Rearming The Phoenix:

Rearming Germany James S. Corum, 2011-04-11 This book is intended to serve as an advanced course text for students studying the Cold War The rearmament of both Germanies in the late 1940s early 1950s was one of the defining moments of the Cold War The question of rearming Germany became one of the most difficult questions faced by the Western Allies after World War II Inside West Germany there was also a considerable debate as to whether Germany ought to rearm at all Once the decision to rearm was made the Germans and Western Allies ran into all the practical problems of deciding whether Germany would join NATO what role the Germans would play in the Alliance how Germany would be armed and the form the armed forces would play in German society A team of expert authors have examined all of these core questions in detail An analysis of the origins of rearmament in East Germany is also provided With this book a reader will gain a thorough understanding of the complex issues that faced the West from 1945 1957 Contributors are Jonathan House Douglas Peifer Martin Rink Daniel Jordan Adam Seipp Thomas Vogel Klaus Naumann Dieter Kollmer and Oliver Haller *From Disarmament to Rearmament* Sheldon A. Goldberg, 2017-10-02 At the end of World War II the Allies were unanimous in their determination to disarm the former aggressor Germany As the Cold War intensified however the decision whether to reverse that policy and to rearm West Germany as a bulwark against the Soviet threat led to disagreements both within the US government and among members of the nascent NATO alliance The US military took the practical view that a substantial number of German troops would be required to deter any potential Soviet assault The State Department on the other hand initially advocated an alternative strategy of strengthening European institutions but eventually came around to the military's position that an armed West Germany was preferable to a weak state on the dividing line between the Western democracies and the Soviet satellite states Sheldon A Goldberg traces the military diplomatic and political threads of postwar policy toward West Germany and provides insights into the inner workings of alliance building and the roles of bureaucrats and military officers as well as those of diplomats and statesmen He draws on previously unexamined primary sources to construct a cogent account of the political and diplomatic negotiations that led to West Germany's accession to NATO and the shaping of European order for the next forty years Rearming the Phoenix Andrew James Birtle, 1985 The purpose of this paper is to describe the evolution of the American military assistance program to West Germany from the inception of planning in 1950 to the end of the decade by which time the bulk of U S aid had been delivered The paper will explore the interrelationship of U S diplomatic policy military policy and military assistance planning during the 1950s In doing so it will both illustrate the uses and limitations of military aid to achieve diplomatic and military goals and provide insights into German American relations the development of NATO and the recreation of German armed forces In reviewing the aid programs this study will focus on American planning for the German army This is because the army program was the most important politically and militarily of the three service programs and because it comprised the largest portion of the aid

The Americanized Luftwaffe by Billy Bieler Billy Bieler, 2016-04-11 The Americanized Luftwaffe by Billy Bieler The Luftwaffe a significant component of the late German Armed Forces Bundeswehr and arguably one of the major pillars of the Atlantic Alliance thanks to its size and positioning within NATO served as an influencer of change in the post Cold War and Reunification periods Although Luftwaffe was certainly influenced by old squads and their merits it accomplished much for the new democracy thereby contributing to the preservation of peace The Americanized Luftwaffe explores all aspects of the post war Luftwaffe from its weapon system effectiveness and fighter weapon systems characteristics to its significant partnership with the United States Air Force Through in depth analyses of Luftwaffe s aircraft performance deficiencies of the operational spectrum and the complexity of its weapons systems much of which were developed in the latter part of the last century The Americanized Luftwaffe demonstrates the extraordinary undertaking involved with both the reorganization and buildup and the tactical weight and importance of the Luftwaffe within the alliance
