Realites Francaises:

Les Enjeux démographiques en France et en Allemagne : réalités et conséquences Serge L. Gouazé, Anne Salles, 2011 L'ouvrage Les enjeux démographiques en France et en Allemagne réunit ses conséquences est le fruit d'un colloque organisé à Valenciennes en octobre 2009 réunissant des démographes européens et des germanistes français travaillant sur les mêmes questions L'évolution démographique en Europe est caractérisée ces dernières décennies d'une part par une natalité en recul et un vieillissement démographique et de l'autre par un afflux d'immigrés sans précédent Ces deux phénomènes placent le continent européen en face des défis majeurs l'inversion de la pyramide des générations met la pression des systèmes de protection sociale actuels en question tandis qu'un déclin démographique durable signifie pour les entreprises une pénurie de main d'œuvre qualifiée laquelle nécessite ou bien une augmentation des taux d'activité féminine ou une immigration volontaire Dans le premier cas les politiques familiales sont sollicitées pour qu'elles soient améliorées les possibilités de concilier vie professionnelle et vie familiale dans le second ce sont les politiques d'immigration et d'intégration L'ouvrage regroupe dans une première partie les analyses comparées des mouvements naturels en Allemagne et en France et des politiques familiales respectives La deuxième partie est consacrée aux conséquences du déclin démographique sur les rapports de genre et les relations entre les générations sur les systèmes de protection sociale et même sur l'urbanisme et le vivre ensemble dans les États providence La troisième partie porte sur l'immigration et l'intégration de populations étrangères immigration espagnole ou maghrébine ici turque judo-russe et d'Allemands de souche l'ouvrage ne saurait oublier les politiques d'asile et d'immigration dans le cadre de l'Union européenne Une synthèse des résultats clôture l'ouvrage À partir des contributions de germanistes de sociologues d'un géographe et d'un politologue le présent ouvrage jette sur les phénomènes de la natalité et du vieillissement démographique d'une part et sur l'immigration et l'intégration de l'autre notamment des éclairages complémentaires lesquels tout en étant thématiquement centrés sur l'Allemagne s'efforcent d'intégrer la dimension comparatiste avec la France

Français-Américains Gilles Asselin, Ruth Mastron, 2005 Propose une analyse culturelle de la relation franco-américaine dans les domaines de la vie de tous les jours tels la religion la famille ou l'amour sans oublier le travail et la politique Explique les dessous de ces deux visions du monde aux antipodes et permet de comprendre en profondeur ces deux cultures clefs de notre époque *Réalités*, 1964 Remaking France Brian A. McKenzie, 2005-10-01 Public diplomacy neglected following the end of the Cold War is once again a central tool of American foreign policy This book examining as it does the Marshall Plan as the form of public diplomacy of the United States in France after World War Two offers a timely historical case study Current debates about globalization and a possible revival of the Marshall Plan resemble the debates about Americanization that occurred in France over fifty years ago Relations between France and the United States are often tense despite their shared history and cultural ties reflecting the general fear and disgust and attraction of America and Americanization The period covered in this book offers a good example the French Government begrudgingly accepted

American hegemony even though anti Americanism was widespread among the French population which American public diplomacy tried to overcome with various cultural and economic activities examined by the author In many cases French society proved resistant to Americanization and it is questionable whether public diplomacy actually accomplished what its advocates had promised Nevertheless by the 1950s the United States had established a strong cultural presence in France that included Hollywood Reader s Digest and American style hotels

France and the Visual Arts Since 1945 Catherine Dossin,2019-01-01 Taking on the myth of France s creative exhaustion following World War II this collection of essays brings together an international team of scholars whose research offers English readers a rich and complex overview of the place of France and French artists in the visual arts since 1945 Addressing a wide range of artistic practices spanning over seven decades and using different methodologies their contributions cover ground charted and unknown They introduce greater depth and specificity to familiar artists and movements such as Lettrism Situationist International or Nouveau Réalisme while bringing to the fore lesser known artists and groups including GRAPUS the Sociological Art Collective and Nicolas Schffer Collectively they stress the political dimensions and social ambitions of the art produced in France at the time deconstruct the traditional geography of the French art world and highlight the multiculturalism of the French art scene that resulted from its colonial past and the constant flux of artistic travels and migrations Ultimately the book contributes to a story of postwar art in which France can be inscribed not as a main or sub chapter but rather as a vector in the wider constellation of modern and contemporary art
