*A Beginners' Guide for  
Students and Politicians*

ADAM SWIFT

# Political Philosophy A Beginners Guide For Students And Statesmen

**Edmund Burke**

## **Political Philosophy A Beginners Guide For Students And Statesmen:**

**Political Philosophy** Adam Swift, 2019-05-10 Politicians invoke grand ideas social justice democracy community liberty equality But what do these ideas really mean How can politicians across the political spectrum appeal to the same values This fourth edition of Adam Swift s highly readable introduction to political philosophy answers these important questions and includes new material on issues such as nationalism immigration and multiculturalism as well as updated guides to further reading This lively and accessible book is ideal for students but it also brings the insights of the world s leading political philosophers to a wide general audience Using plenty of examples it equips readers to think for themselves about the ideas that shape political life Democracy works best when both politicians and voters move beyond rhetoric to think clearly and carefully about the values and principles that should govern their society But clear thinking is difficult in an age when established orthodoxies have fallen by the wayside and political debate is becoming increasingly tribal and raucous Bringing political philosophy out of the ivory tower and within the reach of all this book provides us with tools to cut through the complexities and penetrate the smokescreens of modern politics In so doing it makes a valuable contribution to the democratic process and this new edition will continue to be essential reading for students of political philosophy and theory

**Ethical Assessments of Emerging Technologies** Federica Lucivero, 2015-11-13 This book systematically addresses the issue of assessing the normative nature of visions of emerging technologies in an epistemologically robust way In the context of democratic governance of emerging technologies not only it is important to reflect on technologies moral significance but also to address their emerging and future oriented character The book proposes an original approach to deal with the issue of plausible ethical evaluation of new technologies Taking its start from current debates about Technology Assessment the proposed solution emerges as a combination of theoretical and methodological insights from the fields of Philosophy of Technology Science and Technology Studies and a normative justification based on pragmatist ethics The book s main contribution is to engage a diverse and interdisciplinary audience ethicists philosophers social scientists technology assessment researchers and practitioners in a reflection concerning the epistemological challenges that are associated to the endeavour of appraising the moral significance of emerging technologies in the attempt of democratically governing them It brings together concepts and methodologies from different disciplines and shows their synergy in applying them to two specific case studies of emerging biomedical technologies

**Political Philosophy** Adam Swift, 2014 Bringing political philosophy out of the ivory tower and within the reach of all this book provides us with the tools to cut through the complexity of modern politics

*Political Philosophy: A Beginner's Guide for Students and Politicians* Adam Swift, 2001-10-15 Politicians invoke grand ideas social justice liberty equality community But what do these ideas really mean How can politicians across the political spectrum appeal to the same values Political Philosophy A Beginners Guide for Students and Politicians answers these important questions Accessible and lively the book is an ideal student text but it also

brings the insights of the world's leading political philosophers to a wide general audience. Using plenty of examples it equips readers to think for themselves about the ideas that shape political life. Democracy works best when both politicians and voters move beyond rhetoric to think clearly and carefully about the political principles that should govern their society. But clear thinking is difficult in an age when established orthodoxies have fallen by the wayside. Bringing political philosophy out of the ivory tower and within the reach of all this book provides us with tools to cut through the complexities of modern politics. In so doing it makes a valuable contribution to the democratic process.

*New Statesman*, 2008    Forthcoming Books Rose Arny, 2001    **American Book Publishing Record**, 2002    **New Statesman**, 1925    The New Statesman, 1924    **New Statesman and Nation**, 1983-07    Burke, Select Works Edmund Burke, 1888    **Burke, Select Works** Edmund Burke, 2005. An appealing 2 volume compilation of Burke's principal works including *On the Causes of the Present Discontents* which treats the value of political parties the speech *On Conciliation with the American Colonies* which supported the cause of the colonists and *Reflections on the Revolution in France* a classic criticism of the revolution.
