Politics And Social Work:

Practical Politics Maryann Mahaffey, John W. Hanks, 1982 **Politics for Social Workers** Stephen

Pimpare, 2021-11-23 The social work profession calls on its members to strive for social justice. It asks aspiring and practicing social workers to advocate for political change and take part in political action on behalf of marginalized people and groups. Yet this macro goal is often left on the back burner as the day to day struggles of working directly with clients take precedence. And while most social workers have firsthand knowledge of how public policy neglects or outright harms society's most vulnerable, too few have training in the political processes that created these policies. This book is a concise, accessible guide to help social workers understand how politics and policy making really work and what they can do to help their clients and their communities. Helping readers develop sustainable strategies at the micro, meso, and macro levels, this book is a hands-on manual to contemporary American politics, showing social workers and social work students how to engage in effective activism. Stephen Pimpare, a political scientist with extensive experience as a social work practitioner and instructor, offers informed practical grounding in the mechanics of policy making and the tools that activists and outsiders can use to take on an entrenched system. He distills key research and insights from political science and related disciplines into a practical resource for social work students, instructors, and practitioners looking to deepen their policy knowledge and capacity to achieve change.

Political Social Work Shannon R. Lane, Suzanne Pritzker, 2017-12-16 This social work book is the first of its kind, describing practical steps that social workers can take to shape and influence both policy and politics. It prepares social workers and social work students to impact political action and subsequent policy with a detailed real-world framework for turning ideas into concrete goals and strategies for effecting change. Tracing the roots of social work in response to systemic social inequality, it clearly relates the tenets of social work to the challenges and opportunities of modern social change. The book identifies the core domains of political social work, including engaging individuals and communities in voting, influencing policy agendas, and seeking and holding elected office. Chapters elaborate on the necessary skills for political social work, featuring discussion examples and critical thinking exercises in such vital areas as power, empowerment, and conflict; engaging effectively with power in political settings; getting on the agenda; assessing the political context; and developing political strategy. Planning the political intervention, advocacy, and electoral campaigns; empowering voters; persuasive political communication; budgeting and allocating resources; evaluating political social work efforts; making ethical decisions in political social work. *Political Social Work* is a potent reference for social work professionals, practitioners, and students seeking core political knowledge and skills to practically advance their work. For specialists and generalists alike, it solidifies political action as vital for the evolution of the field.

movement in social work and by the emergence of new techniques in social work All this might have seemed a confusing and depressing prospect but Professor Howard Jones the editor of this collection of essays originally published in 1975 felt on the contrary that this new situation in social work presented an opportunity for a potentially rewarding debate He believed that the old unsatisfactory mould had been broken and that it was now possible for the first time for many years to look at the basic issues in social work without preconceptions The contributors to this book were all actively involved in the teaching and practice of social work at the time and they came together to initiate a debate on the leading issues of the day They were all concerned to find a right course for social work in this crucial period and among the topics they cover are social work training social workers and political action community participation and making use of research Groups That Work Paul H.
