Rebirth Of A Realist:

The First Great Political Realist Roger Boesche, 2003-01-01 The First Great Political Realist is a succinct and penetrating analysis of one of the ancient world's foremost political realists Kautilya Kautilya's treatise Arthashastra stands as one of the great political books of the ancient world its ideas on the science of politics strikingly similar to those of Thucydides Machiavelli Hobbes Clausewitz and even Sun Tsu Roger Boesche's excellent commentary on Kautilya's voluminous text draws out the essential realist arguments for modern political analysis and demonstrates the continued relevance of Kautilya's work to modern Indian strategic thinking and our understanding of the relationship between politics and economics Striking a balance between textual analysis and secondary scholarship Boesche's work will be an enduring contribution to the study of ancient Indian history Eastern political thought and international relations **Rebirth and the Stream of Life**

Mikel Burley, 2016-01-28 A philosophical exploration of the meaning diversity and ethical and religious significance of beliefs in reincarnation or rebirth *The History of Chinese Tomb Murals* Xiaoyang Wang, 2025-10-25 As one of the few monographs available on the history of Chinese tomb murals this book offers a comprehensive study Theoretically the authors put forward rebirth belief and state explicitly that Chinese tomb murals gain their theoretical support from rebirth belief which belongs to the Confucianism system In terms of historical resources they compile the first chronology of Chinese tomb murals including stone and brick reliefs offer an area index for tomb murals and conduct in depth and systematic discussions on Chinese tomb murals Furthermore Chinese tomb murals are studied from an aesthetic perspective to highlight the unique value of Chinese tomb art for both Eastern and Western art history The rich archaeological materials covered here are carefully scrutinized the arguments eloquently presented and the style used makes for accessible and enjoyable reading *Political Realism in Apocalyptic Times* Alison McQueen, 2018 From climate change to nuclear war to the rise of demagogic populists our world is shaped by doomsday expectations In this path breaking book Alison McQueen shows why three of history's greatest political realists feared apocalyptic politics Niccol Machiavelli in the midst of Italy's vicious power struggles Thomas Hobbes during England's bloody civil war and Hans Morgenthau at the dawn of the thermonuclear age all saw the temptation to prophesy the end of days Each engaged in subtle and surprising strategies to oppose apocalypticism from using its own rhetoric to neutralize its worst effects to insisting on a clear eyed tragic acceptance of the human condition Scholarly yet accessible this book is at once an ambitious contribution to the history of political thought and a work that speaks to our times **Realism** Arthur McDowall, 1918 **Christian Fiction and Religious Realism in the Novels of Dostoevsky** Wil van den Bercken, 2011-01-01 This study offers a literary analysis and theological evaluation of the Christian themes in the five great novels of Dostoevsky Crime and Punishment The Idiot The Adolescent The Devils and The Brothers Karamazov Dostoevsky's ambiguous treatment of religious issues in his literary works strongly differs from the slavophile Orthodoxy of his journalistic writings In the novels Dostoevsky deals with Christian basic values which are

presented via a unique tension between the fictionality of the Christian characters and the readers experience of the existential reality of their religious problems

A History of Buddhist Philosophy David J. Kalupahana, 1992-03-01 David J Kalupahana's Buddhist Philosophy A Historical Analysis has since its original publication in 1976 offered an unequalled introduction to the philosophical principles and historical development of Buddhism Now representing the culmination of Dr Kalupahana's thirty years of scholarly research and reflection A History of Buddhist Philosophy builds upon and surpasses that earlier work providing a completely reconstructed detailed analysis of both early and later Buddhism

Consumer Culture Reborn Martyn J. Lee, 2003-09-02 Consumer Culture Reborn focuses on consumption as the point at which economy and culture combine The book draws the often polarised discourses of political economy and cultural studies closer together in a historical context as a means of understanding our social situations as we approach the end of the millenium Taking as its central theme the ability of the capitalist mode of production to transform the material and social world which sustains it the book focuses on some of the ways in which this transformational impulse has altered the means by which ordinary people reproduce their life and their patterns of life Neither a history book nor simply a book of theory Consumer Culture Reborn fuses elements of economic social and cultural theory in an historical perspective

Corruption and Realism in Late Socialist China Jeffrey Kinkley, 2006-10-26 As China's centrally planned economy and welfare state have given way to a more loosely controlled version of late socialism public concern about economic reform's downside has found expression in epic novels about official corruption and its effects While the media shied away from dealing with these issues novelists stepped in to fill the void Anti corruption fiction exploded onto the marketplace and into public consciousness spawning popular films and television series until a clampdown after 2002 that ended China's first substantial realist fiction since the 1989 Beijing massacre With frankness and imagination seldom allowed journalists novelists have depicted the death of China's rust belt industries the gap between rich and poor social unrest i.e. riots and the questionable new practices of entrenched communist party rulers Corruption and Realism examines this rebirth of the Chinese political novel and its media adaptations explaining how the works reflect contemporary Chinese life and how they embody Chinese traditions of social criticism literary realism and contemplation of taboo subjects This is the first book to investigate such novels and includes excerpts from personal interviews with China's three most famous anticorruption novelists

Realist Ecstasy Lindsay V. Reckson, 2020-01-28 Honorable Mention Barnard Hewitt Award from the American Society for Theater Research Explores the intersection and history of American literary realism and the performance of spiritual and racial embodiment Recovering a series of ecstatic performances in late nineteenth and early twentieth century American realism Realist Ecstasy travels from camp meetings to Native American ghost dances to storefront church revivals to explore realism's relationship to spiritual experience In her approach to realism as both an unruly archive of performance and a wide ranging repertoire of media practices including literature photography audio recording and early film Lindsay V Reckson argues that the real was

repetitively enacted and reenacted through bodily practice Realist Ecstasy demonstrates how the realist imagining of possessed bodies helped construct and naturalize racial difference while excavating the complex shifting and dynamic possibilities embedded in ecstatic performance its production of new and immanent forms of being beside Across her readings of Stephen Crane James Weldon Johnson and Nella Larsen among others Reckson triangulates secularism realism and racial formation in the post Reconstruction moment Realist Ecstasy shows how post Reconstruction realist texts mobilized gestures especially the gestures associated with religious ecstasy to racialize secularism itself Reckson offers us a distinctly new vision of American realism as a performative practice a sustained account of how performance lives in and through literary archives and a rich sense of how closely secularization and racialization were linked in Jim Crow America

Realism's Others Eva Aldea,Geoffrey Baker,2010-07-12 For at least a century scholarship on realist narrative and occasional polemics against realist narrative have assumed that realism promotes the values of sameness against those of otherness and that it does so by use of a narrative mode that excludes certain epistemologies ideologies and ways of thinking However the truth is more complex than that as the essays in this volume all demonstrate Realism s Others examines the various strategies by which realist narratives create the idea of difference whether that difference is registered in terms of class ethnicity epistemology nationality or gender The authors in this collection examine in detail not just the fact of otherness in some canonical realist and canonical magical realist and postmodern novels but the actual means by which that otherness is established by the text These essays suggest that neither realist narrative nor narratives positioned as anti realist take otherness for granted rather the texts discussed here actively create difference and this creation of difference often occasions severe difficulties for the novels representational schema How does one represent different types of knowledge other aesthetic modes or other spaces for example in texts whose epistemology has long been seen as secular and empirical whose aesthetic mode has always been approached as pure descriptive mimesis and whose settings are largely domestic These essays all begin with a certain collision of nationalities of classes of representational matrices of religions and go on to chart the challenges that this collision presents to our ideas or stereotypes of realism or to the possibilities of writing against and beyond realism This question motivates examination of key realist or social realist texts in some of these essays by Honor de Balzac George Eliot Franz Grillparzer Theodor Storm Gottfried Keller Theodor Fontane Wilhelm Raabe Mar a Amparo Ruiz de Burton Henry James William Dean Howells Charles Chesnutt Theodore Dreiser H T Tsiang Alan Sillitoe and Richard Yates However it is no less central a question in certain non realist texts which engage realist aims to a surprising degree often to debate them openly some of these essays discuss in this light fantastic magical realist and postmodern works by Abram Tertz Paul Auster Alejo Carpentier Toni Morrison Gabriel Garc a M rquez Salman Rushdie and A S Byatt Realism becomes more than an aesthetic aim or narrative mode It becomes rather a value evoked and discussed by all of the works analyzed here in order to reveal its impact on fiction s treatment of ethnicity nationality ideology space

G. Jung**, 1978 *Classical Indian Metaphysics: Refutations of Realism and the Emergence of New Logic* Stephen H. Phillips, 1998-01-01 Our knowledge of the most ancient times in India rests mainly on tradition The Puranas the Mahabharata and in a minor degree of Ramayana profess to give accounts from tradition about the earliest occurrences The Rgveda contains historical allusions of which some record contemporary persons and events but more refer to bygone times and persons and are obviously based on tradition Almost all the information therefore comes from tradition The results obtained from an examination of Puranic and epic tradition as well as of the Rgveda and Vedic literature are set forth in the present book which happens to be a pioneering work in the area by an important orientalist of the nineteenth century Ordinary Enchantments Wendy B. Faris, 2004 Ordinary Enchantments investigates magical realism as the most important trend in contemporary international fiction defines its characteristics and narrative techniques and proposes a new theory to explain its significance In the most comprehensive critical treatment of this literary mode to date Wendy B Faris discusses a rich array of examples from magical realist novels around the world including the work not only of Latin American writers like Gabriel Garcia Marquez but also of authors like Salman Rushdie Gunter Grass Toni Morrison and Ben Okri Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary magical realism destabilizes the dominant form of realism based on empirical definitions of reality gives it visionary power and thus constitutes what might be called a remystification of narrative in the West Noting the radical narrative heterogeneity of magical realism the author compares its cultural role to that of traditional shamanic performance which joins the worlds of daily life and that of the spirits Because of that capacity to bridge different worlds magical realism has served as an effective decolonizing agent providing the ground for marginal voices submerged traditions and emergent literatures to develop and create masterpieces At the same time this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within In addition to describing what many consider to be the progressive cultural work of magical realism Faris also confronts the recent

accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity And finally drawing on the narrative innovations and cultural scenarios that magical realism enacts she extends those principles toward issues of gender and the possibility of a female element within magical realism

Postwar Literary Emergence Iris Calder, AI, 2025-05-06 Postwar Literary Emergence explores the profound impact of World War II and subsequent social upheaval on global literature It examines how writers navigated historical trauma and crafted new narrative forms to articulate previously unvoiced experiences The book reveals how literature became a tool for social critique political activism and personal healing in the face of unprecedented change The collection of essays analyzes the reinvention of realism the rise of experimental narratives and the exploration of identity in a fractured world For example the book addresses the resurgence of historical fiction as a means of confronting collective memory By examining literary collections and essays from Europe Latin America Asia and Africa the book demonstrates how writers grappled with legacies of war colonialism and injustice The book progresses across chapters by exploring different geographical areas and thematic concerns offering a scholarly yet accessible tone
