Political Authority And Party Secretaries In Poland 1975 1986:

Political Authority and Party Secretaries in Poland, 1975-1986 Paul G. Lewis, 1989-06-08 This book deals with the changing position and role of the Polish United Workers Party and its apparatus between 1975 and 1986 Their role and the way they perform it is seen as a major determinant of the nature of party leadership and more generally of the strength of political authority in communist states State, Labor, and the Transition to a Market Economy Agnieszka Paczyńska, 2015-06-19 In response to mounting debt crises and macroeconomic instability in the 1980s many countries in the developing world adopted neoliberal policies promoting the unfettered play of market forces and deregulation of the economy and attempted large scale structural adjustment including the privatization of public sector industries How much influence did various societal groups have on this transition to a market economy and what explains the variances in interest group influence across countries In this book Agnieszka Paczyńska explores these questions by studying the role of organized labor in the transition process in four countries in different regions the Czech Republic and Poland in eastern Europe Egypt in the Middle East and Mexico in Latin America In Egypt and Poland she shows labor had substantial influence on the process whereas in the Czech Republic and Mexico it did not Her explanation highlights the complex relationship between institutional structures and the critical junctures provided by economic crises revealing that the ability of groups like organized labor to wield influence on reform efforts depends to a great extent on not only their current resources such as financial autonomy and legal prerogatives but also the historical legacies of their past ties to the state This new edition features an epilogue that analyzes the role of organized labor uprisings in 2011 the protests in Egypt the overthrow of Mubarak and the post Mubarak regime **Solidarity and contention** Maryjane Osa, 2003 Beyond Stalinism Ronald J. Hill, 2014-05-01 First Published in 1992 The present collection of essays brings together the concepts of change and development by using the concept of evolution to explore various forms of change in the communist and post communist world The author's experience of living in the provinces of the Soviet Union later persuaded them of the inappropriateness of at least a rigid application of the concept of totalitarianism This title will also satiate the further interest of the interaction between capitalism or liberal democracy and communism particularly the impact of capitalism's technical innovations on some of communism's basic principles of rule **Problems of Communism**, 1990 **Central Europe Since 1945** Paul G. Lewis, 2014-01-14 Central Europe here Poland the German Democratic Republic Czechoslovakia and Hungary is at the centre of international attention since the Soviet collapse An understanding of its postwar history is critical to an appreciation of the challenges facing its present rulers This is an engrossing account of the installation development operation and eventual downfall of its very different communist regimes and the transition to the freedoms and uncertainties of the post Soviet world The book covers political economic social and cultural change emphasising the crucial relationships with the USSR throughout **Poland's Journalists** Jane Leftwich Curry, 1990-02-22 Originally published in 1990 Polish

Cinema in the Cold War Cyril Buffet,2017-10-02 The film industry was an important propaganda element during the Cold War As with other conflicts the Cold War was fought not just with weapons but with words and images Throughout the conflict cinema was a reflection of the societies the ideologies and the political climates in which the films were produced On both sides great stars major companies famous scriptwriters and filmmakers were enlisted to help the propaganda effort It was not only propaganda that was created by the cinema of the Cold War it also articulated criticism and the movie industries were centres of the fabrication of modern myths The cinema was undoubtedly a place of Cold War confrontation and rivalry and yet there were aesthetic technical narrative exchanges between West and East All genres of film contributed to the Cold War thrillers westerns comedies musicals espionage films documentaries cartoons science fiction historical dramas war films and many more These films shaped popular culture and national identities creating vivid characters like James Bond Alec Leamas Harry Palmer and Rambo While the United States and the Soviet Union were the two main protagonists in this on screen duel other countries such as Britain Germany Poland Italy and Czechoslovakia also played

Britain and Poland 1939-1943 Anita Prazmowska,1995-03-23 Poland was a problematic issue for the Big Powers throughout the Second World War For Britain Poland was a major stumbling block in British Soviet relations as Polish Soviet territorial disputes clashed with the needs of the British Soviet United States alliance As the Polish government in exile attempted to obtain a guarantee of British support and many thousands of Polish troops fought for the British cause the perception grew that the Churchill government had a debt to pay Ultimately however it was a debt which Britain could not discharge because of its dependence on Soviet participation in the war In this book Anita Prazmowska looks at British policies from the point of view of wartime strategy relating this to Polish government expectations and policies She describes a tragic situation where Polish soldiers were trapped between the grandiose and unrealistic plans of their government and the harsh realities of a war which they fought with no prospect of a satisfactory outcome for them or their country The

Demise of the Soviet Communist Party Atsushi Ogushi,2007-11-02 This book based on extensive original research in previously unexplored sources including the party archives provides a great deal of new information on the disintegration of the Soviet communist party in 1991 and the preceding years It argues that contrary to prevailing views the party was reformable in late Soviet times but that attempts to reform it failed reforms succeeded in preventing the party interfering in the state body and thereby abolished the party s traditional administrative functions but without creating an alternative power centre and without transforming the party from a vanguard party into a parliamentary party It demonstrates that the party having ceased to offer career paths for aspiring party members thereby lost its reason for existence that an exodus of party members then followed which in turn caused a financial crisis and that this financial crisis and the resulting engagement in commercial activity fragmented and dispersed party property It shows how the failed coup of 1991 was led by the military rather than the party and how having lost its reason for existence and its property the party had no choice but to accept the reality that it was de facto dead *Europeanization and Regionalization in the EU's Enlargement to Central and Eastern Europe* J. Hughes,G. Sasse,2004-10-12 This book is a study of EU conditionality and compliance during the

enlargement to the Central and Eastern European candidate countries EU conditionality for membership is widely understood as having been a driving force for Europeanization providing incentives and sanctions for compliance or non compliance with EU norms such as the Copenhagen Criteria and the adoption of the *acquis communautaire* By taking

regional policy and regionalization as a case study this book provides a comparative analysis of the effects of conditionality on the Central and East European countries and explores the many paradoxes and weaknesses in the use of EU conditionality over time Watching the Watchers Henry Thomson, 2024-02-29 A unique comparative study of how authoritarian elites construct and control secret police agencies **Eastern Europe Bibliography** , 1993 A selective work that documents the formative impact of the region's earlier history Includes reference aids and bibliographies general and descriptive histories of the land peoples and economies and works depicting intellectual and cultural life Poland's Protracted Transition Kazimierz Poznański, 1996 This book first published in 1997 offers an integrated study of institutional change in the Polish economy since 1971 **An Algebra of Soviet Power** Michael E. Urban, 1989-11-23 Control of office has long been regarded as the key element in understanding power and policy in the Soviet system What however accounts for the control of office and how are individuals recruited into positions of power and responsibility In *An Algebra of Soviet Power* Michael Urban adopts a fresh approach and introduces into the field of political elite studies the sociological technique of vacancy chain analysis
