Reasons For Living A Basic Ethics:

Reasons for Living Burton Frederick Porter, 1988 *The Good Life* Burton F. Porter, 2001 The Good Life contains an exposition and critique of the various ideals in living that have been advocated by major philosophers and schools of thought. In addition, the ethical problems of egoism, determinism, and relativism are explained and evaluated in both their classic Greek form and in the deconstruction of post modernism. The ideals that are discussed include hedonism as described by the Cyrenaics and Epicureans and the Utilitarianism of Bentham and Mill, the naturalistic ethic of the Stoics, the Transcendentalists, the evolutionists, and the back to nature movement, the biblical ethic of Judaism and Christianity as well as the Eastern religions of Confucianism and Buddhism and the Kantian ideal of duty and virtue ethics including feminist theory. To illuminate various conceptions of the good life, multiple examples are drawn from contemporary life including the abortion issue, racism, capital punishment, and multiculturalism. The Christian Way of Living Klaus Bockmuehl, 1994 *Ethics: Essential Readings in Moral Theory* George Sher, 2012-11-27 Annotation: *Ethics: Essential Readings in Moral Theory* is an outstanding anthology of the most important topics, theories, and debates in ethics compiled by one of the leading experts in the field. It includes sixty-six extracts covering the central domains of ethics: why be moral, the meaning of moral language, morality and objectivity, consequentialism, deontology, virtue and character, value and well-being, moral psychology, applications including abortion, famine relief, and consent. Included are both classical extracts from Plato, Aristotle, Hume, Kant, and Mill as well as contemporary classics from philosophers such as Thomas Nagel, Thomas Scanlon, Martha Nussbaum, Derek Parfit, and Peter Singer. A key feature of the anthology is that it covers the perennial topics in ethics as well as very recent ones such as moral psychology, responsibility, and experimental philosophy. Each section is introduced and placed in context by the editor, making this an ideal anthology for anyone studying ethics or ethical theory. **Reason, Morality, and Law** John Keown, Robert P. George, 2013-03-21 John Finnis is a pre-eminent legal, moral, and political philosopher. This volume contains over 25 essays by leading international scholars of philosophy and law who critically engage with issues at the heart of Finnis's work. **Reason and Ethics** Joel Marks, 2020-10-01 *Reason and Ethics* defends the theoretical claim that all values are subjective and the practical claim that human affairs can be conducted fruitfully in full awareness of this. Joel Marks goes beyond his previous work defending moral skepticism to question the existence of all objective values. This leads him to suggest a novel answer to the Companions in Guilt argument: that the denial of morality would mean relinquishing rationality as well. Marks disarms the argument by conceding the irreality of both morality and logic but is still able to rescue rationality while dispensing with morality on pragmatic grounds. He then offers a positive account of how life may be lived productively without recourse to attributions and assertions of right and wrong, good and bad, and even truth and falsity. Written in an accessible and engaging style, *Reason and Ethics* will be of interest to scholars and students working in metaethics as well as to the generally intellectually curious. The Reason of Reason Scott R.

Cherry,2020-07-09 This is a heartfelt study of reason and human rationality and other related things It s a meta study that personally fascinates this author Why are humans rational beings Why is there logic and other kinds of order Why is there intelligibility The self evident existence of reason logic and intelligibility are strong evidence for God Reason is an undeniable human faculty that defines humanness and points to a rational universe This in turn points to the principle of reason or the logos developed by Heraclitus and other Greek philosophers and later by the Apostle John Reason and its corollaries emerge like aspects of language and complement each other like speaking and listening Indeed mutual communication works because of reciprocity which is a root form of intelligibility This seems to be the structure or order which is best explained by a rational divine Mind that exists eternally in reciprocal complementarity This then is an exploration of the role of the Logos principle in the human experience and condition we often refer to as Reality It is an attempt to answer these four questions and others related to it Why do reason and logic work Why do we believe and trust in them Why do we expect things to make sense Why does anything make sense at all *Ethics* James P. Sterba,2009-02-24 As with the first edition Utilitarian Kantian and Aristotelian viewpoints are all well represented here and this second edition features updated sections throughout including eighteen new readings and an entirely new section on multiculturalism Presents students with a unique focus on three main challenges to ethics feminism environmentalism and multiculturalism Pedagogical focus on the big questions motivates student interest Collects readings on all key traditional theoretical and practical questions in ethics Weighing and Reasoning Iwao Hirose,Andrew Evan Reisner,2015 Fifteen essays offer a comprehensive evaluation of Broome s philosophical works over the past thirty years The first part focuses on Broome s work on the theory of value the second part on his work on practical and theoretical reasoning which culminated in his rationality through reasoning **Reason and Reverence** William R. Murry,2007
