Before Identity Richard F. Calichman, 2021-02-01 Before Identity represents the first attempt to provide a comprehensive examination of the methodological ground of Japan studies At its most basic level the field presupposes the immediate empirical existence of an entity known as the Japanese people or Japanese culture from which it then carves out its various objects of inquiry Richard F Calichman attempts to show that this presupposition is itself ineluctably bound up with modern forms of knowledge formation thereby enlarging the scope of what is meant by modernity In this way he aims to bring about a heightened level of theoretical critical vigilance in the field Calichman explores the methodological commitments implied or expressed in the work of a range of writers and scholars Murakami Haruki Komori Y ichi Harry Harootunian Tomi Suzuki Alan Tansman and Dennis Washburn and how such commitments have shaped and limited the field If theoretical issues in Japan studies are not subjected to this sort of in depth scrutiny Calichman argues then the field will continue to remain ghettoized relative to other disciplines in the humanities and social sciences which have typically been more receptive to conceptual discourse By showing that scholarly inquiry must begin not at the level of the object but rather at the more fundamental level of methodology Calichman aims to introduce a greater degree of theoretical rigor to the discipline of Japan studies as a whole

Identity? Metaphysical Approach Jure Zovko, 2021-06-11 Identity is considered prima facie the most important philosophical principle in traditional logic and metaphysics The reflexive ability of the subject implies that he or she can relate to himself or herself and to others thus establishing the basis for the formation of individual and social identity The present essays which contains papers held at the conference of the Institut International de Philosophie at the University of Zadar in 2007 present a range of positions and arguments regarding the possibilities of philosophical interpretation of identity

Negotiating Capability and Diaspora Ashmita Khasnabish, 2013-12-04 Negotiating Capability and Diaspora A Philosophical Politics scrutinizes Indian economist cum philosopher Amartya Sen s theory of capability which rose as a critique of the modern American philosopher John Rawls s theory of primary goods Ashmita Khasnabish develops Sen s theory of capability as a leitmotif throughout the book She focuses on the following themes 1 how Amartya Sen s theory of capability offers strength to immigrants and underdogs 2 the significance of John Rawls s theory for Sen s theory of capability 3 two aspects of Sen s theory on the one hand it exposes the asymmetry between people of power and the

powerless due to the discrepancy of resources and on the other hand it shows how the powerless or the underdogs or the minorities could exert their will power through the paradigm of choices to overcome 4 finally Sri Aurobindo's theory of democracy which intersects with John Rawls's theory of comprehensive doctrines and political justice Khasnabish also discusses authors Amitav Ghosh Jhumpa Lahiri and Toni Morrison whose novels illustrate different facets of the theory of capability Negotiating Capability and Diaspora develops themes that will be of great interest to students and scholars of political philosophy feminist philosophy postcolonial studies literary studies Diaspora studies and world literature

The Sublime Today Gillian B. Pierce, 2013-01-04 The Sublime Today considers contemporary applications of aesthetic philosophy and earlier theories of the sublime from Longinus Boileau Burke Kant and Hegel to current literary and cultural contexts Today aesthetic experience itself seems to be changing given the rise of new media and new conditions for the viewing and the reception of works of art How might the rhetoric of the sublime be used to both describe our current situation and help formulate constructive responses to it The Sublime Today collects the work of scholars in literature film art and media studies and provides a forum for investigating the contemporary relevance of the sublime both as it has been understood historically and as it has been formulated by more recent theorists such as Jameson Lyotard Kristeva and others The volume includes essays on literary readings of the sublime in Coetzee Eggers Lahiri and Auster essays on film and the visual arts in the work of François Ozon and in recent participatory art and essays on how new technologies and media as in media representations of 9 11 re frame our relationship to the aesthetics of the sublime especially as they intersect with questions of gender the postcolonial and the uneasy politics of terror

Identity Economics Meral Uzunöz Altan,Meltem İnce Yenilmez,Oğuzhan Altınkoz,Sinem Bağçe,2024-07-08 Critics contend that identity economics overemphasizes social identities as drivers of economic activity potentially obscuring other elements including personal preferences incentives and market pressures Identity related notions are challenging to measure and quantify meaningfully and rigorously which is one of the most common criticisms Identity economics has long been debated by economic scientists and practitioners but it is still considered to be in its infancy which also draws attention to the absence of a clear consensus and solid empirical support This book fills that gap by providing an in depth analysis of the main claims made in favour of identity economics It explores the reliability of identity based explanations the difficulties with measurement and quantification concerns about overgeneralization and essentialism the function of economic institutions policy implications a lack of agreement and empirical evidence and considerations of intersectionality and multidimensionality The book considers three interrelated aims Firstly it familiarizes readers with the concept of Identity Economics Secondly and essentially it persuades a larger audience of the relevance and creativity of this sector and thirdly it advocates for the applicability of the approach to the field of knowledge The focus of the examination centres around these three objectives Few would argue that identity impacts our decisions but given that solid theory is predicated on good abstraction the real question is whether we lose anything by excluding identity from the theory The book skilfully weaves together the literature from several disciplines including regional gender labour social areas of studies thus academics students and researchers in these fields will find the individual contributions useful for their respective areas of study
