

been. The Enlightenment ideal of transparent classification, the universal library, must be abandoned along with any messianic pursuit of an eschatological purity. It must be replaced by an ideal of hospitality ('hospitalière langagière') which combines love of one's own language with acceptance of otherness. Resistance is motivated by fear and hatred of the outsider, seen as a menace to our linguistic heritage and identity. The movement between languages may appear insurmountable (as in Chomsky, 'bien infranchissable'), but the empirical rejoinder is in this case a devastating one: since translation exists it must be possible. This in turn becomes the ethical ideal of conduct to others within one's own language, towards those who are not strangers: it is always possible to say the same thing otherwise ('autrement dit', perhaps better translated as to and for the other, otherly).

The interest of this recent position lies partly in its reformulation of Ricoeur's earlier hermeneutics founded on the dialectic of explanation and understanding of writing conceived in terms of singular artefacts. Instead of a move to generalized textuality (or linguisticity if one prefers Gadamer), it now posits endless transitions between specific writings. Rather than the deconstructive or Heideggerian unmasking of false

origins, acceptance of our condition within writing (as 'nomads errants') implies an opportunity for creative reconstruction and ethical openness to the other. Writing implies writings. This in turn entails a world of divergent but not therefore hostile or incompatible languages and traditions: comprehension of that multiplicity may then become a model for ethical openness to the other both within and outside our own heritages.

The Politics of Metaphor

Don Miller

Keywords boundary, common sense, politics

Metaphor, like any good metaphor, has more than one face: it is, after all, the very stuff of possible worlds promised or denied. It may free or imprison us; it may trumpet its presence or infiltrate unnoticed. We are understandably ambivalent. One moment it appears to be the embodiment of language; the next its betrayer. It indeed troubles us. Little wonder that metaphor can suddenly be seen as the foundation metaphor of politics itself.

There are two related vectors of the politics of metaphor. One is the ostensibly academic question of the place of metaphor, and hence its meaning. Common western thought still welcomes metaphor, after Aristotle, as an attractive accoutrement of things rhetorical but of having no place in other discourse. We are instantly in the politics

of boundaries. Conventional wisdom (and common academic practice) today still insists that metaphor stay in its proper place; elsewhere it is persona non grata.

The Greek tradition gives the modern world a second lean on the issue. Aristotle also saw metaphor as providing a change in perspective, of telling us something new. It is not just a manner of words, it is about thoughts, new thoughts. He was lavish in its praise: it is 'one thing that cannot be learned from others – it is a sign of genius – [it] implies an intuitive perception of the similarity in dissimilars'. Paul Ricoeur, like many others, echoes this sentiment today.

The face of the metaphoric new is one of strangeness, even of a disconcerting incongruity. It upsets the established order. New metaphors may well enthuse those ready to pursue difference; but they frighten others wanting to maintain some existing order of things. Two political moves regularly follow.

Reason Of Metaphor A Study In Politics:

Political Metaphor Analysis Andreas Musolff, 2016-08-25 Political metaphors and related figurative discourse tools are characterised by their variability and contentiousness Using them discourse participants try to gain competitive advantage over others by offering their audiences new meaning nuances challenging each other and announcing political initiatives It is here that metaphor as a means to change meanings and thus to change social and political reality comes into its own Political Metaphor Analysis provides an innovative approach to the study of figurative language use in political discourse by presenting empirical analyses based on a large corpus of political metaphors and metonymies linking these analyses to theoretical positions and assessing their limitations and perspectives for further exploration The classic model of conceptual metaphor analysis pioneered by Lakoff and Johnson 1980 and expanded and amended over the past thirty five years is critically examined with regard to new findings about the variation historicity pragmatic exploitation comprehension and interpretation of metaphors As a central new analytical category the notion of metaphor scenario is proposed and tested against various sub sets of data It allows to link hypothesised conceptual metaphors to narrative argumentative and evaluative patterns in actual discourse and understanding processes so that their cognitive significance can be more reliably gauged and theoretically modelled Metaphor Studies: Theories, Methods, Approaches, and Future Perspectives Ilaria Rizzato, Valentina Cuccio, Aletta Gesina Dorst, 2024-12-12 Metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences While the Cognitive Theory of Metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the Neural Theory of Metaphor the Relevance Theory Approach the Complex Systems Approach and the Dynamic Systems Approach Though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in NLP and machine learning Metaphor Studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods In current metaphor research each of these strands is facing new challenges and offering new venues of cutting edge research using state of the art technologies Researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines Metaphor Studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from linguistics to psychology to the theory of science Hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation This Research Topic aims to promote cross fertilization among the many research areas involved in Metaphor Studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios **The Politics of Climate Change**

Metaphors in the U.S. Discourse Othman Khalid Al-Shboul, 2023-02-28 This book uses critical metaphor analysis to show from a cognitive perspective how climate change is conceptualized in the USA The author enriches his linguistic analysis with cognitive aspects such as source target domain mapping and metaphor opposition to explain how metaphor works in terms of framing this issue drawing on a Critical Discourse Analysis informed framework to demonstrate how politicians represent the climate crisis in their attempts to trigger social change Using a data set of speeches given by US based politicians governors and mayors speaking in the context of the withdrawal of the United States from the Paris Agreement the book categorizes metaphors on different conceptions such as war construction unfairness journey and cleanliness to bridge the gap between ecolinguistics and critical metaphor analysis This book will be of interest to students and scholars in fields including applied linguistics political communication ecolinguistics and cognitive linguistics and psychology *Metaphor and Political*

Discourse A. Musolff, 2004-08-04 Far from being rhetorical ornaments metaphors play a central role in public discourse as they shape the structure of political categorisation and argumentation Drawing on a very large bilingual corpus this book now in paperback analyses the distribution of metaphor scenarios in more than a decade of public discourse on European integration elucidating differences in UK and German attitudes and argumentation The corpus analysis leads to a refinement of cognitive metaphor theory by systematically relating conceptual semantic and argumentation levels and incorporating the historical dimension of metaphor evolution Finally drawing on examples of metaphor negotiation and on a reassessment of Hobbes concept of metaphor in Leviathan the book highlights the ethical dimension of metaphor in politics **Slowing**

Metaphor Down Gerard J. Steen, 2023-06-15 If thinking can be fast or slow metaphorical thinking can be fast and slow too But metaphorical thinking does not occur as often and in the ways that many metaphor scholars today think Slow metaphorical thinking does mean however that we can exert more control over metaphor than has previously been acknowledged We can even offer resistance to metaphor Deliberate Metaphor Theory DMT claims that there is an essential processing difference between non deliberate and deliberate metaphor use which can explain all this This book is the first full account of the DMT model for metaphor comprehension It presents explicit conceptualization and formal operationalization and is based on a well known cognitive psychological model for all utterance comprehension in discourse The original three dimensional model of DMT is here refined into a four dimensional model which reveals new research questions and discoveries about the use of metaphor The book brings together numerous cognitive scientific insights into metaphor It has a high degree of interdisciplinary accessibility to all students of metaphor whether master students PhDs post docs or established academics *Discourse Studies in Public Communication* Eliecer Crespo-Fernández, 2021-04-15 The collection of articles in Discourse Studies in Public Communication illustrates that public communication is a fascinating evidence based storehouse for research in discourse analysis The contributions to this volume in the spheres of political rhetoric gender and sexuality and corporate and academic communication provide good evidence of contemporary social

structure social phenomena and social issues In this way following the parameters of different analytical frameworks critical discourse analysis cognitive metaphor theory appraisal theory multimodality etc the contributors address not only the linguistic aspects of texts but also and more importantly the cultural and cognitive dimensions of public communication in a range of real life communicative contexts and kinds of discourse Although the volume is addressed first and foremost to readers with diverse interests in English linguistics it may also prove valuable to scholars in other non linguistic research fields like communication studies social theory political science or psychology

Kant's Tribunal of Reason Sofie Møller,2020-03-05 This is the first book length study in English of Kant s legal metaphors whose philosophical importance has so far been overlooked It will appeal to academic researchers and advanced students of Kant early modern philosophy legal philosophy and intellectual history

Metaphor in Socio-Political Contexts Manuela Romano,2024-05-06 Metaphor studies is a vibrant and fascinating field The present book brings together the work of influential researchers analyzing metaphor empirically from Critical Socio Cognitive perspectives CSCDA The case studies focus on the role of metaphor as a powerful strategy for the creation of specific world views and ideological frames as well as for their contestation in current crises

[Analysing Political Speeches](#) Jonathan Charteris-Black,2018-08-24 Exploring speeches by public figures such as Emma Watson Tony Blair Donald Trump Julia Gillard and Lady Gaga this engaging textbook explains the ways in which political speeches can be analysed It examines the role of language in speeches and how it can be used to challenge or reinforce prevailing social cultural and political attitudes Each chapter introduces a particular discourse approach and then applies this in a model analysis of a passage of text The chosen texts concern issues of social cultural and political importance that address topics of significant importance to the audience to which they were delivered Students are encouraged to engage with the text and consider how approaches to text analysis such as cohesion context analysis and metaphor analysis may be adapted to provide a more critical perspective This text will be essential reading for students of English language linguistics communication studies and politics on critical discourse and discourse analysis modules

Metaphor and Intercultural Communication Andreas Musolff,Fiona MacArthur,Giulio Pagani,2014-05-20 Metaphor and Intercultural Communication examines in detail the dynamics of metaphor in interlingual contact translation and globalization processes Its case studies which combine methods of cognitive metaphor theory with those of corpus based and discourse oriented research cover contact linguistic and cultural contacts between Chinese English including Translational English and Aboriginal English Greek Kabyle Romanian Russian Serbian and Spanish Part I introduces readers to practical and methodological problems of the intercultural transfer of metaphor through empirical corpus based and experimental studies of translators experiences and strategies in dealing with figurative language in a

variety of contexts Part II explores the universality relativity dimension of cross and intercultural metaphor on the basis of empirical data from various European and non European cultures Part III investigates the socio economic and political consequences of figurative language use through case studies of communication between aboriginal and mainstream cultures in the media in political discourse and gender related discourses Special attention is paid to cases of miscommunication and of deliberate re and counter conceptualisation of clichés from one culture into another The results open new perspectives on some of the basic assumptions of the classic cognitive paradigm e.g. regarding metaphor understanding linguistic relativity and concept construction

Unpacking Metaphor-related Prepositions in Political Discourse Mokhtar

Ounis,2023-11-27 This book explores the context around why English prepositions are used in figurative language more frequently than nouns and verbs using corpus based evidence to examine the most often used prepositions and how they are employed and for what purpose While research on cognitive approaches to metaphor has significantly expanded in recent decades little attention has been paid to prepositions as vehicles of figurative language owing to their polysemous complex and inconsistent nature To bridge this gap Ounis introduces an innovative conceptual framework that integrates conceptual metaphor theory diachronic linguistics and discourse pragmatics Drawing upon an extensive corpus of American presidential inaugural addresses this book considers the linguistic conceptual pragmatic and contextual dimensions of English prepositions revealing the fascinating interplay between language culture and cognition This volume will be of interest to scholars in pragmatics metaphor studies English language rhetoric studies and historical linguistics

Multimodal Approaches to Chinese-English Translation and Interpreting Meifang Zhang,Dezheng (William) Feng,2020-12-29 Nowadays discourse analysis deals with not only texts but also paratexts and images so do translation and interpreting studies Therefore the concept of multimodality has become an increasingly important topic in the subject areas of linguistics discourse analysis and translation studies However up to now not much research has been done systematically on multimodal factors in translation and interpreting and even less in exploring research models or methodologies for multimodal analysis in translation and interpreting This book aims to introduce and apply different theories of the multimodal discourse analysis to the study of translations with case studies on Chinese classics such as the Monkey King Mulan and The Art of War as well as on interpretations of up to date issues including the Chinese Belt and Road Initiatives and Macao tourism The chapters reflect the first attempts to apply multimodal approaches to translation and interpreting with a special focus on Chinese English translations and interpreting They provide new understandings of transformations in the multimodal translation process and useful reference models for researchers who are interested in doing research of a similar kind especially for those who are interested in looking into translations related to Chinese language literature and culture

Biology as Society, Society as Biology: Metaphors Sabine Maasen,E. Mendelsohn,P. Weingart,2013-12-01 not lie in the conceptual distinctions but in the perceived functions of metaphors and whether in the concrete case they are judged positive or

negative The ongoing debates reflect these concerns quite clearly namely that metaphors are judged on the basis of supposed dangers they pose and opportunities they offer These are the criteria of evaluation that are obviously dependent on the context in which the transfer of meaning occurs Our fundamental concern is indeed the transfer itself its prospects and its limits Looking at possible functions of metaphors is one approach to understanding and elucidating sentiments about them The papers in this volume illustrate by quite different examples three basic functions of metaphors illustrative heuristic and constitutive These functions represent different degrees of transfer of meaning Metaphors are illustrative when they are used primarily as a literary device to increase the power of conviction of an argument for example Although the difference between the illustrative and the heuristic function of metaphors is not great it does exist metaphors are used for heuristic purposes whenever differences of meaning are employed to open new perspectives and to gain new insights In the case of constitutive metaphors they function to actually replace previous meanings by new ones Sabine Maasen in her paper introduces the distinction between transfer and transformation

Kantian Theory and Human Rights Andreas Follesdal, Reidar Maliks, 2013-11-12

Human rights and the courts and tribunals that protect them are increasingly part of our moral legal and political circumstances The growing salience of human rights has recently brought the question of their philosophical foundation to the foreground Theorists of human rights often assume that their ideal can be traced to the philosophy of Immanuel Kant and his view of humans as ends in themselves Yet few have attempted to explore exactly how human rights should be understood in a Kantian framework The scholars in this book have gathered to fill this gap At the center of Kant's theory of rights is a view of freedom as independence from domination The chapters explore the significance of this theory for the nature of human rights their justification and the legitimacy of international human rights courts

Political Myth-making, Nationalist

Resistance and Populist Performance Mark Nartey, 2022-11-30 Using the socio political discourse of Kwame Nkrumah a pioneering Pan Africanist and Ghana's independence leader Nartey investigates the notion of political myth making in a context underexplored in the literature He examines Nkrumah's construction of a myth described in the book as the Unite or Perish myth i.e. the idea of a United States of Africa being a prerequisite for the survival of Africa in the post independence period exploring the rhetorical resources he deployed categorizing and analyzing key tropes and metaphors and setting out

the myth's basic components This book focuses on three areas an investigation of political myth making as a social and discursive practice in order to identify particular semiotic practices and linguistic patterns deployed in the construction of mythic discourse the unpacking of the discursive manifestation representation features and functions of political mythic themes and finally to propose and implement an integrated discourse analytical framework to account for the complexities of mythic discourse and political narratives in general It analyzes how Nkrumah deployed his discourse to concurrently construct heroes and villains protagonists and antagonists as part of an ideological mechanism aimed at galvanizing support for and instigating action on the part of the masses towards his lifelong African dream Nartey's book steps out from the conventional domain of critical discourse studies to focus on myth as a form of populist performance It will be of interest to postgraduate students and academics in critical discourse studies rhetorical discourse analysis African and Diaspora studies and African history as well as non academics such as journalists political commentators and people who consider themselves to be Nkrumaists and Pan Africanists

Language of Conflict Natalia Knoblock, 2020-06-11 Exploring the ways in which language and conflict are intertwined and interrelated this volume examines the patterns of public discourse in Ukraine and Russia since the beginning of the Ukrainian Crisis in 2014 It investigates the trends in language aggression evaluation persuasion and other elements of conflict communication related to the situation Through the analysis of the linguistic features of salient discourses and prevalent narratives constructed by different social groups Language of Conflict reflects competing worldviews of various stakeholders in this conflict and presents multiple often contradictory visions of the circumstances Contributors from Ukraine Russia and beyond investigate

discursive representations of the most important aspects of the crisis its causes and goals participants and the values and ideologies of the opposing factions They focus on categorization stance framing de legitimization manipulation and coping strategies while analysing the ways in which the stress produced by social discord economic hardship and violence shapes public discourse Primarily focusing on informal communication and material gathered from online sources the collection provides insight into the ways people directly affected by the crisis think about and respond to it The volume acknowledges the communicators active role in constructing the often incompatible discursive images of the conflict and concentrates on the conscious and strategic use of linguistic resources in negative and aggressive communication

Reconstituting the Body Politic Jonathan M. Hess, 1999 The concept that art must have no instrumental function is a doctrine traditionally traced back to Kant's Critique of Judgment In *Reconstituting the Body Politic* Jonathan Hess proposes that this concept of autonomous art marks not a withdrawal from the political realm but the ultimate embodiment of Enlightenment political culture a response to a crisis in the institution idealized by Jurgen Habermas as the bourgeois public sphere In *Reconstituting the Body Politic* Hess explores the moment in late eighteenth century Germany that witnessed the emergence of two concepts that marked the modern era the political concept of the public sphere and the doctrine of aesthetic autonomy By considering the extent to which at its very inception the concept of aesthetic autonomy is inextricably intertwined with the emergence of the concept of the public sphere he offers both a historical study of the political conditions that produced this concept and a contribution to contemporary literary and political theory Reading texts by Kant alongside the writings of contemporaries like Karl Philipp Moritz Hess examines a wide variety of eighteenth century texts discourses and institutions He then enters into a critical dialogue with Walter Benjamin Reinhart Koselleck and Jurgen Habermas to articulate a political critique of this aesthetic The aesthetic theory of Kant's Critique emerges not as a mere defense of the disinterestedness of aesthetic pleasure but as an engaged response to the political limitations of public culture during the Enlightenment Hess argues for an understanding of these concepts as functionally interdependent and he reflects on what this interdependence might mean for the practice of literary and cultural criticism today His work will interest not only Germanists and critical theorists but also art historians and historians of philosophy and political thought
