Reasoning In Evaluation Inferential Links And Leaps:

Reasoning in Evaluation Deborah M. Fournier, 1995 Evaluators are in the business of reasoning their way toward legitimate conclusions that clients and other stakeholder groups can use In everyday practice evaluators collect and combine evidence to draw conclusions about something or someone Reasoning is the basis for what evaluators do and what they tell their clients to do But is the reasoning sound Evaluative conclusions are often sources of controversy and the inferences drawn from evidence always have potential loopholes for error In what ways can the conclusions resulting from evaluations be trusted How can evaluators reliably combine evidence from multiple sources into a final judgment about the merit or worth of something How and in what ways can evaluative conclusions be justified in an objective way similar to empirical conclusions Obtaining answers to these perennial questions facing evaluators in every evaluation is the field's greatest unmet challenge To stimulate debate and encourage more scholarship in this area the authors in this volume of *New Directions for Evaluation* grapple with some of the thorny problems of how to better understand the reasoning process that is used to establish evaluative conclusions The reader will leave this discussion thinking more clearly and critically about logical practice appreciating the central role of reasoning in the successful practice of evaluation and pondering the various avenues by which to contribute to future developments BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Program Evaluation Standards* Donald B. Brandon, 2008-01-01 Providing state of the art perspectives on what evaluation is its purpose and how to ensure it is done well this book brings together major evaluation researchers from a variety of social and behavioral science disciplines Each chapter identifies a fundamental issue facing the field today considers its implications for theory method practice or the profession and explores one or more approaches to dealing with the issue Among the topics addressed are the nature of expertise in evaluation how to build a better evidence base for evaluation theory promoting cultural competence in evaluation how to synthesize evaluation research findings ways to involve stakeholders in decision making and much more **Public Productivity Handbook** Marc Holzer, Seok-Hwan Lee, 2019-02-13 Anyone hoping to improve teamwork performance and budgeting training and evaluation programs in their organization should look no further Completely revised Public Productivity Handbook Second Edition defines the role of leadership dimensions of employee commitment and multiple employee organization based relationships for effective internal and external connections It s coverage of new and systematic management approaches and well defined measurement systems provides guidance on correct utilization of human resources that ensure improvements in productivity and performance The authors discuss such topics as citizen driven government and performance public sector values and productivity privatization and productivity barriers in the public sector Promoting Value in the Public Interest: Informing Policies for Judging Value in Evaluation George Julnes, 2012-04-10 Do you make evidence based decisions when designing

and conducting evaluations and use methods validated by experience Because of the growing importance of evidence based decision making for improving programs and policies this issue examines methods selection Which is better How can one be improved Are the results of the project worth the resources expended and how that leads to confidence in value based conclusions It presents a constructive dialogue on valuing in evaluation with the goal of developing a pragmatic approach for guiding method choice and for promoting methodology policies that support multiple approaches to valuation being employed in context appropriate ways so as to serve the public interest This is the 133rd volume of the Jossey Bass quarterly report series New Directions for Evaluation an official publication of the American Evaluation Association Tourism Management Arch G. Woodside,Drew Martin,2008 This book provides in depth empirical reports on specific topics within five general areas of tourism management and marketing 1 scanning and sense making 2 planning 3 implementing 4 evaluating actions process and performance outcomes and 5 administering Offering descriptions tools and examples of tourism management decision making the book is useful for students in tourism and management and for tourism executives It has 27 chapters and a subject index **Speaking Justice to Power** Kim Forss,2017-09-08 Efficiency economy and equity are policy goals pursued by governments around the world but analysts and evaluators have devoted more effort to measuring and evaluating the first two In Speaking Justice to Power contributors examine the concept of equity the role it plays and its application in policy evaluation Here some of the most valuable thinkers in the area of policy studies address key questions How should evaluators develop criteria for measuring equity as they analyze both program and policy implementation as well as their impacts What distinctions among people should be taken into account when measuring and valuing impacts What sorts of data should be used to analyze processes and impacts in different settings How might such data be validated The contributors employ grounded theory thinking as they translate key ethical principles into their work and draw important lessons from their experiences The work discusses equity in interventions addressing a variety of social and environmental problems This volume continues the fine tradition of Transaction s Comparative Policy Evaluation series **Dictionary Of Modern American Philosophers** John R. Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work

for scholars working on almost any aspect of modern American thought

Doing Qualitative Research in Social Work

Ian Shaw, Sally Holland, 2014-04-15 Bringing key developments and debates together in a single volume this book provides an authoritative guide for students and practitioners embarking on qualitative research in social work and related fields. Frequently illustrated with contemporary and classic case examples from the authors own empirical research and from international published work and with self directed learning tasks the book provides insight into the difficulties and complexities of carrying out research as well as sharing success stories from the field. Shaw and Holland have long experience of writing for practitioners and students and in making complex concepts accessible and readable making this an ideal text for those engaging in qualitative social work research at any level. Ian Shaw is a Professor of Social Work at the University of York and at the University of Aalborg. Sally Holland is a Reader in Social Work at the School of Social Sciences in Cardiff University.

Research and the Social Work Picture Shaw, Ian, 2019-09-11 There is a growing pressure for social workers to engage with research and draw on this in practice. But why is this research important? This first book in the Research in Social Work series published in association with the European Social Work Research Association provides an accessible way to think about this question. Drawing on evidence from across Europe, Asia and the USA it covers how research is conducted, used and perceived. It is perfect for social work students, researchers and practitioners providing a detailed sketch of how research finds a place in the wider social work picture and offering opportunities and exercises that highlight how social work research is relevant in day to day course programmes and practice. The book will embolden a kind of scepticism while at the same time providing the ground work for social workers to become more thoughtfully practical and practically thoughtful.

Social Work Theories and Methods Mel Gray, Stephen Webb, 2012-12-14 The second edition of this celebrated book by two of the world's leading researchers in social work introduces readers to the main theories, theorists and perspectives that contribute to the debate on social work theory and social work methods. It brings together some outstanding international researchers in social work to challenge the reader to critically question how they think about social work. The new edition includes a focus on the psychosocial perspective with three new chapters on Cognitive behavioural approaches, Attachment theory and psychoanalytic social work. Ecological approaches. Each chapter allows the reader to relate the theories and methods discussed to their own personal experiences. This reader friendly book includes student questions, glossaries and recommended reading so that students and practitioners can reappraise and expand the knowledge they have learned. This book will be valuable for undergraduate and postgraduate students taking courses in social work theory and research methods, social work interventions and perspectives as well as post qualifying students and researchers in social work.

Clinical Data-Mining Irwin Epstein, 2010 Clinical Data Mining (CDM) involves the conceptualization, extraction, analysis and interpretation of available clinical data for practice, knowledge building, clinical decision making and practitioner reflection. Depending upon the type of data mined CDM can be qualitative or quantitative. It

is generally retrospective but may be meaningfully combined with original data collection Any research method that relies on the contents of case records or information systems data inevitably has limitations but with proper safeguards these can be minimized Among CDM s strengths however are that it is unobtrusive inexpensive presents little risk to research subjects and is ethically compatible with practitioner value commitments When conducted by practitioners CDM yields conceptual as well as data driven insight into their own practice and program generated questions This pocket guide from a seasoned practice based researcher covers all the basics of conducting practitioner initiated CDM studies or CDM doctoral dissertations drawing extensively on published CDM studies and completed CDM dissertations from multiple social work settings in the United States Australia Israel Hong Kong and the United Kingdom In addition it describes consulting principles for researchers interested in forging collaborative university agency CDM partnerships making it a practical tool for novice practitioner researchers and veteran academic researchers alike As such this book is an exceptional guide both for professionals conducting practice based research as well as for social work faculty seeking an evidence informed approach to practice research integration

Mapping Environmental Sustainability Sue Oreszczyn, Andy Lane, 2017-09-06 While there is growing interest in participatory research to address issues around environmental sustainability the focus of analysis tends to be on the results or products of the research rather than the processes involved Addressing this gap the authors draw on their experience of specific mapping techniques based on different systemic concepts and theories that have helped facilitate explore and capture different understandings of the relationships perspectives and boundaries within situations involving environmental sustainability The development of visual mapping techniques is explained and practical case studies describe their application in environmental sustainability projects from working with farmers and their networks to using visual mapping with indigenous communities and managing coastal environments Each case study provides a real world project example from researchers with extensive experience of using these techniques to research different aspects of environmental sustainability over several decades
