Recreational Terror:

Recreational Terror Isabel Cristina Pinedo,1997-01-01 In *Recreational Terror* Isabel Cristina Pinedo analyzes how the contemporary horror film produces recreational terror as a pleasurable encounter with violence and danger for female spectators She challenges the conventional wisdom that violent horror films can only degrade women and incite violence and contends instead that the contemporary horror film speaks to the cultural need to express rage and terror in the midst of social upheaval *The Horror Film* Stephen Prince,2004 Focusing on recent postmodern examples this is a collection of essays reviewing the history of the horror film and the psychological reasons for its persistent appeal **Genre and Contemporary Hollywood** Steve Neale,2019-07-25 This wide ranging text is one of the first to look in detail at some of the principal genres cycles and trends in Hollywood s output during the last two decades It includes analysis of such films as *Sense and Sensibility* *Grifters* *The Mask* *When Harry Met Sally* *Pocahontas* *Titanic* *Basic Instinct* *Coppola s Dracula* and *Malcolm X* **Post-9/11 Horror in American Cinema** Kevin J. Wetmore,2012-03-22 Examines how horror cinema has changed as a result of 9 11 and conversely how horror films construct and give meaning to 9 11 [The Oxford Handbook of Black Horror Film](#) Robin R. Means Coleman,Novotny Lawrence,2024 Since the release of Jordan Peele s Academy Award winning horror hit *Get Out* 2017 interest in Black horror films has erupted *The Oxford Handbook of Black Horror Film* presents expansive scholarship about Blackness expanding the ways in which researchers critics and fans see and make meaning of Black experiences *The Turn to Gruesomeness in American Horror Films, 1931-1936* Jon Towlson,2016-09-12 Critics have traditionally characterized classic horror by its use of shadow and suggestion Yet the graphic nature of early 1930s films only came to light in the home video DVD era Along with gangster movies and sex pictures horror films drew audiences during the Great Depression with sensational content Exploiting a loophole in the Hays Code which made no provision for on screen gruesomeness studios produced remarkably explicit films that were recut when the Code was more rigidly enforced from 1934 This led to a modern misperception that classic horror was intended to be safe and reassuring to audiences The author examines the 1931 to 1936 happy ending horror in relation to industry practices and censorship Early works like *Murders in the Rue Morgue* 1932 and *The Raven* 1935 may be more akin to *The Texas Chain Saw Massacre* 1974 and *Hostel* 2005 than many critics believe *The Evolution of Pragmatic Markers in English* Laurel J. Brinton,2017-08-31 Based on a rich set of historical data this book traces the development of pragmatic markers in English from hw t in Old English and whilom in Middle English to whatever and I m just saying in present day English Laurel J Brinton carefully maps the syntactic origins and development of these forms and critically examines postulated unilineal pathways such as from adverb to conjunction to discourse marker or from main clause to parenthetical The book sets case studies within a larger examination of the development of pragmatic markers as instances of grammaticalization or pragmaticalization The characteristics of pragmatic markers as primarily oral syntactically optional sentence external grammatically indeterminate

elements are revised in the context of scholarship on pragmatic markers over the last thirty or more years *Misfit Sisters* S. Short, 2006-10-31 This timely study breaks new ground in exploring how recent film and television horror texts articulate a female rite of passage updating the cautionary concerns found in fairy tales of the past particularly in warning against predatory men treacherous females and unhappy family situations *Possessed Women, Haunted States* Christopher J. Olson, Carrie Lynn D. Reinhard, 2016-11-02 Since the release of *The Exorcist* in 1973 there has been a surge of movies depicting young women becoming possessed by a demonic force that only male religious figures can exorcise thereby saving the women from eventual damnation This book considers this history of exorcism cinema by analyzing how the traditional exorcism narrative established in *The Exorcist* recurs across the exorcism subgenre to represent the effects of demonic possession and ritual exorcism This traditional exorcism narrative often functions as the central plot of the exorcism film with only the rare film deviating from this structure The analysis presented in this book considers how exorcism films reflect reinforce or challenge this traditional exorcism narrative Using various cultural and critical theories this book examines how representations of possession and exorcism reflect reinforce or challenge prevailing social cultural and historical views of women minorities and homosexuals In particular exorcism films appear to explore tensions or fears regarding empowered and sexually active women and frequently reinforce the belief that such individuals need to be subjugated and disempowered so that they no longer pose a threat to those around them Even more recent films produced after the emergence of third wave feminism typically reflect this concern about women Very rarely do exorcism films present empowered women and feminine sexuality as non threatening In examining this subgenre of horror films this book looks at films that have not received much critical scrutiny regarding the messages they contain and how they relate to and comment upon the historical periods in which they were produced and initially received Given the results of this analysis this book concludes on the necessity to examine how possession and exorcism are portrayed in popular culture **Public Privates** Marcia R. England, 2018-05 *Public Privates* focuses on public and private acts and spaces in media to explore the formation of geographies Situated at the intersections of cultural geography feminist geography and media studies Marcia R England's study argues that media both reinforce and subvert traditional notions of public and private spaces through depiction of behaviors and actions within those spheres Though popular media contribute to the erosion of indistinct edges between spaces they also frequently reinforce the traditional dualism through particular codings that designate the normed and gendered socio spatial actions appropriate in each sphere producing geographical imaginations and behaviors England applies her immensely readable construction to a diverse and wide ranging array of media including *Buffy the Vampire Slayer* *The Fast and the Furious* *J Horror* sitcoms *Degrassi* and reality TV By examining the gendered representations of public and private spaces in media and how images influence imagined and lived geographies England shows how popular culture specifically visual media transmits ideologies that disintegrate the already blurred boundaries between public and

private spaces
