Political Dissidence Under Nero

Vasily Rudich

Political Dissidence Under Nero:

Political Dissidence Under Nero Vasily Rudich, 1993 Rudich examines dissidence under Nero from both historical and psychological perspectives and inquires into the balance of the universal and historically conditioned components of political behaviour Vasily Rudich examines dissidence under Nero from both historical and psychological perspectives and inquires into the balance of the universal and historically conditioned components of political behaviour The careers of numerous dissident individuals and their attempts at accommodation to a hostile reality are discussed *Political dissidence under Nero* Vasilij A. Rudič, 1984 **Political dissidence under Nero** Vasilij A. Rudič, 1984 *Dissidence and Literature Under Nero* Vasily Rudich, 1997 Dissidence and Literature under Nero provides a detailed introduction to the writings of such crucial authors as Seneca and examines a new and innovative dimension of writing in a repressive regime *Rome's Enemies Within* John S McHugh, 2024-10-30 The greatest danger to Roman emperors was the threat of deadly conspiracies arising among the Senate the imperial court or even their own families All the emperors that reigned from Augustus to the end of the first century AD faced such efforts to overthrow or assassinate them John McHugh uncovers these conspiracies narrating them and seeking to explain them The underlying cause in many cases was the decline in influence patronage and status granted by emperors to the Senatorial class leading some to seek power for themselves or a more generous candidate Attempted assassinations or coups led the emperors to mistrust the Senate and rely more on freedmen causing more resentment Paranoid emperors often reacted to the merest hint of treason real or imagined with punishments and executions leading more of those around them to consider desperate measures out of self preservation And of course amid this vicious circle of poisonous mistrust there were ambitious family members promoting their own or their offspring's claims to the purple and the duplicitous Praetorian Guard John McHugh brings to light a century of assassination conspiracy and betrayal exploring the motives and aims of the plotters and the bloody cost of success or failure [Revolts Against Rome](#) John S McHugh, 2025-09-30 Throughout the first century AD the emperors of Rome faced various threats to their rule from ambitious or embittered nobles However events show the Roman legionaries to be tenaciously loyal to the Julio Claudian dynasty The murder of Nero the last of his dynasty unleashed chaos where allegiance was bought by the madness of the leading men The troops increasingly recruited from men who had never seen Italy were often happy to draw their swords in support of a provincial governor against an emperor who was himself a victorious usurper If successful in raising their own candidate to the purple they could expect the gratitude to be tangible and spendable Mutinies were rare and often caused by changes to conditions of service or harsh discipline which demeaned the soldier's status and honour This is the story of the common soldier and their often ruthless and brutal commanders John McHugh examines each of the major cases of armed rebellion or military mutiny during the first century Skillfully intertwined with the narrative of these dramatic and usually bloody events is his analysis of the underlying causes and the varying degrees of success in the face of the Imperial response

to these threats **Religious Dissent in the Roman Empire** Vasily Rudich,2015 **Nero** David Shotter,2015-04-22

Shotter presents an introductory account of the achievements and reputation of one of the most infamous figures in Roman history Maps a time chart appendices and a glossary are included to aid further study *The Cambridge Companion to the Age of Nero* Shadi Bartsch,Kirk Freudenburg,Cedric Littlewood,2017-11-09 The age of Nero has appealed to the popular imagination more than any other period of Roman history This volume provides a lively and accessible guide to the various representations and interpretations of the Emperor Nero as well as to the rich literary philosophical and artistic achievements of his eventful reign The major achievements of the period in the fields of literature governance architecture and art are freshly described and analysed and special attention is paid to the reception of Nero in the Roman and Christian eras of the first centuries AD and beyond Written by an international team of leading experts the chapters provide students and non specialists with clear and comprehensive accounts of the most important trends in the study of Neronian Rome They also offer numerous original insights into the period and open new areas of study for scholars to pursue *Hidden Criticism?* Christoph Heilig,2015-04-01 Is there a counter imperial message beneath the surface of the text in Paul Christoph Heilig analyzes the letters of the apostle and concludes that the hypothesis that we can identify critical echoes of the Roman Empire in Paul s letters needs to be modified for it to be maintained Ancient Rome William E. Dunstan,2010-11-16 Ancient Rome masterfully synthesizes the vast period from the second millennium BCE to the sixth century CE carrying readers through the succession of fateful steps and agonizing crises that marked Roman evolution from an early village settlement to the capital of an extraordinary realm extending from northern Britain to the deserts of Arabia A host of world famous figures come to life in these pages including Alexander the Great Hannibal Julius Caesar Cleopatra Augustus Livia Cicero Nero Hadrian Diocletian Constantine Justinian and Theodora Filled with chilling narratives of violence lust and political expediency this book not only describes empire shaping political and military events but also treats social and cultural developments as integral to Roman history William E Dunstan highlights such key topics as the physical environment women law the roles of slaves and freedmen the plight of unprivileged free people the composition and power of the ruling class education popular entertainment food and clothing marriage and divorce sex death and burial finance and trade scientific and medical achievements religious institutions and practices and artistic and literary masterpieces All readers interested in the classical world will find this a fascinating and compelling history Golden Excess Eric R. Varner,2025-02-19 Golden Excess Art and the Aesthetics of the Incredible in Neronian Rome is the first monograph to offer a full art historical synthesis of the rich archaeological and monumental evidence for Nero s remarkable principate An outsized and innovative artistic program emerges informed by aesthetics of excess the grotesque and learned luxury that rivals the cultural achievements of Rome s first emperor Augustus and stands in stark contrast to the universally negative and disparaging accounts of Nero in ancient authors Indeed Neronian Rome witnessed an astonishing efflorescence in the arts

whose lasting effects still resonate

Republicanism during the Early Roman Empire Sam Wilkinson, 2012-01-19

Exploring the political ideology of Republicanism under the Roman emperors of the first century AD Sam Wilkinson puts forward the hypothesis that there was indeed opposition to the political structure and ideology of the rulers on the grounds of Republicanism While some Romans wanted a return to the Republic others wanted the emperor to ensure his reign was as close to Republican moral and political ideology as possible Analysing the discourse of the period the book charts how the view of law morality and behaviour changed under the various Imperial regimes of the first century AD Uniquely this book explores how emperors could choose to set their regime in a more Republican or more Imperial manner thus demonstrating it was possible for both the opposition and an emperor to be Republican The book concludes by providing evidence of Republicanism in the first century AD which not only created opposition to the emperors but also became part of the political debate in this period

The Roman World 44 BC-AD 180 Martin Goodman, 2013-06-17 The Roman World 44 BC AD 180

deals with the transformation of the Mediterranean regions northern Europe and the Near East by the military autocrats who ruled Rome during this period The book traces the impact of imperial politics on life in the city of Rome itself and in the rest of the empire arguing that despite long periods of apparent peace this was a society controlled as much by fear of state violence as by consent Martin Goodman examines the reliance of Roman emperors on a huge military establishment and the threat of force He analyses the extent to which the empire functioned as a single political economic and cultural unit and discusses region by region how much the various indigenous cultures and societies were affected by Roman rule The book has a long section devoted to the momentous religious changes in this period which witnessed the popularity and spread of a series of elective cults and the emergence of rabbinic Judaism and Christianity from the complex world of first century Judaea This book provides a critical assessment of the significance of Roman rule for inhabitants of the empire and introduces readers to many of the main issues currently faced by historians of the early empire This new edition incorporating the finds of recent scholarship includes a fuller narrative history expanded sections on the history of women and slaves and on cultural life in the city of Rome many new illustrations an updated section of bibliographical notes and other improvements designed to make the volume as useful as possible to students as well as the general reader

The Children of Herodotus Jakub Pigoń, 2008-12-18 This book consists of 22 papers originally presented during the conference on ancient historical writing held in May 2007 in Wrocław Poland The authors are classical historians and philologists from academic institutions in Austria Finland France Germany Israel Poland the United Kingdom and the United States The collection responds to a growing interest among classical scholars in historiography and such related genres as ethnography and biography The focus of the volume is on the one hand on the ancient historians methods of approaching the external world especially a non Greek or non Roman world and on the other on the political dimension of historical writing especially of Roman imperial historiography There are also papers devoted to pointing and defining links between historiography and

other literary genres such as epic or novel Much attention is given to classical Greek historiography Herodotus Thucydides Xenophon but other authors and periods are also discussed The book is addressed to classical scholars historians of historiography and anyone interested in ancient world With a view to a non specialist reader all Greek and most Latin quotations are translated *Rome and her Empire* David Shotter,2014-10-13 The name of Rome excites a picture of power and organisation as do the widely spread ruins that Roman civilization left behind Yet Rome grew out of a collection of small villages and major developments such as the growth of Empire were unplanned and completely unprepared for Influenced by a small number of self interested aristocrats who lacked a broader vision Rome was often threatened by their intrigues Brought to the ground on a number of occasions its leaders were able to snatch victory from the jaws of defeat How did Rome survive for nearly 1000 years ruling over millions of people with few instances of internal rebellion David Shotter argues that the key was the way Rome managed to adapt to new circumstances without at the same time discarding too many of its cherished traditions **The Emperor of Law** Kaius Tuori,2016-11-17 In the days of the Roman Empire the emperor was considered not only the ruler of the state but also its supreme legal authority fulfilling the multiple roles of supreme court legislator and administrator The Emperor of Law explores how the emperor came to assume the mantle of a judge beginning with Augustus the first emperor and spanning the years leading up to Caracalla and the Severan dynasty While earlier studies have attempted to explain this change either through legislation or behaviour this volume undertakes a novel analysis of the gradual expansion and elaboration of the emperor s adjudication and jurisdiction by analysing the process through historical narratives it argues that the emergence of imperial adjudication was a discourse that involved not only the emperors but also petitioners who sought their rulings lawyers who aided them the senatorial elite and the Roman historians and commentators who described it Stories of emperors settling lawsuits and demonstrating their power through law including those depicting mad emperors engaging in violent repressions played an important part in creating a shared conviction that the emperor was indeed the supreme judge alongside the empirical shift in the legal and political dynamic Imperial adjudication reflected equally the growth of imperial power during the Principate and the centrality of the emperor in public life and constitutional legitimation was thus created through the examples of previous actions examples that historical authors did much to shape Aimed at readers of classics Roman law and ancient history The Emperor of Law offers a fundamental reinterpretation of the much debated problem of the advent of imperial supremacy in law that illuminates the importance of narrative studies to the field of legal history **Collected Studies on Philo and Josephus** Per Bilde,Eve-Marie Becker,2016-07-11 Philo of Alexandria and Flavius Josephus are amongst the most influential ancient writers In his long scholarly career Per Bilde 1939 2014 published various essays studies and articles examining early Judaism and the historical Jesus from the angle of the work of Philo and Josephus Many of the articles contain in depth treatment of primary sources and thus are of great value for scholars to come The studies in this volume have yet been compiled by Per

Bilde himself They are now edited posthumously with contributions from Steve Mason Groningen and Mogens M ller Copenhagen responding to Bilde s work **Representing the Dynasty in Flavian Rome** Jonathan Davies,2023 This work is a re examination of the political dimensions of the Jewish War of Flavius Josephus It offers a significant new reading of a text vital to understanding both Roman and Jewish history in this period and illuminates important questions about free speech and censorship in the increasingly autocratic culture of Early Imperial Rome *The Cambridge Companion to the Roman Historians* Andrew Feldherr,2009-09-24 An introduction to how the history of Rome was written in the ancient world and its impact on later periods It presents essays by an international team of scholars that aim both to orient non specialist readers to the important concerns of the Roman historians and also to stimulate new research

Eventually, you will categorically discover a additional experience and completion by spending more cash. nevertheless when? pull off you bow to that you require to get those all needs considering having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to comprehend even more something like the globe, experience, some places, past history, amusement, and a lot more?

It is your very own era to be active reviewing habit. in the middle of guides you could enjoy now is **Political Dissidence Under Nero** below.
