Red Kangaroo:

Red Kangaroo Natalie Lunis, 2010-01-01 Describes the natural habitat physical characteristics diet life cycle and behavior of the red kangaroo the world's largest marsupial **Kangaroos** Terence J. Dawson, 1995 In this the only up to date accessible and scientifically based book on Australia's principal icon internationally known kangaroo researcher Terry Dawson gets to the heart of what makes these animals special He shows how many features of their biology such as their reproductive patterns social structure and locomotor characteristics confer great advantages in their adaptations to Australia's harsh climate and demanding environment Besides covering widely the biology ecology and behaviour of the ten different types of kangaroos Professor Dawson compares European and Aboriginal cultural attitudes towards them He explores such issues as hunting habits conservation kangaroos as agricultural pests the economics of kangaroo ranching and the use of their products **Red Kangaroo** Edana Eckart, 2003 This emergent reader series introduces children to different animals from all around the world Readers will explore each animal's habitat learn about their eating habits and discover other fascinating facts

The Red Kangaroo in Central Australia Alan Newsome, Thomas Newsome, 2016 The red kangaroo is at the heart of Australia's ecological identity It is Australia's largest terrestrial land mammal the largest extant marsupial and the only kangaroo truly restricted to Australia's arid interior Almost nothing was known about the ecology of the red kangaroo when a young Alan Newsome began to study it in 1957 He discovered how droughts affect reproduction why red kangaroos favor different habitats during droughts from those after rains and that unprecedented explosions in red kangaroo numbers were caused by changes to the landscape wrought by graziers Most importantly he realized the possibilities of enriching western science with Indigenous knowledge a feat recognized today as one of the greatest achievements of his career First drafted in 1975 and now revised and prepared for publication by his son *The Red Kangaroo in Central Australia* captures Alan's thoughts as a young ecologist working in Central Australia in the 1950s and 1960s It will inspire a new generation of scientists to explore Australia's vast interior and study the extraordinary adaptations of its endemic mammals It will also appeal to readers of other classics of Australian natural history such as Francis Ratcliffe's *Flying Fox and Drifting Sand* and Harry Frith's *The Mallee Fowl The Bird that Builds an Incubator* Features Provides an in depth look at one of Australia's most iconic land mammals and the wonder of red kangaroo biology Details working life in Central Australia during the 1950s and 1960s along with the unique link that Alan established with Australia's Indigenous Aranda people A rare insight into the experience of scientific discovery especially in the unforgiving environment of Central Australia **Red**
