this theme a conference that took place in September of 1994 at the University of Munich The book shows how new models for understanding political history arose from the experience of modern despotic regimes Here the most important concepts totalitarianism and political religions are discussed and tested in terms of their usefulness

*Morality and Nationalism* Catherine Frost, 2006-04-18 This book takes a unique approach to explore the moral foundations of nationalism Drawing on nationalist writings and examining almost 200 years of nationalism in Ireland and Quebec the author develops a theory of nationalism based on its role in representation The study of nationalism has tended towards the construction of dichotomies arguing for example that there are political and cultural or civic and ethnic versions of the phenomenon However as an object of moral scrutiny this bifurcation makes nationalism difficult to work with The author draws on primary sources to see how nationalists themselves argued for their cause and examines almost two hundred years of nationalism in two well known cases Ireland and Quebec The author identifies which themes if any are common across the various forms that nationalism can take and then goes on to develop a theory of nationalism based on its role in representation This representation based approach provides both a basis for the moral claim of nationalism while at the same time identifying grounds on which this claim can be evaluated and limited It will be of strong interest to political theorists especially those working on nationalism multiculturalism and minority rights The special focus in the book on the Irish and Quebec cases also makes it relevant reading for specialists in these fields as well as for other area studies where nationalism is an issue

*The International Dimensions of Democratization in Egypt* Gamal M. Selim, 2015-06-29 This book purports to examine the international dimensions of the democratization process in Egypt in the post Cold War era a theme which acquired significance at the academic and policy oriented levels in light of the growing internationalization of reform arrangements in the Arab world in post 9 11 and the greater involvement of external powers in Arab politics following the Arab Spring uprisings During the second half of the twentieth century the mainstream scholarship presented the democratization process as the outcome of domestic conditions not significantly influenced by actors outside the nation state With the end of the Cold War this perspective was challenged as a result of the third wave of democratization

and the subsequent growth of the good governance discourse on the agenda of the international development establishment. The new perspective attached a more significant role to external factors in the democratization process than was originally conceptualized.

**Culture and Security** Keith R. Krause, 2012-11-12 A comprehensive and empirically rich set of case studies that examine the impact of socio cultural influences on multilateral arms control and security building processes around the world.

**The Quest for Modernity** Roel Meijer, 2002 This book analyses the political ideologies of the several highly influential liberal socialist and communist thinkers groups and movements which sought to modernize Egypt after World War II. Most of the representatives of these currents intended to transform Egyptian society completely through rapid industrialization, land reforms and economic planning which would eliminate the peasantry, rationalize the economy and create a new Egyptian citizen who would live in accordance with the spirit of the age. This study explains why and how most liberal and left wing intellectuals eventually supported the authoritarian modernization programme of the July Revolution of 1952. It gives new insights into intellectual life during one of the most optimistic periods in Egyptian history, a time when Egypt was at the height of its power and believed a whole new future lay before it, uniting the Arab world and joining Asia and Africa in the common struggle for independence and dignity.

**Between Utopia and Realism** Samantha Ashenden, 2019-10-25 From her position at Harvard University's Department of Government for over thirty five years, Judith Shklar (1928-92) taught a long list of prominent political theorists and published prolifically in the domains of modern and American political thought. She was a highly original theorist of liberalism, possessing a broad and deep knowledge of intellectual history which informed her writing in interesting and unusual ways. Her work emerged between the end of ideology discussions of the 1950s and the end of history debate of the early 1990s. Shklar contributed significantly to social and political thought by arguing for a new, more skeptical version of liberalism that brought political theory into close contact with real life experience. The essays collected in *Between Utopia and Realism* reflect on and refract Shklar's major preoccupations throughout a lifetime of thinking and demonstrate the ways in which her work illuminates contemporary debates across political theory, international relations and law. Contributors address Shklar's critique of Cold War liberalism, interpretation of Montaigne and its connection to her genealogy of liberal morals, lectures on political obligation, focus on cruelty and her late reflections on exile. Others consider her role as a legal theorist, her interest in literary tropes and psychological experience and her famed skepticism. *Between Utopia and Realism* showcases Shklar's approach to addressing the intractable problems of social life. Her finely honed political skepticism emphasized the importance of diagnosing problems over proffering excessively optimistic solutions. As this collection makes clear, her thought continues to be useful in addressing cruelty, limiting injustice and combating the cynicism of the present moment.

**Urban Political Geographies** Ugo Rossi, Alberto Vanolo, 2011-11-10 Ugo Rossi and Alberto Vanolo take us on a journey around the ascent and crisis of urban liberalism providing a clear and highly readable analysis of key issues and debates in the field of urban political geography Ola S derstr m Universit de Neuch tel It is in the city trenches that the crises contradictions and counterpolitics of neoliberalization are finding some of their most vivid and consequential expressions where new worlds are being imagined made and unmade This has yet to be mapped But in *Urban Political Geographies* we have a timely and astute field guide to this unfolding process Jamie Peck University of British Columbia How can we think about the urban within a political and geographical framework This compelling textbook scrutinizes urban politics through a theoretical and empirical lens to provide readers with a clear understanding of the relationship between political spatial and economic issues relating to the urban environment Taking a truly global analysis the book uses international comparative case studies from cities across the world including London Beijing Austin and Vancouver It draws on ideas and theories from

human geography politics sociology economics and development Engaging in style and thorough in its coverage of the key issues the book is essential reading for students and scholars looking for a book that deals with contemporary urban debates from a political economic and geographical perspective Modernization, Democracy, and Islam Shireen T. Hunter, Huma Malick, 2005-01-30 The Islamic world has a poor record in terms of modernization and democracy However the source of this situation is not religion but factors including colonialism international economic and trading systems and the role of the military among others Recognizing these themes allows the consideration of possible remedies for change in the Muslim world The Islamic world has a poor record in terms of modernization and democracy However the source of this situation is not religion Islam but rather factors including colonialism international economic and trading systems and the role of the military among others Recognizing these themes allows the consideration of possible remedies for change in the Muslim world The distinguished scholars contributing to this volume identify key factors some intrinsic to the Muslim world and some external that contribute to Islam's current predicament Contrary to much prevailing thought and opinion Islam is neither monolithic nor impervious to change It is neither anti democratic nor inherently anti modernization Islam itself as this book shows is not the root cause of the malaise of the Islamic world Paths to International Political Economy (Routledge Revivals) Susan Strange, 2010-02-25 The problems of a troubled world economy and the essentially political issues of how it should be managed make up the stuff of international political economy The overwhelming importance of these questions has drawn ever increasing numbers of students and teachers in universities colleges and schools to study the subject There are many paths into international political economy for them to follow and this volume originally published in 1984 discusses most of them The collection as a whole demonstrates that the field should be seen as the exclusive preserve of neither the economists nor the political scientists On the contrary there is much to learn from specialists and practical people in government and business with a variety of backgrounds A rich selection is therefore offered including history population studies money trade technology and law from which the reader can pick and choose at will The contributions point to the landmarks of the subject and provide useful tips on the best books to read and the most interesting ideas to look out for **The East African Community** Jean-Marc Trouille, Helen Trouille, Penine Uwimbabazi, 2021-05-24 This book brings together African and European experts from a variety of disciplines to examine the origins and current state of the East African Community EAC Over the course of the book the authors analyse the rich tapestry of intraregional relations in East Africa the EAC's similarities with the European Union and the future challenges faced by the organisation Widely regarded as the most advanced and successful regional integration scheme in Africa the EAC is an intergovernmental organisation consisting of Burundi Kenya Rwanda Tanzania and Uganda and since 2016 South Sudan It is the oldest among Africa's regional economic communities and among the continent's most promising growth areas with a long history of integration punctuated by several false starts and traumas that have profoundly affected its body politics When initially set

up the EAC model bore a striking resemblance to the process undergone by the European Union Now as the EAC continues to establish its own identity this book argues that whilst Europe s history may provide useful insights for EAC member states the EAC experience could in turn also offer lessons for the European Union Covering key dimensions such as integration co operation development trade and investments this book highlights the intricate and complex relationships between East African states and it will be of interest to researchers working on economic development international relations peace and security and African studies
