Presidential Election Albert J. Menendez, 2014-01-10 The candidacy of John F Kennedy provoked widespread discussion of issues relating to church and state and to the role of Catholics in American politics This text is the inside story of that dramatic campaign and is the first scholarly examination based on actual voting returns It includes a detailed analysis of the vote in every state revealing that religion affected the outcome of the election far more than previously thought Kennedy lost more votes than he gained due to his religious affiliation but by crafting a strong coalition he prevailed in one of the closest races in presidential history *Religion, Race, and Barack Obama's New Democratic Pluralism* Gastón Espinosa, 2013

Annotation This edited volume demonstrates how Obama charted a new course for Democrats by staking out claims among moderate conservative faith communities and emerged victorious in the presidential contest in part by promoting a new Democratic racial ethnic and religious pluralism **The Unfinished Journey** William Henry Chafe, 2003 This popular classic text chronicles America's roller coaster journey through the decades since World War II Considering both the paradoxes and the possibilities of post war America Chafe portrays the significant cultural and political themes that have colored our country's past and present including issues of race class gender foreign policy and economic and social reform He examines such subjects as the Vietnam War the Civil Rights movement the origins and the end of the Cold War the culture of the 1970s the Reagan years the Clinton presidency and the events of September 11th and their aftermath In this edition Chafe provides an insightful assessment of Clinton's legacy as president particularly in light of his impeachment and an entirely new chapter that examines the impact of two of America's most pivotal events of the twenty first century the 2000 presidential election turmoil and the September 11th terrorist attacks Chafe puts forth an excellent account of George W Bush's first year as president and also covers his subsequent role as a world leader following his administration's declared war on terrorism The completely revised epilogue and updated bibliographic essay offer a compelling and controversial final commentary on America's past and its future Brilliantly written by a prize winning historian the fifth edition of The

Unfinished Journey is an essential text for all students of recent American history **Politics in Black and White** Raphael J. Sonenshein, 2018-06-05 This book reaches deep into the past of the city of Los Angeles and carries through to the dramatic events that have recently received global attention the Rodney King beating and the uprising in South Central L A Tracing the evolution of an extraordinary biracial coalition in Los Angeles behind Mayor Tom Bradley Raphael Sonenshein shows how crossover politics and racial violence coexist in urban America While challenging the prevailing pessimism about biracial coalitions in general he also compares their relative successes in Los Angeles to their disheartening failures in New York City

What emerges is a probing look at a crucial issue of politics in the United States can whites and minorities find common ground Jews, Catholics, and the Burden of History Eli Lederhendler, 2006-03-02 Volume XXI of the distinguished annual Studies in Contemporary Jewry marks sixty years since the end of the Second World War and forty years since the Second Vatican Council's efforts to revamp Church relations with the Jewish people and the Jewish faith Jews Catholics and the Burden of History offers a collection of new scholarship on the nature of the Jewish Catholic encounter between 1945 and 2005 with an emphasis on how this relationship has emerged from the shadow of the Holocaust **To the Golden Cities** Deborah Dash Moore, 1996 The first great modern migration of the Jewish people from the Old World to America has been often and expertly chronicled but until now the second great wave of Jewish migration has been overlooked After World War II spurred by a postwar economic boom American Jews sought new beginnings in the nation's South and West There they shaped a new postwar style of American Judaism for the second half of the twentieth century Today these sun soaked entrepreneurial communities contribute greatly to the American Jewish landscape In this book the vibrant Jewish culture of Los Angeles and Miami comes to life through Moore's skillful weaving of individual voices dreams and accomplishments

Campaign of the Century Irwin F. Gellman, 2022-01-04 Based on massive new research a compelling and surprising account of the twentieth century's closest election The 1960 presidential election between John F Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century yet the accounts to date have been remarkably unbalanced Far more attention is given to Kennedy's side than to Nixon's The imbalance began with the first book on that election Theodore White's *The Making of the President 1960* in which as he later admitted White deliberately cast Kennedy as the hero and Nixon as the villain and it has been perpetuated in almost every book since then Few historians have attempted an unbiased account of the election and none have done the archival research that Irwin F Gellman has done Based on previously unused sources such as the FBI's surveillance of JFK and the papers of Leon Jaworski vice presidential candidate Henry Cabot Lodge and many others this book presents the first even handed history of both the primary campaigns and the general election The result is a fresh engaging chronicle that shatters long held myths and reveals the strengths and weaknesses of both candidates *Power and Privilege* Gerhard E. Lenski, 2013-04-01 *Power and Privilege* seeks to answer the central question of the field of social stratification Who gets what and why Using a dialectical view of the development of thought in the discipline Gerhard Lenski describes the outlines of an emerging synthesis of theories He shows that perspectives as diverse and contradictory as those of Marx Spencer Sumner Veblen Mosca Pareto Sorokin Parsons and Dahrendorf are parts of an evolving and systematic body of theory *From Left to Right* Nancy Sinkoff, 2020-03-10 Intellectual biography of Holocaust historian Lucy S Dawidowicz *From Left to Right* Lucy S Dawidowicz the New York Intellectuals and the Politics of Jewish History is the first comprehensive biography of Dawidowicz 1915 1990 a pioneer historian in the field that is now called Holocaust studies Dawidowicz was a household name in the postwar years not

only because of her scholarship but also due to her political views Dawidowicz like many other New York intellectuals was a youthful communist became an FDR democrat midcentury and later championed neoconservatism Nancy Sinkoff argues that Dawidowicz's rightward shift emerged out of living in prewar Poland watching the Holocaust unfold from New York City and working with displaced persons in postwar Germany Based on over forty five archival collections *From Left to Right* chronicles Dawidowicz's life as a window into the major events and issues of twentieth century Jewish life Battleground Chicago Frank Kusch, 2008-05 The 1968 Democratic Convention best known for police brutality against demonstrators has been relegated to a dark place in American historical memory *Battleground Chicago* ventures beyond the stereotypical image of rioting protestors and violent cops to reevaluate exactly how and why the police attacked antiwar activists at the convention Working from interviews with eighty former Chicago police officers who were on the scene Frank Kusch uncovers the other side of the story of 68 deepening our understanding of a turbulent decade Frank Kusch's compelling account of the clash between Mayor Richard Daley's men in blue and anti war rebels reveals why the 1960s was such a painful era for many Americans to his great credit Kusch allows the pigs to speak up for themselves Michael Kazin Kusch's history of white Chicago policemen and the 1968 Democratic National Convention is a solid addition to a growing literature on the cultural sensibility and political perspective of the conservative white working class in the last third of the twentieth century David Farber *Journal of American History* **Pluralism, Democracy and Political Knowledge** Hans Blokland, 2016-04-22 The political discontent or malaise that typifies most modern democracies is mainly caused by the widely shared feeling that the political freedom of citizens to influence the development of their society and related to this their personal life has become rather limited We can only address this discontent when we rehabilitate politics the deliberate joint effort to give direction to society and to make the best of ourselves In *Pluralism Democracy and Political Knowledge* Hans Blokland examines this challenge via a critical appraisal of the pluralist conception of politics and democracy This conception was formulated by above all Robert A Dahl one of the most important political scholars and democratic theorists of the last half century Taking his work as the point of reference this book not only provides an illuminating history of political science told via Dahl and his critics it also offers a revealing analysis as to what progress we have made in our thinking on pluralism and democracy and what progress we could make given the epistemological constraints of the social sciences Above and beyond this the development and the problems of pluralism and democracy are explored in the context of the process of modernization The author specifically discusses the extent to which individualization differentiation and rationalization contribute to the current political malaise in those countries which adhere to a pluralist political system Conceptual Tension Leon J. Goldstein, 2014-11-12 *Conceptual Tension* Essays on Kinship Politics and Individualism is a critical philosophical examination of the role of concepts and concept formation in social sciences Written by Leon J Goldstein a preeminent Jewish philosopher who examined the epistemological foundations of social science inquiry during the second half of the twentieth century the

book undertakes a study of concept formation and change by looking at the four critical terms in anthropology kinship politics parliament and Rousseau s concept of the general will and sociology individualism The author challenges prevailing notions of concept formation and definition specifically assertions by Gottlieb Frege that concepts have fixed clear boundaries that are not subject to change Instead drawing upon arguments by R G Collingwood Goldstein asserts that concepts have a historical dimension with boundaries and meanings that change with their use and context Goldstein s work provides insight for philosophers historians political scientists anthropologists and Judaica scholars interested in the study and meaning of critical concepts within their fields Political and Civil Rights in the United States ,1967 *Political Parties and Political Development*.
