Reason & Violence. A Decade of Sartre's Philosophy, 1950-1960. [By] R.D. Laing, D.G. Cooper. With a Foreword by Jean-Paul Sartre Ronald David Laing, 1964 **Reason & Violence**, 1971 **Reason & Violence** Ronald David Laing, David Graham Cooper, 1964 *Terrorism* J. Angelo Corlett, 2003-10-31 This book is the culmination of over 15 years of research on terrorism secession and related concepts such as the obligation to obey the law pacifism civil disobedience non violent direct action political violence revolution and assassination It is sincerely hoped that the content of this book is construed as an ethical and philosophical attempt to advance human understanding of some of life's most intractable problems namely terrorism and more generally political violence This book is proffered as a propaedeutic to further study of these issues and is not to be interpreted as the author's final word on them For the pursuit of truth and avoidance of error is never wholly complete but at best a life long process of continual reflection analysis and argument And it will please the author of this book if it brings even a modicum of knowledge to the difficulties it investigates Some of the chapters of this book have been published or have otherwise experienced the critical assistance of various public academic forums and I am sincerely grateful to those who have shaped my thinking about terrorism and its related concepts Among those who have provided critical and helpful insights concerning various sections of the contents of this book are David Copp Richard Falk Joel Feinberg Richard W Miller and Thomas Pogge **Reason & Violence** Ronald David Laing, David Graham Cooper, 1971 Some discussion of homosexuality in the section on Sartre's Saint Genet Peter Thorslev *Reason and Violence* Ronald David Laing, D. G. Cooper, 1964 **A Democratic Enlightenment** Morton Schoolman, 2020-04-03 In *A Democratic Enlightenment* Morton Schoolman proposes aesthetic education through film as a way to redress the political violence inflicted on difference that society constructs as its racialized gendered Semitic and sexualized other Drawing on Voltaire Diderot and Schiller Schoolman reconstructs the genealogical history of what he calls the reconciliation image a visual model of a democratic ideal of reconciliation he then theorizes through Whitman's prose and poetry and Adorno's aesthetic theory Analyzing *The Help* 2011 and *Gentleman's Agreement* 1947 Schoolman shows how film produces a more advanced image of reconciliation than those originally created by modernist artworks Each film depicts violence toward racial and ethnic difference while also displaying a reconciliation image that aesthetically educates the public about how the violence of constructing difference as otherness can be overcome Mounting a democratic enlightenment the reconciliation image in film illuminates a possible politics for challenging the rise of nationalism's violence toward differences in all their diversity Freedom and Democracy in an Imperial Context Robert Nichols, Jakeet Singh, 2014-03-26 *Freedom and Democracy in an Imperial Context* Dialogues

with James Tully gathers leading thinkers from across the humanities and social sciences in a celebration of and critical engagement with the recent work of Canadian political philosopher James Tully. Over the past thirty years James Tully has made key contributions to some of the most pressing questions of our time including interventions in the history of moral and political thought, contemporary political philosophy, democracy, citizenship, imperialism, recognition, and cultural diversity. In 2008 he published *Public Philosophy in a New Key*, a two volume work that promises to be one of the most influential and important statements of legal and political thought in recent history. This work along with numerous other books and articles is foundational to a distinctive school of political thought influencing thinkers in fields as diverse as Anthropology, History, Indigenous Studies, Law, Philosophy, and Political Science. Critically engaging with James Tully's thought, the essays in this volume take up what is his central and ever more pressing question: how to enact democratic practices of freedom within and against historically sedimented and actually existing relationships of imperialism.

Perspectives on Nonviolence V.K. Kool, 2012-12-06. Paddock has referred to societies as anti violent that inhibit the expression of aggression. In his book *Violence and Aggression* KE Moyer has made a brief but interesting comparison of several violent and nonviolent cultures. Whereas studies of violence have ranged from genetic, cultural, to situation effects and have been pursued through empirical and nonempirical methods over the past several decades, nonviolence did not become a favorite area of study among social scientists. Although it is impossible to make a complete list of the various reasons for the lack of interest among social scientists on this subject, it is generally believed that a lack of understanding of the concept and a failure to either develop or apply adequate methods are to blame. Therefore, we are not surprised that nonviolence has remained by and large a favorite topic among religious thinkers and leaders only. A good example of how people have difficulty understanding the concept of nonviolence came to me when I delivered a lecture to a group of political science students several years ago. I experienced similar problems when I spoke to the history and political science professors. Subsequent dialogues with faculty members in other disciplines convinced me that our perspectives on nonviolence were not commonly clear to all of us, or course most of us did agree on one thing: that there is a distinct difference separating Eastern from Western views of nonviolence.

The Portable Hannah Arendt Hannah Arendt, 2003-07-29. A collection of writings by a groundbreaking political thinker including excerpts from *The Origins of Totalitarianism* and *Eichmann in Jerusalem*. She was a Jew born in Germany in the early twentieth century and she studied with the greatest German minds of her day: Martin Heidegger and Karl Jaspers among them. After the rise of the Nazis she emigrated to America where she proceeded to write some of the most searching and hard hitting reflections on the agonizing issues of the time: totalitarianism in both Nazi and Stalinist garb, Zionism, and the legacy of the Holocaust, federally mandated school desegregation and civil rights in the United States, and the nature of evil. *The Portable Hannah Arendt* offers substantial excerpts from the three works that ensured her international and enduring stature. *The Origins of Totalitarianism*, *The Human Condition*, and *Eichmann in Jerusalem*. Additionally, this volume includes several

other provocative essays as well as her correspondence with other influential figures *The kingdom of God is within you* graf Leo Tolstoy,1899 **The Novels and Other Works of Lyof N. Tolstoi** graf Leo Tolstoy,1911 Ireland's terrorist dilemma Yonah Alexander,Alan O'day,2024-08-19 **The Routledge Handbook of Pacifism and Nonviolence** Andrew Fiala,2018-02-02 Interest in pacifism an idea with a long history in philosophical thought and in several religious traditions is growing The Routledge Handbook of Pacifism and Nonviolence is the first comprehensive reference designed to introduce newcomers and researchers to the many varieties of pacifism and nonviolence to their history and philosophy and to pacifism s most serious critiques The volume offers 32 brand new chapters from the world s leading experts across a diverse range of fields who together provide a broad discussion of pacifism and nonviolence in connection with virtue ethics capital punishment animal ethics ecology queer theory and feminism among other areas This Handbook is divided into four sections 1 Historical and Tradition Specific Considerations 2 Conceptual and Moral Considerations 3 Social and Political Considerations and 4 Applications It concludes with an Afterword by James Lawson one of the icons of the nonviolent American Civil Rights movement The text will be invaluable to scholars and students as well as to activists and general readers interested in peace nonviolence and critical perspectives on war and violence **The Art of the Real** Roger Rothman,Ian Verstegen,2015-09-18 Art of the Real is devoted to registering the materialist turn of contemporary theory in visual studies For many years visual studies was dominated by post structuralist theory and its attendant nominalism More recently however the materialism of Slavoj i ek the realism of Gilles Deleuze especially as imputed by Manuel de Landa and Alain Badiou has disrupted this status quo Today we are more likely to take for granted the relevance of biology and the natural sciences while the return of Marx has been more serious than countenanced by Derrida or Foucault This book considers visual studies and the questions that have led to the new materialism its ontology and its relation to contemporary politics While a good deal of work has promoted a materialist agenda at the same time that scholars in art history and visual studies have felt liberated by the call to attend to objects materials and materiality no publication has yet treated this move for its meta theoretical commitments This volume does this by addressing the conditions that have brought about the turn to materiality the ontological commitments that follow on from new materialist metaphysics and the political implications wrought by these commitments A Practical Guide to the Coroner and His Duties at Inquests Edmond McMahon,1907 *The Dangerous Passion* David M. Buss,2000-02-14 Why do men and women cheat on each other How do men really feel when their partners have sex with other men What worries women more men who turn to other women for love or men who simply want sexual variety in their lives Can the jealousy husbands and wives experience over real or imagined infidelities be cured Should it be In this surprising and engaging exploration of men s and women s darker passions David Buss acclaimed author of *The Evolution of Desire* reveals that both men and women are actually designed for jealousy Drawing on experiments surveys and interviews conducted in thirty seven countries on six continents as well as insights from recent

discoveries in biology anthropology and psychology Buss discovers that the evolutionary origins of our sexual desires still shape our passions today According to Buss more men than women want to have sex with multiple partners Furthermore women who cheat on their husbands do so when they are most likely to conceive but have sex with their spouses when they are least likely to conceive These findings show that evolutionary tendencies to acquire better genes through different partners still lurk beneath modern sexual behavior To counteract these desires to stray and to strengthen the bonds between partners jealousy evolved as an early detection system of infidelity in the ancient and mysterious ritual of mating Buss takes us on a fascinating journey through many cultures from pre historic to the present to show the profound evolutionary effect jealousy has had on all of us Only with a healthy balance of jealousy and trust can we be certain of a mate s commitment devotion and true love

Politics of Postanarchism Saul Newman, 2010-03-24 What is the relevance of anarchist thought for politics and political theory today While many have dismissed anarchism in the past Saul Newman contends that anarchism s heretical critique of authority and its insistence on full equality and liberty places it at the forefront of the radical political imagination today With the unprecedented expansion of state power in the name of security the current crisis of capitalism and the terminal decline of Marxist and social democratic projects it is time to reconsider anarchism as a form of politics This book seeks to renew anarchist thought through the concept of postanarchism
