Real Pushers:

Roughnecks, Drillers, and Tool Pushers Gerald Lynch, 2010-07-22 A working class history of the Texas oil fields as told by one of its workers Oil the black gold of Texas has given rise to many a myth Oil could turn a man overnight into a millionaire and did for some But these myths have obscured what life was really like in the oil patch a place that was neither the El Dorado of legend nor quite the unredeemed den of sin and iniquity that some feared In Roughnecks Drillers and Tool Pushers Gerald Lynch provides a much needed insider's view of the oil industry describing life in various oil fields in and around Texas He also chronicles changes in drilling methods and oil field technology and how these changes affected him and his fellow oil field workers No one else has written a working class history of the oil fields as colorful and articulate as this one

Federal Criminal Law Revision United States. Congress. House. Committee on the Judiciary. Subcommittee on Criminal Justice, 1983 *The Inactivist* Chris Eaton, 2009-11-18 Set in a future where buying advertising space on children's teeth is not uncommon *The Inactivist* is the story of Kitchen a guy who's given up trying Nothing matters work romance the world His co workers have even formed an Inactivist group to stop all change Only when Kitchen meets Gage does he rethink the idea that trying is for suckers **High Occupancy** Linda R. Ward, 2007-09 **Pushing Cool** Keith Wailoo, 2021-11-02

Spanning a century *Pushing Cool* reveals how the twin deceptions of health and Black affinity for menthol were crafted and how the industry's disturbingly powerful narrative has endured to this day Police put Eric Garner in a fatal chokehold for selling cigarettes on a New York City street corner George Floyd was killed by police outside a store in Minneapolis known as the best place to buy menthols Black smokers overwhelmingly prefer menthol brands such as Kool Salem and Newport All of this is no coincidence The disproportionate Black deaths and cries of I can't breathe that ring out in our era because of police violence COVID 19 or menthol smoking are intimately connected to a post 1960s history of race and exploitation In *Pushing Cool* Keith Wailoo tells the intricate and poignant story of menthol cigarettes for the first time He pulls back the curtain to reveal the hidden persuaders who shaped menthol buying habits and racial markets across America the world of tobacco marketers consultants psychologists and social scientists as well as Black lawmakers and civic groups including the NAACP Today most Black smokers buy menthols and calls to prohibit their circulation hinge on a history of the industry's targeted racial marketing In 2009 when Congress banned flavored cigarettes as criminal enticements to encourage youth smoking menthol cigarettes were also slated to be banned Through a detailed study of internal tobacco industry documents Wailoo exposes why they weren't and how they remain so popular with Black smokers Health Care Anne Crichton, 1997

Developed within the context of the expansion of the Canadian welfare state in the years following the Great Depression the present organization of Canadian health care delivery is now in serious need of reform This book documents the causes and effects of changes made in this century to Canada's health care policy Particular emphasis is placed on the decades following 1940 the years in which Canada moved away from an individualistic entrepreneurial medical care system first toward a

collectivist biomedical model and then to a social model for health care

Transparency, Power, and Influence in the Pharmaceutical Industry Katherine Fierlbeck, Janice Graham, Matthew Herder, 2021-06-29 There is plenty of controversy surrounding pharmaceuticals but it cannot be denied that the pharmaceutical industry is both socially beneficial and profitable. Regulators are expected to ensure that the economic success of the industry does not come at the expense of public safety yet they have also assumed a cooperative role by providing advice on regulation and by targeting unmet medical needs. Concerns over regulatory standards, conflicts of interest, and the manipulation of information on drug safety and effectiveness have led to public mistrust and a greater need for transparency between the pharmaceutical industry and government regulators. *Transparency Power and Influence in the Pharmaceutical Industry* evaluates the progress made in holding the pharmaceutical industry responsible for creating transparency in the industry from development to market. The contributors to this volume examine the various mechanisms introduced to make the regulatory process more informative and situate these efforts within the larger project of enhancing the safety of drugs, vaccines, and other products.

Is This Wi-Fi Organic? Dave Farina, 2021-03-30 How to separate facts from fake science in the Disinformation Age. Cuts through the chaos, sure to keep you laughing while also keeping you thinking. Matt Candeias, PhD, author of *In Defense of Plants*. We live in an era when scams, frauds, fake news, fake stories, fake science, and false narratives are everywhere. Fortunately, you don't need a BS in Science to spot science BS. This guide from educator Dave Farina, aka YouTube's Professor Dave, is a playful yet practical investigation of popular opinions and consumer trends that permeate our society. Shoppers insist on organic everything, even if they're unable to define the term. Healers and quantum mystics secure a foothold alongside science-based medicine in an unregulated and largely unchallenged landscape. Misleading marketing is used to sell you products and services that range from ineffectual to downright dangerous. With the knowledge gained from Dave Farina's simple explanations of basic scientific principles, you can learn to spot misinformation and lies on the internet before they spot you. Learn the real science behind such semi-controversial subjects as drugs, vaccines, energy, and biotechnology, and most importantly, arm yourself with the critical thinking skills everyone needs in a world filled with nonsense. Scientific literacy is our best defense in an age of increasing disinformation.

Kellie Gerardi, aerospace professional and author of *Not Necessarily Rocket Science*

Bodily Subjects Tracy Penny Light, Barbara Brookes, Wendy Mitchinson, 2015-02-05 Historical understandings of gender and health that raise important questions about how health care works today

[Health Advocacy, Inc.](#) Sharon Batt, 2017-06-15 Over the past several decades, a gradual reduction in state funding has pressured patient groups into forming private sector partnerships, raising an important ethical question: do these alliances ultimately lead to policies that are counter to the public interest? Health activist scholar and cancer survivor Sharon Batt examines the issue by investigating Canada's breast cancer movement from 1990 to 2010. *Health Advocacy Inc.* dissects the relationship between the companies that sell pharmaceuticals and the individuals who use them, drawing links between neoliberalism and

corporate financing and the ensuing threat to the public health care system Combining archival analysis interviews with advocacy and industry representatives and personal observation Batt argues that the resulting power imbalance continues to challenge the groups ability to put patients interests ahead of those of the funders A movement that once encouraged democratic participation in the development of health policy now eerily echoes the demands of the pharmaceutical industry Batt s thorough account of this shift defines the stakes of activism in public health today
