Christian Martyrdom and Political Violence Rubén Rosario Rodríguez,2017-07-13 This book examines the commonalities of Christianity Judaism and Islam and presents martyr narratives as a resource for resisting political violence **In a Madhouse's Din** Susan M. Weill,2002-03-30 Mississippi is a unique case study as a result of its long standing defiance of federal civil rights legislation and the fact that nearly half its population was black and relegated to second class citizenship According to the vast majority of Mississippi daily press editorials examined between 1948 and 1968 the notion that blacks

and whites were equal as races of people was a concept that remained unacceptable and inconceivable While the daily press certainly did not advocate desegregation in contrast to what many media critics have reported about the Southern press promoting violence to suppress civil rights activity Mississippi daily newspapers never encouraged or condoned violence during the time periods under evaluation Weill places coverage of these important events within a historical context shedding new light on media opinion in the state most resistant to the precepts of the civil rights movement This is the first comprehensive examination of civil rights coverage and white supremacist rhetoric in the Mississippi daily press during five key events the 1948 Dixiecrat protest of the national Democratic platform the Brown v Board of Education Supreme Court decision to desegregate public schools in 1954 the court ordered desegregation of Ole Miss in 1962 Freedom Summer in 1964 and the assassination of Martin Luther King Jr in 1968 From nearly 5 000 issues of Mississippi daily newspapers more than 1 000 editorials and 7 000 news articles are documented in this volume

C. Hurewitz, 2019-03-04 The Arab Israel Six Day War in June 1967 riveted world attention on the huge quantities of sophisticated weapons amassed in the arsenals of the Middle East and left in its wake tangled political military dilemmas and the intensification of the most dangerous arms race in the nonindustrialized world How do major upheavals spread across borders so easily in the Middle East What is the role of the military in the process of modernization How can the rash of military coups be explained Why is Israel the most vigorous democracy in the Middle East also the most vigorously mobilized and armed nation J C Hurewitz Professor of Government at Columbia University's School of International Affairs believes the answers to these and other pressing questions of Middle Eastern politics can be found only in a thorough examination of civil military relations in each country whether it is under military rule or not The Middle East as defined in this book comprises eighteen states stretching from Morocco to Afghanistan and Pakistan Probing the role of the military in each state the author assesses such other factors as the geographical and regional influences on specific national developments Dominating all are the ramifications of the competing American and Soviet policies for the region Through his analysis of the cold war tactics of the two Great Powers and of the bewildering arms races and the confusion of military politics that these tactics have engendered Professor Hurewitz brings into much clearer perspective the options for the West and particularly for the United States in this area He has provided in sum an informative and fully documented study of the whole interplay of domestic regional and international politics in the postwar Middle East **Complete Life of William McKinley and Story of His Assassination** Henry Neil, 1901 **Complete Life of William McKinley and Story of His Assassination** Marshall Everett, 1901 **Oklahoma History** Oklahoma Historical Society. state based on contemporaneous history as nearly as the accomplishment of such an undertaking were possible It has not been the purpose of those who have labored in concert to follow any line of precedent While omitting no important event in the history of the state there has been a decided inclination to rather stress those events that have not hitherto engaged the attention of other writers and historians than to indulge in a mere repetition of that which is common knowledge How far they have succeeded in this purpose a critical public must determine
