Class Struggle and the New Deal Rhonda F. Levine, 1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR's policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle **Armed Forces**, 1982

A Reference Guide for English Studies Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner's Literary Research Guide Modern Language Assn of America 1989 larger academic libraries will want Marcuse's volume Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal

Airpower and Technology David R. Mets, 2008-12-30 Is there a reason for the busy citizen leader to read about air and space history theory and doctrine Yes asserts David Mets because without some vision of what the future is likely to bring we enter new conflicts unarmed with any ideas and highly vulnerable to confusion and paralysis He wrote this book to help the aspirant American leader build a theory of war and air and space power including an understanding of what doctrine is and what its utility and limitations are Since its earliest days airpower has been one of the dominant forces used by the American military American airmen both Navy and Air Force have been continually striving to achieve precision strikes in high altitude at long range or in darkness The search for precision attack from standoff distances or altitudes has been imperative to national objectives with expenditure of American lives treasure and time This work covers the whole history of American aviation with special attention to the development of smart weapons and unmanned aerial vehicles and the

influence they have had on the effectiveness of airpower In a chronological treatment emphasizing theory and doctrine technology tactics and strategy Mets also details both combat experience and intellectual processes lethal and non lethal involved in the preparation of airpower In addition to the narrative discussion the work offers sidebars and feature sections that facilitate the understanding of key weapons systems and operational challenges It also offers A Dozen Book Sampler for Your Reading on Air and Space Theory and Doctrine The work concludes with a brief look at information warfare and with some speculations about the future Through this thorough consideration of the evolution of American airpower and technology Mets provides not only a map of the past but a guide to future generations of airpower and its potential for keeping the United States strong and safe

Ruling Passions Richard R. John,2010-11 This work was originally published as a special issue of Journal of Policy History vol 18 no 1 2006 T p verso ... *And the Pursuit of National Health* Jaap Kooijman,2023-10-09 Why is there no national health insurance in the United States of America This question became popular again when President Bill Clinton s Health Security Plan of 1993 proved to be a failure Throughout the twentieth century every attempt to enact a national health insurance program failed The majority of the working population is covered by private employer based health insurance the elderly and welfare poor by the government programs Medicare and Medicaid of 1965 while a growing number of Americans remain uninsured This study focuses on two important decisions that have shaped American health care policy the exclusion of national health insurance from the Social Security Act of 1935 and the shift of focus from a health insurance program for the working population to a hospital insurance program for the elderly and the welfare poor Based on presidential archives and the papers of social security policymakers this study examines the incremental strategy to achieve health insurance coverage for all Americans The result is a compelling history of political compromise that will be of interest to both the scholars of the welfare state and the scholars of American ideology and exceptionalism

Stalin and the Bomb David Holloway,1994-01-01 Stalin and the Bomb represents a comprehensive history of Soviet nuclear policy from developments in physics in the 1920s to the emergence of nuclear deterrence in the 1950s The author looks at how the bombs were built and the role that espionage played

Dean Acheson and the Obligations of Power Michael F. understandings with the Soviets and the communists in China than his memoirs claim his focus on the North Atlantic did not exclude his deep concern for Asian and the policy of containment was part of his wider belief that American power brought the obligation to promote a stable international order *Teaching U.S. History Through Children's Literature* Wanda Miller, 1998-11-15 Similar to U S History Through Children s Literature From the Colonial Period to World War II in format and approach historical fiction and nonfiction are integrated into modern U S History For each of these topics Miller suggests two or more titles one for use with the entire class and one for use with small reading groups Summaries of the books author information activities and topics for discussion are supplemented with vocabulary lists and ideas for research topics and further reading This integrated approach makes history more meaningful to students and helps them retain historical details and facts by immersing them in stories surrounding historical events A well researched and thorough resource **International Who's Who of Authors and Writers 2004** Europa Publications, 2003 Accurate and reliable biographical information essential to anyone interested in the world of literature The International Who s Who of Authors and Writers offers invaluable information on the personalities and organizations of the literary world including many up and coming writers as well as established names With over 8 000 entries this updated edition features Concise biographical information on novelists authors playwrights columnists journalists editors and critics Biographical details of established writers as well as those who have recently risen to prominence Entries detailing career works published literary awards and prizes membership and contact addresses where available An extensive listing of major international literary awards and prizes and winners of those prizes A directory of major literary organizations and literary agents A listing of members of the American Academy of Arts and Letters **Herbert Hoover Reassessed** , 1981 *Program* Organization of American Historians, 1985 *New York History* Alexander Clarence Flick, 1962 **The Puritans** Perry Miller, Thomas H.
