Judson, *The Rising Generation* Sarah L. H. Gronningsater, 2024-07-30 Chronicles the history of emancipation through the cradle to grave experiences of a remarkable generation of black northerners The Rising Generation chronicles the long history of emancipation in the United States through the cradle to grave experiences of a generation of black New Yorkers Born into precarious freedom after the American Revolution and reaching adulthood in the lead up to the Civil War this remarkable generation ultimately played an outsized role in political and legal conflicts over slavery's future influencing both the nation's path to the Civil War and changes to the US Constitution Through exhaustive research in archives across New York State where the largest enslaved population in the North resided at the time of the American Revolution Sarah L H Gronningsater begins by exploring how

English colonial laws shaped late eighteenth century gradual abolition acts that freed children born to enslaved mothers The boys and girls affected by these laws were born into a quasi free legal status They were technically not enslaved but were nonetheless required to labor as servants until they reached adulthood Parents teachers and mentors of these children of gradual abolition found multiple ways to protect and nurture the boys and girls in their midst They supported and founded schools formed ties with white lawyers and abolitionists petitioned local and state officials for better laws guarded against kidnapping and cruelty and shaped New York s evolving identity as a free state Black fathers used their votes during annual state elections in the early 1800s to influence legislative antislavery efforts After many but not all black men in the state were disfranchised by a race based property requirement in 1822 black citizens across New York organized to regain equal suffrage and to expand and protect other crucial non gendered features of state citizenship Women and children were critical participants in these efforts Gronningsater shows how as the children of gradual abolition reached adulthood they took the lessons of their youth into midcentury campaigns for legal equality political inclusion equitable common school education and the expansion of freedom across the nation

Gender, Women and the Indian Emergency, 1975-1977 Gemma Scott,2025-05-06 India s State of Emergency 1975 1977 is one of the most controversial moments in the country s history since independence During this infamous 21 month period Indira Gandhi s government suspended constitutional rights postponed elections censored the press and arrested opposition as well as instituting aggressive slum clearance and coercive sterilisation campaigns Over the last 20 years this period has received increasing scholarly attention But the role that women played in shaping Emergency politics their experiences of its repressive measures and their roles in resisting them have not been considered in this scholarship *Gender Women and the Indian Emergency 1975 1977* addresses this gap as the first major study of the role of women and gender in shaping these events Drawing on doctoral research and new data this book documents the many ways in which women and gender were integral to the regime s articulation and implementation It reveals new insights into women s experiences of Emergency measures and examines their participation in anti Emergency activism bringing previously untold histories to light In doing so it fundamentally re shapes our understandings of this period

Ebenezer Cobham Brewer, 1854 *Bound to Be Free* Reinhard Hutter, 2004-07-20 Bound to Be Free explores the scriptural concepts of church ekklesia freedom eleutheria and truthful speech parrhesia showing not only that the proper meanings of three concepts interpenetrate one another but also that rending them asunder lies at the root of Christian division today According to Reinhard Hutter the crucial interrelationship of these three concepts has long been obscured by ongoing church division Separated from each other many Christians assume that freedom can be maintained and truthful speech preserved only at the cost of unity Others assume that Christian unity can be attained only if freedom and truthful speech are narrowly circumscribed in their proper exercise Christian division issues from the all too familiar individualistic accounts of church freedom and speech that have haunted modernity and clouded the proclamation of the gospel This book shows that here at the beginning of the twenty first century it is imperative that Christians attend to this crucial interrelationship and its source in the God of the gospel Hutter discusses the meaning role and importance of each concept in turn engaging along the way a wide range of classical and contemporary voices in theology philosophy and culture that reveal in different ways how church freedom and truthful speech support one another Bound to Be Free is a groundbreaking work that challenges common approaches to ecumenism and points a fruitful new course ahead **National Interests in International Society** Martha Finnemore, 1996 How do states know what they want Asking how interests are defined and how changes in them are accommodated Martha Finnemore shows the fruitfulness of a constructivist approach to international politics She draws on insights from sociological institutionalism to develop a systemic approach to state interests and state behavior by investigating an international structure not of power but of meaning and social value An understanding of what states want she argues requires insight into the international social structure of which they are a part States are embedded in dense networks of transnational and international social relations that shape their perceptions and their preferences in consistent ways

Finnemore focuses on international organizations as one important component of social structure and investigates the ways in which they redefine state preferences. She details three examples in different issue areas. In state structure she discusses UNESCO and the changing international organization of science. In security she analyzes the role of the Red Cross and the acceptance of the Geneva Convention rules of war. Finally she focuses on the World Bank and explores the changing definitions of development in the Third World. Each case shows how international organizations socialize states to accept new political goals and new social values in ways that have lasting impact on the conduct of war, the workings of the international political economy and the structure of states themselves.

A Spiritual Canticle of the Soul and the Bridegroom Christ

St. John of the Cross, 2016-11-10. Claiming to be a literary interpretation, this poem of forty stanzas is loosely based on the Biblical book of Song of Songs. This story follows a bride that has been separated from her bridegroom and her search for him. If it is not obvious enough from the reading of the poem itself and St. John of the Cross's extensive explanation afterwards, the poem is a literary interpretation of Song of Songs but also of the soul's search for Jesus Christ.

Reasons and Intentions in Law and Practical Agency

George Pavlakos, Veronica Rodriguez-Blanco, 2015-02-05. This collection of new essays explores in depth how and why we act when we follow practical standards, particularly in connection with the authority of legal texts and lawmakers. The essays focus on the interplay of intentions and practical reasons, engaging incisive arguments to demonstrate both the close connection between them and the inadequacy of accounts that downplay this important link. Their wide-ranging discussion includes topics such as legal interpretation, the paradox of intention, the relation between moral and legal obligation, and legal realism. The volume will appeal to scholars and students of legal philosophy, moral philosophy, law, social science, cognitive psychology, and philosophy of action.
