international economic law transnational governance private law and human rights law to gather evidence for a counterclaim law is part of the problem The character of the contemporary global food system a food system that is being progressively financialized owes everything to law If world hunger is to be eradicated Chadwick argues then greater attention needs to be paid to how different legal regimes operate to consistently privilege the interests of the wealthy few over the needs of poor The Political Economy of African Famine R. E. Downs, Donna O. Kerner, Stephen P. Reyna, 2019-07-19 Originally published in 1991 This volume explores the combination of political and economic forces that influence different levels of food supply The book begins with a discussion of famine theories ranging from cultural ecology to neo Marxism Following this survey is a series of essays by anthropologists geographers economists and development practitioners that explores the role of Western institutions in African famine analyzes famine in particular countries and documents the relationship between famine and gender This book takes an unusually broad look at famine by including analyses of countries where hunger has rarely been studied and by examining African famine from both African and Western perspectives Its concluding proposals for eradicating famine make innovative and provocative contributions to current global debates on food **The Political Economy of Hunger in Zimbabwe** Thomas D.
