Receptions Of War Vietnam In American Culture:

Receptions of War Andrew Martin, 1994-03 *The My Lai Massacre in American History and Memory* Kendrick Oliver, 2006 This book examines the response of American society to the My Lai massacre and its ambiguous place in American national memory The author argues that the massacre revelations left many Americans untroubled It was only when the soldiers most immediately responsible came to be tried that opposition to the conflict grew for these prosecutions were regarded by supporters of the war as evidence that the national leaders no longer had the will to do what was necessary to win Victimhood in American Narratives of the War in Vietnam Aleksandra Musiał, 2020-03-02 This book revisits the American canon of novels memoirs and films about the war in Vietnam in order to reassess critically the centrality of the discourse of American victimization in the country's imagination of the conflict and to trace the strategies of representation that establish American soldiers and veterans as the most significant victims of the war By investigating in detail the imagery of the Vietnamese landscape recreated by American authors and directors the volume explores the proposition that Vietnam has been turned into an American myth demonstrating that the process resulted in a dehistoricization and mystification of the conflict that obscured its historical and political realities Against this background representations of the war's victims Vietnamese civilians and American soldiers are then considered in light of their ideological meanings and uses Ultimately the book seeks to demonstrate how in a relation of power the question of victimhood can become ideologized transforming into both a discourse and a strategy of representation and in doing so to demythologize something of the Vietnam of American cultural narrative **United States and Asia at War: A Cultural Approach** Philip West, Steven I. Levine, Jackie Hiltz, 2015-06-03 This text examines the Pacific War the Korean War and the Vietnam War from the perspective of those who fought the wars and lived through them The relationship between history and memory informs the book and each war is relocated in the historical and cultural experiences of Asian countries **War, Literature, and the Arts**, 1992 **The American War in Vietnam** John Marciano, 2016-08-01 On May 25 2012 President Obama announced that the United States would spend the next thirteen years through November 11 2025 commemorating the 50th Anniversary of the Vietnam War and the American soldiers more than 58 000 patriots who died in Vietnam The fact that at least 2 1 million Vietnamese soldiers parents grandparents children also died in that war will be largely unknown and entirely uncommemorated And U S history barely stops to record the millions of Vietnamese who lived on after being displaced tortured maimed raped or born with birth defects the result of devastating chemicals wreaked on the land by the U S military The reason for this appalling disconnect of consciousness lies in an unrelenting public relations campaign waged by top American politicians military leaders business people and scholars who have spent the last sixty years justifying the U S presence in Vietnam It is a campaign of patriotic conceit superbly chronicled by John Marciano in *The American War in Vietnam* Crime or Commemoration A devastating follow up to Marciano's 1979 classic *Teaching the Vietnam War* written

with William L Griffen Marciano's book seeks not to commemorate the Vietnam War but to stop the ongoing U S war on actual history Marciano reveals the grandiose flag waving that stems from the Noble Cause principle the notion that America is chosen by God to bring democracy to the world Marciano writes of the Noble Cause being invoked unsparingly by presidents from Jimmy Carter in his observation that regarding Vietnam the destruction was mutual to Barack Obama who continues the flow of romantic media propaganda The United States of America will remain the greatest force for freedom the world has ever known The result is critical writing and teaching at its best This book will find a home in classrooms where teachers seek to do more than repeat the trite glorifications of U S empire It will provide students everywhere with insights that can prepare them to change the world *The memory of catastrophe* Peter Gray, Kendrick Oliver, 2024-07-30 Investigates the dynamic relationship between experiences of profound social and cultural disruption and human memory Critical comparisons are made across a wide variety of catastrophic experiences and memories not just of war but also of massacre genocide rebellion famine partition shipwreck and fire The book is an accessible showcase for a wide range of methodological approaches to the study of memory including literary studies cultural studies participant observation and historical studies and uses a variety of oral visual and written sources Offers a diverse chronological and geographical range of catastrophic cases from seventeenth century England to the recent conflicts in the former Yugoslavia from Ireland to the Indian sub continent from Mexico to wartime Leningrad Well written and accessible a fascinating read Culture Wars Roger Chapman, 2010 Although openness and inclusion are cornerstones of life in the United States intolerance and reactionary politics are also very real As the nation prepares to elect a new president The Culture Wars addresses the key defining issues of contemporar The Wars We Took to Vietnam Milton J. Bates, 2023-09-01 What Americans refer to as the Vietnam War embraces much more than the conflict with North Vietnam Milton J Bates considers the other conflicts that Americans brought to that war the divisions stemming from differences in race class sex generation and frontier ideology In exploring the rich vein of writing and film that emerged from the Vietnam War era he strikingly illuminates how these stories reflect American social crises of the period Some material examined here is familiar including the work of Michael Herr Tim O'Brien Philip Caputo Susan Sontag Francis Ford Coppola and Oliver Stone Other material is less well known Neverlight by Donald Pfarrer and De Mojo Blues by A R Flowers for example Bates also draws upon an impressive range of secondary readings from Freud and Marx to Geertz and Jameson As the products of a culture in conflict Vietnam memoirs novels films plays and poems embody a range of political perspectives not only in their content but also in their structure and rhetoric In his final chapter Bates outlines a politico poetics of the war story as a genre Here he gives special attention to our motives from the deeply personal to the broadly cultural for telling war stories What Americans refer to as the Vietnam War embraces much more than the conflict with North Vietnam Milton J Bates considers the other conflicts that Americans brought to that war the divisions stemming from differences in race class sex generation The Scar That Binds Keith Beattie, 2000-07-01

At the height of the Vietnam War American society was so severely fragmented that it seemed that Americans may never again share common concerns The media and other commentators represented the impact of the war through a variety of rhetorical devices most notably the emotionally charged metaphor of the wound that will not heal References in various contexts to veterans attempts to find a voice and to bring the war home were also common Gradually an assured and resilient American self image and powerful impressions of cultural collectivity transformed the Vietnam war into a device for maintaining national unity Today the war is portrayed as a healed wound the once silenced veteran has found a voice and the American home has accommodated the effects of Vietnam The scar has healed binding Americans into a union that denies the divisions diversities and differences exposed by the war In this way America is now over Vietnam

In The Scar That Binds Keith Beattie examines the central metaphors of the Vietnam war and their manifestations in American culture and life Blending history and cultural criticism in a lucid style this provocative book discusses an ideology of unity that has emerged through widespread rhetorical and cultural references to the war A critique of this ideology reveals three dominant themes structured in a range of texts the wound the voice of the Vietnam veteran and home The analysis of each theme draws on a range of sources including film memoir poetry written and oral history journalism and political speeches In contrast to studies concerned with representations of the war as a combat experience **The Scar That Binds** opens and examines an unexplored critical space through a focus on the effects of the Vietnam War on American culture The result is a highly original and compelling interpretation of the development of an ideology of unity in our culture

America's Wars in Asia, Even though the cultural approach concerns itself with the local and the particular rather than with the abstract and universal it is inherently comparative Moreover it also relocates each war in the historical and cultural experiences of Asian countries themselves rather than seeing the war as merely a conflict between the United States and Asian nations *Veteran Narratives and the Collective Memory of the Vietnam War* John A. Wood, 2016-04-25 In the decades since the Vietnam War veteran memoirs have influenced Americans understanding of the conflict Yet few historians or literary scholars have scrutinized how the genre has shaped the nation's collective memory of the war and its aftermath Instead veterans accounts are mined for colorful quotes and then dropped from public discourse are accepted as factual sources with little attention to how memory no matter how authentic can diverge from events or are not contextualized in terms of the race gender or class of the narrators *Veteran Narratives and the Collective Memory of the Vietnam War* is a landmark study of the cultural heritage of the war in Vietnam as presented through the experience of its American participants Crossing disciplinary borders in ways rarely attempted by historians John A Wood unearths truths embedded in the memoirists treatments of combat the Vietnamese people race relations in the United States military male female relationships in the war zone and veterans postwar troubles He also examines the publishing industry's influence on

collective memory discussing for example the tendency of publishers and reviewers to privilege memoirs critical of the war
Veteran Narratives is a significant and original addition to the literature on Vietnam veterans and the conflict as a whole
