## **Political Military Systems War Revolution And Peace:**

*Peace and War* Mary LeCron Foster, 2020-03-02 Is war necessary In *Peace and War* prominent anthropologists and other social scientists explore the cultural and social factors leading to war They analyze the covert causes of war from a cross cultural perspective ideologies that dispose people to war underlying patterns of social relationships that help institutionalize war and the cultural systems of military establishments Overt causes of war environmental factors like the control of scarce resources advantageous territories and technologies or promoting the welfare of people like oneself are also considered The authors examine anthropologists role in policy formation how their theories on the nature of culture and society help those who deal with global problems on a day to day basis They argue that both covert and overt mechanisms are pushing the world closer to a devastating war and offer strategies to weaken the effects of these mechanisms This anthropological and historical analysis of the causes of war is a valuable resource for those studying war and those trying to understand the place of social science in framing pacific options

*The Chinese Military System* Harvey W Nelsen, 2019-07-11 To understand the Chinese military and thereby the dynamics of China s peacetime army one must understand its organizational system To that end Harvey Nelsen has written a book that examines in detail the entire organization of the Chinese People s Liberation Army PLA Dr Nelsen studies the PLA from top to bottom Throughout he challenges the widely held theory that military politics in China are largely determined by personal relations among officers and that the PLA is more a civic action army than are most military organizations Important as a purely military study this book is valuable also for the light it sheds on the whole of Chinese bureaucratic politics This second edition has been revised to reflect changes that have occurred since the death of Chairman Mao as well as to incorporate new information about the Chinese military and political system during Mao s reign

**War, Peace and the Military** Franz Kernic, 2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society

**Political Cadre Systems in the Military** Monte R. Bullard, 1970 *Political Violence, Crises and Revolutions (Routledge Revivals)*

Ekkart Zimmermann, 2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political

violenceCrisesMilitary Coups D tatRevolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and correspondi **Civilian in Peace, Soldier in War** United States. Department of the Army,1967

*Encyclopedia of Violence, Peace, and Conflict* ,2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world **The Transformation of the World of War and Peace Support Operations** Kobi Michael,David Kellen,Eyal Ben-Ari,2009-03-20 With the end of the Cold War the euphoria of the Gulf War of the 1990s and the avowal of a New World Order peace operations were declared as the recipe for a better world through international intervention in conflict arenas However the debacles and failures in Cambodia Somalia or the Balkans led to disillusionment and a sense of strategic helplessness among leaders experts and scholars in the industrial democracies While these arguments have been the focus of intense criticism and discussion they nevertheless underscore the fact that since the end of the Cold War the armed forces of the industrial democracies have undergone very significant transformations This is the first work linking the changes in armed forces to Peace Support Operations PSOs those operations with major state building components that demand broad and coherent cooperation between military forces and civilian entities The Transformation of the World of War and Peace Support Operations is timely as the recent debates over PSOs continue to take center stage This work embodies a new set of ideas and concepts that aid in

grasping and interpreting the transformations taking place in the world of war and in PSOs It seeks to understand how social economic political and organizational transformations around the globe are related to the complex links between armed forces and PSOs Additionally this work addresses issues that continue to define the character and makeup of modern warfare and the missions of PSOs for coming decades **Peace, War and Computers** Chris Hables Gray,2013-10-18 Computers are at the heart of war as we know it and this visionary overview of cyber war in the twenty first century studies how electronics have changed the way we fight Using informatics and chaos theory this is a disarming yet enthralling read

*Professional Journal of the United States Army* ,1996 *Air University Library Index to Military Periodicals* ,1991

**Department of the Army Pamphlet** ,1964 *Military Review* ,1996 *Marxism-Leninism on War and Army* ,1974

**Critique of Philippine Economy And Politics** José Maria Sison, Critique of Philippine Economy and Politics seeks to explain comprehensively the basic character of Philippine society and the basic problems that afflict the Filipino people especially the toiling masses of workers and peasants Since 1946 the US has granted nominal independence to the Philippines but has retained US dominance over the economic political cultural and social life of the Filipino people The shift has merely been from direct colonial to semicolonial or neocolonial rule The semifeudal economy has persisted There has been no genuine land reform and national industrialization Imperialism feudalism and bureaucrat capitalism perpetuate underdevelopment extreme exploitation mass unemployment and widespread poverty About the author Jose Maria Sison is the Founding Chairman of the Communist Party of the Philippines Chief Political Consultant of the National Democratic Front of the Philippines and Chairperson Emeritus of the International League of Peoples Struggle He has continuously studied Philippine society as a student as a teacher of literature and political science and as a full time proletarian revolutionary About the series The International Network is proud to present the third book of the Sison Reader Series Critique of Philippine Economy and Politics To follow shortly will be the fourth book on the People s Democratic Revolution

*Leslie's* ,1911 *Information Technology for Peace and Security* Christian Reuter,2024-10-31 Technological and scientific progress especially the rapid development in information technology IT and artificial intelligence AI plays a crucial role regarding questions of peace and security This textbook extended and updated in its second edition addresses the significance potential of IT as well as the challenges it poses with regard to peace and security It introduces the reader to the concepts of peace conflict and security research especially focusing on natural technical and computer science perspectives In the following sections it sheds light on cyber conflicts war and peace cyber arms control cyber attribution infrastructures artificial intelligence as well ICT in peace and conflict *Congressional Record* United States. Congress,1965 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in

Congress 1824 1837 and the Congressional Globe 1833 1873

### **Promoting Party Politics in Emerging Democracies**

Peter Burnell, Andre W. M. Gerrits, 2013-09-13 This book offers a critical and comparative examination of international support to political parties and party systems in emerging and prospective new democracies in several world regions It combines the insights of a strong international grouping of leading academics and pioneering doctoral studies and draws on extensive new field work inquiries The wide ranging coverage pools evidence from countries in Europe and Eurasia Africa East Asia and Central America The book shows how far international support still has to go if it is to achieve its aims of helping party politics make a constructive contribution to furthering democracy It advances our understanding both of the role the political parties are playing in the different polities and the sometimes negative impact of democracy promotion actors from outside By contributing original theoretical perspectives and empirical findings the book points the way forward to agendas for future research and new courses of action It will be of interest to academics and the policy making and practitioner communities alike This book was published as a special issue of Democratizations

### **Parties, Politics, Peace**

Carrie Manning, Ian O. Smith, Ozlem Tuncel Gurlek, 2023-06-29 This pathbreaking book uncovers the important underappreciated role of armed opposition groups turned political parties in shaping long term patterns of politics after war Based on an empirically grounded and theoretically informed retrospective on nearly 30 years of post conflict democratic state building efforts it examines whether this practice has contributed to peace and finds that engaging post rebel parties in electoral politics has proven to be a viable long term strategy for bringing political stability that disparate post rebel parties from different political contexts invest heavily in electoral politics and that few post rebel parties actively seek return to civil conflict as a solution after becoming a political party This book will be of key interest to scholars students and practitioners in democracy governance elections political parties post conflict peacebuilding and more broadly to international relations comparative politics and regional politics
