Politics In The Rural Society:

Politics in the Rural Society P. M. Jones, 1985-06-06 This is a study of rural society with particular reference to the peasantry. It focuses on an area of France which is defined as the southern Massif Central, the four departments forming the southern perimeter of the highland plateau of central France and spans a century which marked the apogee of peasant civilisation in this region and which witnessed the revolutions of 1789 and 1848. The book adopts a broadly cultural definition of the peasantry and offers a comprehensive account of the rhythms of rural life over some three or four generations.

However, the main emphasis is on the political responses of the peasantry in an age of revolutionary experimentation with democratic institutions. As such, the book is a social history of political behaviour at the grass roots. *Politics and Peasants in Interwar Romania* Sorin Radu, Oliver Jens Schmitt, 2017-11-06

The volume discusses the integration of peasants into the nation building project of Greater Romania with a focus on social and cultural practices. Thus, it addresses one of the key questions of the new political system in post-imperial East Central and Southeast Europe. It advocates a shift from a multiple top-down perspective (capital, province, urban political elites, rural voters) to an analysis concentrating on regionally diverse rural societies with a special interest in the predominantly ethnic Romanian population. **Grassroot Politics in India**

Sumita Mishra, 2000 **Society and Politics in the Age of the Risorgimento** John A. Davis, Paul Ginsborg, 2002-07-18 A comparative European perspective on aspects of nineteenth-century Italian politics and social history. **French Politics and Society**

Alistair Cole, 2015-02-11 Assuming no previous knowledge and concentrating on the post-1981 era, this book introduces the fundamentals of French government and society. Covering a broad spectrum of topics, French Politics and Society, 2nd Edition, follows a logical structure and framework for analysis, providing an excellent description of French institutions, access to background information and discussions of historical developments, political forces, public policy and the evolution of important aspects of French society. *Political Society in Developing Countries* A.H. Somjee, 1984-06-18

Non-institutional Political Participation Jiangshan Fang, 2015-11-30 By examining social transformation and political participation theories, this book focuses on the core concept of non-institutional political participation, which is classified into two types: induced participation and imposed participation. This classification has changed the tradition of dichotomizing political participation as either legal or illegal and enriched the conceptualization of political participation. Based on an investigation of the characteristics of Chinese peasants and the relations between interests, authority and political participation, the book examines the changes in interest structures and modes of control in rural China during the transformation period and proposes a political participation model built upon mutual benefits. *State Politics in India*

Myron Weiner, 2015-12-08 The essays in this book compare and analyze political processes in eight states within the Indian Union. A long introductory chapter by Myron Weiner sets the stage for individual studies of each state by separate scholars, namely Myron Weiner (MIT) on Political Development in the Indian States, Paul H. Brass (University of Washington) on Uttar
