Politics And Politicians In American Film:

Politics and Politicians in American Film Phillip L. Gianos, 1998-01-26 Films have been a part of U S society for a century a source of great enjoyment for the audience and of great profit to filmmakers How does a mass entertainment medium deal with some of the great sources of dramatic real life political and economic conflict the Great Depression the Cold War in a way that attracts an audience without making it angry How does an industry which has from its beginnings been the subject of attacks from social political and religious groups deal with political issues and conflicts This book is an attempt to examine these questions it is also an examination of some of the greatest and most interesting American films ever made westerns gangster films comedies war films satires and film biographies to see what American films say about politics and politicians and what these films in turn say about the audience for which they were produced *The Architecture of Survival* Erik Trump, Jake Parcell, 2023-09-05 The Architecture of Survival Setting and Politics in Apocalypse Films offers a compelling exploration of how popular films and TV series from the past two decades use architectural spaces to comment on socio political issues The authors harness varied theoretical perspectives to demonstrate how through set design these works suggest that certain kinds of architecture support human development community and freedom while other kinds separate us from our fellow humans and make democratic politics impossible The clean lines of modernist design serve in films such as Contagion and Ex Machina as a metaphor for the sanitized sterile politics that drive disaster In The Walking Dead apocalypse survivors favor traditional architectural styles when rebuilding society a choice that symbolically affirms their democratic principles The massive walls and super gentrification as seen in Elysium and Army of the Dead divide humanity with those on one side wielding illegitimate power Empty streetscapes intensify loneliness alienation and the destruction of civil norms Smart cities offering a blend of high tech surveillance and big data erode social capital and community in Her and Transcendence The book concludes with a somewhat hopeful glimpse into architecture s potential to mitigate the catastrophic adverse effects of climate change as seen in films like Zootopia Politics, Hollywood Style John Heyrman, 2017-12-20 This book analyzes major films about the American political process from the 1930 s through the 2010 s Films are grouped historically and analyzed for their portrayal of American politicians and the political system uncovering patterns and trends regarding the ways that American politics is portrayed It also explores how politics are reflected in and affected by these films For example compromise is often portrayed as a mistake and heroes generally seek to redeem a corrupt political system This book categorizes films by how politics are depicted in them e g cynically idealistically etc This book also considers the depiction of race and gender in films as well as the ideological slant of the stories told Wag the Dog: A Study on Film and Reality in the Digital Age Eleftheria Thanouli, 2013-08-01 Wag the Dog is a film that became a media event and a cultural icon because it inadvertently short circuited the distance that is supposed to separate reality and fiction The film s narration challenges the established boundaries between the fiction and nonfiction tradition as Barry

Levinson the director embeds his interest in documentary filmmaking and complicates the issue of narrative agency in the way he frames the story The examination of the historical and social context in which it was produced exhibited and received worldwide enables the author to illuminate a series of changes in the way a fiction film reflects and interacts with reality urging us to reconsider some of our central and long standing concepts or even paradigms in film theory Eleftheria Thanouli provides new insights into a series of issues from both classical and contemporary film theory like the conceptual and ontological stakes in the use of digital technology the impact of mass media on public memory and the political role of cinema in a globalized and conglomerated world
