Politische Geschichte Der Bundesrepublik Deutschland:

Politische Geschichte der Bundesrepublik Deutschland Hans Karl Rupp, 2011-12-01 Die Bundesrepublik Deutschland besteht seit sechzig Jahren Die bewegte Geschichte des Landes zeichnet der Autor in diesem Buch fundiert nach Im Rahmen dessen spannt er den Bogen von der Entstehung über den gesellschaftlichen Umbruch Mitte der 1960er Jahre die deutsche Vereinigung und die Integration Ostdeutschlands Auch die aktuellen Bewährungsproben die besonders aus dem 11. September 2001 und seinen Folgen bis in die Gegenwart resultieren finden Berücksichtigung Dieses Buch beschreibt und analysiert die Bundesrepublik Deutschland als lernende Demokratie Es stellt damit eine Alternative zur Geschichtsschreibung der Historikergunft dar

Sozialgeschichte als politische Geschichte Thomas Etzemüller, 2009-01-01 Der Historiker Werner Conze als Angehöriger der sogenannten Volksgeschichte in der Zwischenkriegszeit sozialhistorisch ausgebildet verfolgte nach dem Kriege dezidiert das Projekt die bislang von der Politikgeschichte dominierte Geschichtsschreibung auf Sozialgeschichte umzustellen Er und einige befreundete Kollegen waren der Meinung dass die tief greifenden gesellschaftlichen Veränderungsprozesse im Gefolge der Industrialisierung und des Aufstiegs des Kommunismus in Europa politikgeschichtlich nicht mehr angemessen zu verstehen seien sondern neuer Untersuchungsmethoden bedürften Die Erneuerung erforderte freilich geschickte strategische Arbeit Die Historiker mussten in einem mehrwöchigen Prozess vom Mehrwert einer sozialgeschichtlichen Herangehensweise überzeugt werden Sozialgeschichte setzte sich nicht durch sie musste durch Historiker wie Conze aktiv propagiert und in der Historiographie etabliert werden Gleichzeitig wird hinter dem Projekt der Sozialgeschichte ein spezifisches Weltbild sichtbar Man erkennt dass die Texte der frühen Sozialgeschichte durch die Vorstellung dass die Gesellschaft im Innern sozial harmonisiert und nach außen durch sichere eindeutigen Grenzen geschützt sein sollte strukturiert wurden Eine solche Gesellschaftsordnung bildete wegen der persönlichen Erfahrung andauernder gesellschaftlicher Instabilität seit 1918 das Ideal der Sozialhistoriker Durch den Kommunismus sahen sie dieses Ideal permanent doppelt bedroht im Innern durch soziale Revolutionen von außen durch die Sowjetunion Ihre Texte erweisen sich vor diesem Hintergrund als ein komplexes System ineinander verschachtelter und sich gegenseitig stützender Deutungen das die Legitimation des Kommunismus historiographisch eliminieren sollte Sozialisation in der Zwischenkriegszeit methodische Innovation und politisches Programm erweisen sich in der Sozialgeschichte der frühen Bundesrepublik als unlösbar miteinander verknüpft ein in der Zwischenkriegszeit ausgebildetes Ordnungsdenken modernisierte und prägte inhaltlich wie methodisch die Historiographie der 1950er Jahre

Politische Kultur der Bundesrepublik Peter Reichel, 2019-06-12

A History of Twentieth-Century Germany Ulrich Herbert, 2019-08-15 Germany in the 20th century endured two world wars a failed democracy Hitler's dictatorship the Holocaust and a country divided for 40 years after World War II But it has also boasted a strong welfare state affluence liberalization and globalization a successful democracy and the longest period of

peace in European history A History of Twentieth Century Germany provides a survey of German history during a century of extremes Ulrich Herbert sees German history in the 20th century as determined by two contradictory perspectives On one hand there are the world wars and great catastrophes that divide the country's history into two parts before and after 1945 Germany is the birthplace of radical ideologies of the left and right and the only country in which each ideology became the foundation of government This pattern left its stamp on both the first and second halves of the century On the other hand the rise of modern industrial society led to decades of conflict over the social and political order regardless of which political system was in force Considering these contradictory developments Herbert tackles the questions of both the collapse in the first half of the century and the development from a post fascist ruined society to one of the most stable liberal democracies in the world in the latter half Herbert's analysis brings together wars and terror utopia and politics capitalism and the welfare state socialism and liberal democratic society gender and generations culture and lifestyles European integration and globalization The resulting book sets a standard by which historians of the period will be measured in the future

The Political System of Germany Tom Mannewitz, Wolfgang Rudzio, 2023-07-07 The textbook introduces the self understanding institutional structure and practice of the political system of the Federal Republic of Germany The work provides a problem oriented overview of the basic constitutional and foreign policy decisions that have constituted German democracy the political field of forces formed by interest groups citizens initiatives parties and mass media the political institutions at the federal state and local levels the social reach and administrative enforcement of political decisions the political culture including the structure of the political ruling class The new edition also addresses among other things the consequences of the Corona crisis for the political system the changing party system and the crisis of the EU after the 2021 federal election

Recent Social Trends in West Germany, 1960-1990 Wolfgang Glatzer, International Research Group on the Comparative Charting of Social Change in Advanced Industrial Societies, 1992 The third volume in the invaluable reference series Comparative Charting of Social Change examines social trends in West Germany during the period between 1960 and 1990 This was a special phase of German history the Federal Republic of Germany was founded in 1949 and by 1960 the main disturbances of the Second World War had been overcome The next thirty years saw relatively stable development in democratic institutions economic wealth and the welfare state This process however was not entirely without difficulties Environmental conditions deteriorated and unemployment grew especially in the 1980s A new reunified Germany replaced the old FRG in 1990 ushering in a fundamentally different social structure

Nation, State and the Economy in History Alice Teichova, Herbert Matis, 2003-05-08 Originally published in 2003 this book addresses the rarely explored subject of the reciprocal relationships between nationalism nation and state building and economic change Analysis of the economic element in the building of nations and states cannot be confined to Europe and therefore these diverse yet interlinked case studies cover all continents Authors come to contrasting conclusions some regarding the economic factor as central while

others show that nation states came into being before the constitution of a national market The essays leave no doubt that the nation state is an historical phenomenon and as such is liable to expiry both through the process of globalisation and through the development of a cyber society which evades state control By contrast developments in southeastern Europe the former USSR and parts of Africa and the Far East show that building the nation state has not run its course *Die Politik der Ehre* Bert-Oliver Manig,2004 *Gendering Post-1945 German History* Karen Hagemann,Donna Harsch,Friederike Brühöfener,2019-04-02 Although entanglement has become a keyword in recent German history scholarship entangled studies of the postwar era have largely limited their scope to politics and economics across the two Germanys while giving short shrift to social and cultural phenomena like gender At the same time historians of gender in Germany have tended to treat East and West Germany in isolation with little attention paid to intersections and interrelationships between the two countries This groundbreaking collection synthesizes the perspectives of entangled history and gender studies bringing together established as well as upcoming scholars to investigate the ways in which East and West German gender relations were culturally socially and politically intertwined
