Reclaiming Morality In America:

Reclaiming Morality in America William P. Murchison, 1994 Murchison argues that a religious reawakening is needed to cure such problems as drug abuse violent crime and domestic violence **Get Off My Honor!** Hans Zeiger, 2005 A Boy Scout defends the honor of the stalwart organization from the cultural onslaught threatening it **My Concerns for America** Herbert W. Byrne, 2008-10 Since 1960 vast changes have taken place in our country During that period cultural changes were numerous some good and some bad This work refers to changes that give cause for grave concern including increase in crime child abuse abortion and disturbing developments in government all described and suggested solutions for them made Herbert W Byrne Ed D has worked in Christian ministry for over forty years serving as Pastor Evangelist classroom teacher and Sunday School lecturer in over thirty different denominations in the United States and Canada He is the author of more than twelve books in the field of Christian Education Why Conservatives Tell Stories and Liberals Don't David M Ricci, 2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public's attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford **Imagining America at War** Cynthia Weber, 2020-07-24 Ten films released between 9 11 and Gulf War II reflect raging debates about US foreign policy and what it means to be an American Tracing the portrayal of America in the films Pearl Harbor World War II We Were Soldiers and The Quiet American the Vietnam War Behind Enemy Lines Black Hawk Down and Kandahar episodes of humanitarian intervention Collateral Damage and In the Bedroom vengeance in response to loss Minority Report futurist pre-emptive justice and Fahrenheit 9 11 an explicit critique of Bush's entire war on terror Cynthia Weber presents a stimulating new study of how Americans construct their identity and the moral values that inform their foreign policy This is not just another book about post 9 11 America It introduces the concept of moral grammars of war and explains how they are articulated Many Americans asked in the wake of 9 11 not only why do they hate us but what does it mean to be a moral American and how might such an American act morally in contemporary international politics This text explores how these questions were answered at the intersections of official US foreign policy and post 9 11 popular films It also details US foreign policy formation in relation to traditional US narratives about US identity who we think we were are who we wish we'd never been

who we really are and who we might become as well as in relation to their foundations in nationalist discourses of gender and sexuality This book will be of great interest to students of American Studies US Foreign Policy Contemporary US History Cultural Studies Gender and Sexuality Studies and Film Studies **Reclaiming Teenage Morality** M. V. Willis,1993

Race and Ethnicity in America Russell M. Lawson,Benjamin A. Lawson,2019-10-11 Divided into four volumes Race and Ethnicity in America provides a complete overview of the history of racial and ethnic relations in America from pre contact to the present The five hundred years since Europeans made contact with the indigenous peoples of America have been dominated by racial and ethnic tensions During the colonial period from 1500 to 1776 slavery and servitude of whites blacks and Indians formed the foundation for race and ethnic relations After the American Revolution slavery labor inequalities and immigration led to racial and ethnic tensions after the Civil War labor inequalities immigration and the fight for civil rights dominated America s racial and ethnic experience From the 1960s to the present the unfulfilled promise of civil rights for all ethnic and racial groups in America has been the most important sociopolitical issue in America Race and Ethnicity in America tells this story of the fight for equality in America The first volume spans pre contact to the American Revolution the second the American Revolution to the Civil War the third Reconstruction to the Civil Rights Movement and the fourth the Civil Rights Movement to the present All volumes explore the culture society labor war and politics and cultural expressions of racial and ethnic groups **America's Education Deficit and the War on Youth** Henry A. Giroux,2013-04 America s latest war according to renowned social critic Henry Giroux is a war on youth While this may seem counterintuitive in our youth obsessed culture Giroux lays bare the grim reality of how our educational social and economic institutions continually fail young people Their systemic failure is the result of what Giroux identifies as four fundamentalisms market deregulation patriotic and religious fervor the instrumentalization of education and the militarization of society We see the consequences most plainly in the decaying education system schools are increasingly designed to churn out drone like future employees imbued with authoritarian values inured to violence and destined to serve the market And those are the lucky ones Young people who don t conform to cultural and economic discipline are left to navigate the neoliberal landscape on their own if they are black or brown they are likely to become ensnared by a harsh penal system Giroux sets his sights on the war on youth and takes it apart examining how a lack of access to quality education unemployment the repression of dissent a culture of violence and the discipline of the market work together to shape the dismal experiences of so many young people He urges critical educators to unite with students and workers in rebellion to form a new pedagogy and to build a new democratic society from the ground up Here is a book you won t soon forget and a call that grows more urgent by the day

America on the Cusp of God'S Grace Dennis G. Hurst,2010-11-12 America on the Cusp of Gods Grace issues a rousing call for true Bible believing patriots to save America by reverting back to the august principles of our Founding Fathers With simple straightforward language Dennis G Hurst digs deep into the ideas and beliefs upon which the Republic was founded and then juxtaposes them with the sobering reality of today Hurst provides a history of the beginning of America from its seventeenth century colonies based on religious freedom to the Revolutionary Wars stunning impact on the world and to the Constitutional Conventions innovative ideas Hurst shows how faith in God guided the Founders during every step of the process and compares and contrasts this history with the present state of American culture In addition he looks at the damaging effects of Islam on the United States and how it has brought about a decisive polarizing effect on ideologies today But Hurst doesnt stop with mere commentary and historical scholarship Instead he offers a blueprint for how God loving American citizens begin a revival in their country This includes a return to character leadership and integrity plus a steady focus on Christ True believers were this countrys founders true believers were its sustainers and true believers will be its rescuers even an America on the Cusp of Gods Grace Claiming America K. Wong,2011-02-07 A collection of essays that recovers the lives and experiences of individuals who staked their claim to Chinese American identity **From Darkness to Light** Berdj Kenadjian,2006 From Darkness to Light is the true story of how two little known men guided by unseen celestial forces confronted and overcame overwhelming obstacles to create a new understanding of the root causes of world disorder and its bitter fruit of widespread anxiety The Living Church ,1995 Reclaiming American Virtue Barbara J. Keys Keys,2014-02-17 The American commitment to promoting human rights abroad emerged in the 1970s as a surprising response to national trauma In this provocative history Barbara Keys situates this novel enthusiasm as a reaction to the profound challenge of the Vietnam War and its aftermath Instead of looking inward for renewal Americans on the right and the left looked outward for ways to restore America s moral leadership Conservatives took up the language of Soviet dissidents to resuscitate the Cold War while liberals sought to dissociate from brutally repressive allies like Chile and South Korea When Jimmy Carter in 1977 made human rights a central tenet of American foreign policy his administration struggled to reconcile these conflicting visions Yet liberals and conservatives both saw human rights as a way of moving from guilt to pride Less a critique of American power than a rehabilitation of it human rights functioned for Americans as a sleight of hand that occluded from view much of America s recent past and confined the lessons of Vietnam to narrow parameters From world s judge to world s policeman was a small step and American intervention in the name of human rights would be a cause both liberals and conservatives could embrace **Spiral Dynamics** Prof. Don Edward Beck,Christopher C. Cowan,2014-12-05 Spiral Dynamics introduces a new model for plotting the enormous economic and commercial shifts that are making contemporary business practice so complex and apparently fragmented Focusing on cutting edge leadership management systems processes procedures and techniques the authors synthesize changes such as Increasing cultural

diversity Powerful new social responsibility initiatives The arrival of a truly global marketplace This is an inspiring book for managers consultants strategists and leaders planning for success in the business world in the 21st century **Idealism**

and Christian Theology Joshua R. Farris, S. Mark Hamilton, James S. Spiegel, 2016-02-25 In the recent history of philosophy few works have appeared which favorably portray Idealism as a plausible philosophical view of the world Considerably less has been written about Idealism as a viable framework for doing theology While the most recent and significant works on Idealism composed by the late John Foster Case for Idealism and A World for Us The Case for Phenomenological Idealism have put this theory back on the philosophical map no such attempt has been made to re introduce Idealism to contemporary Christian theology Idealism and Christian Theology is such a work retrieving ideas and arguments from its most significant modern exponents especially George Berkeley and Jonathan Edwards in order to assess its value for present and future theological construction As a piece of constructive philosophical theology itself this volume considers the explanatory power an Idealist ontology has for contemporary Christian theology **Historical Dictionary of Ethics** Daniel

Bonevac, 2023-10-15 Ethics the practical part of philosophy tries to answer three questions central to human life What kind of person should I be What should I do How should I decide It defines describes and explains the important terms concepts theories and thinkers from all areas and eras of the history of ethics from Abba Mika el to Zhuangzi from the Abilene Paradox to Zen Buddhism including such central figures as Aristotle Hegel Kant and Plato as well as lesser known thinkers such as Clarke Fichte Meinong and Xenophon It covers Western and non Western traditions and presents detailed treatments of ancient and medieval ethics including discussions of each of Plato's dialogues that concerns ethical topics It covers both analytic and continental approaches to contemporary moral thinking Historical Dictionary of Ethics Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on the important terms concepts theories and thinkers from all areas and eras of the history of ethics This book is an excellent resource for students researchers and anyone wanting to know more about ethics Searching the Soul of the

College and University in America Stephen J. Nelson, 2023-10-30 This is a story of religious and democratic covenants and controversies in the foundations of the American nation and in the soul of its colleges and universities Its powers are religion and politics in America the creeds and convictions constituting the beliefs and theologies of citizens and religious people Critically overlapping and entangled democratic beliefs and convictions distinctly define the American body politic and are in the foundation of the nation and its colleges and universities In that story an unmistakable feature and idea is that the religion of the Republic in America is intertwined with and parallel to a symbiotic religion of the academy in its colleges and universities The nation and its colleges share the same space history and religious and democratic heralds and heroes Democratic and political theories and philosophies and competing and cooperating religious faiths and impulses have been reflected both the Republic and in battles waged about the essential nature of the American nation and its colleges and

universities These traits constitute how America its public and its citizens in and outside the gates of the academy have wrestled with the aspirations and ideals that define civic duty the commons and the common good *Clinical Trials in Latin America: Where Ethics and Business Clash* Nuria Homedes, Antonio Ugalde, 2013-11-29 The outsourcing of clinical trials to Latin America by the transnational innovative pharmaceutical industry began about twenty years ago Using archival information and field work in Argentina Brazil Costa Rica Mexico and Peru the authors discuss the regulatory contexts and the ethical dimensions of human experimentation in the region More than 80% of all clinical trials in the region take place in these countries and the European Medicines Agency has defined them as priority countries in Latin America The authors raise questions about the quality of data obtained from the trials and the violation of human rights during their implementation Their findings are presented in this volume the first in depth analysis of clinical trials in the region
