Asian Translation Traditions Eva Tsoi Hung Hung, Judy Wakabayashi, 2014-07-16 Translation Studies one of the fastest developing fields in the humanities since the early 1980s has so far been Euro centric both in its theoretical explorations and in its historical grounding One of the major reasons for this is the unavailability of reliable data and systematic analysis of translation activities in non European cultures While a number of scholars in the Western tradition of translation studies have become increasingly aware of this bias and its problems practically indicates that the burden of addressing such deficiencies and imbalances should be on the shoulders of scholars who are conversant with the non Western translation traditions and capable of engaging in much needed basic research This book brings together eleven scholars with expertise in different Asian translation traditions who highlight language and cultural environments as well as perceptions and modes of operation often different from those in the Western tradition Their contributions enhance our understanding of the various elements that influence the transfer of knowledge across cultures and provide invaluable data for the study of translation as a force for cultural development and cultural planning

Contributors include Eva Hung Judy Wakabayashi Lawrence Wong Yoshihiro Osawa Teresa Hyun Keith Taylor Rita Kothari Doris Jedamski Raniela Barbaza and Bill Cummings

Westerners in Chinese and Japanese Literature ,2021-12-28 The present volume is the product of a joint effort made by scholars from across China including Hong Kong Japan and Europe The book gathers sixteen papers devoted to literary and cultural criticism from a comparative point of view A perspective prominent in this volume is imagology an approach first developed by Daniel Henry Pageaux and which focuses on specific images in literary and other texts The study of the image of the foreign in national literary traditions for instance belongs to the traditional purview of comparative literature Pageaux did more than uphold this tradition He practically reinvented it using new theoretical concepts and perspectives in particular semiotics and reception aesthetics On this basis he was able to develop a theory and a methodology that are both usable and in tune with contemporary concerns The present book covers a wide range of topics in the study of images of Westerners in Chinese and Japanese literature Individual contributions deal with issues such as the genesis of the Chinese term Foreign Devil the occurrence of Westerners in modern Chinese and Japanese literature and the Chinese and Japanese reception of individual western authors and artists such as amongst others Oscar Wilde Vincent Van Gogh and Madame Roland Some papers examine individual authors such as Lu Xun and Takeyama Michio Others examine historical periods or literary movements The approaches followed range from historical investigations of linguistic practices to detailed literary analyses

Intercultural Explorations ,2021-11-01 Divided into four sections Asian Western Intersections Intercultural Memory Intercultural Perspectives on Women Genre Studies and The Intercultural Arts these essays from diverse hands and multiple perspectives illuminate the intersections the cross sections and the synergies that characterize significant literary texts and artistic productions Individually they exemplify the insights available in an intercultural perspective together they remind us that no culture even those that claim to be pure or those that might be regarded as isolated has escaped the influence of external influences As a result this volume is doubly synergistic one because it focuses on intercultural phenomena within a specific culture and two because they represent multiple perspectives on these phenomena
