

Regime Theory in the Post-Cold War World: Rethinking Neoliberal Approaches to International Relations

Crawford, Robert M. A.

Regime Theory In The Postcold War World Rethinking Neoliberal Approaches To International Relations

Jennifer Sterling-Folker

Regime Theory In The Postcold War World Rethinking Neoliberal Approaches To International Relations:

Regime Theory in the Post-Cold War World Robert M. A. Crawford, 1996 This book explores theoretical accounts of the evolution of cooperation in international political economic relations focussing on the dominant approach of international regimes principles norms rules and decision making procedures around which actors expectations converge The author exposes serious weaknesses in mainstream neoliberal applications of the regime concept and suggests that use of the concept precludes examination of political considerations and structural characteristics that might better account for cooperative dynamics in the modern era and their potential trajectory in the Post cold War World **Russian Foreign**

Policy and International Relations Theory Christer Pursiainen, 2017-07-05 An original and challenging examination of how to transform post Sovietological study of Soviet and Russian foreign policy into a more integrated part of the Social Sciences and International Relations Theory This book represents the first detailed and sustained synthesis international relations theory and Soviet Russian foreign and security policy in academic literature *Kalevi Holsti: A Pioneer in International Relations Theory, Foreign Policy Analysis, History of International Order, and Security Studies* Kalevi Holsti, 2016-01-28 In honour of Prof Kalevi Holsti's 80th birthday this collection presents 15 of the renowned Political Scientist's major essays and research projects It also offers a collection of his writings and essays on theories of international relations foreign policy analysis security and the world order These previously published works address issues that remain hot topics on the international agenda such as the changing nature of warfare and the causes of failed states major essays also evaluate the current search for international order Prof Holsti is the author of a major textbook that has been translated into Mandarin Korean Japanese and Bahasa Indonesian Thousands of undergraduates around the world are acquainted with his work *Theories of International Cooperation and the Primacy of Anarchy* Jennifer Sterling-Folker, 2012-02-01

Challenging the standard liberal explanations for international cooperation in the field of international relations this book contends that despite numerous efforts and the passage of time our understanding of the cooperative phenomenon remains woefully inadequate Sterling Folker argues that widespread explanatory reliance on what constitutes functionally efficient choices in global interdependence is deductively illogical and empirically unsound The author's approach for explaining international cooperation is comprised of realist and constructivist insights and places the state rather than the market at the center of analysis A thorough examination of Post Bretton Woods American monetary policy making reveals the fundamental flaws of traditional explanations and the superiority of a realist constructivist alternative to the cooperative phenomenon

International Relations: The Key Concepts Steven C. Roach, Martin Griffiths, Terry O'Callaghan, 2014-02-03 To attempt such a difficult task requires ambition confidence and skill All three qualities are evident in this impressive reference book It deserves a prominent place in all International Relations libraries Dr Scott Burchill In Australian Journal of Political Science 43 4 747 766 Now in its third edition International Relations The Key Concepts remains an important resource for anyone

interested in international politics Comprehensive and relevant it has been fully revised to reflect the most important themes and issues in international relations in the post 9 11 era Featuring new entries on The Arab Spring Responsibility to Protect Governmentality Postcolonialism Neoliberalism Global Financial Crisis With suggestions for further reading and a useful guide to websites International Relations The Key Concepts is an ideal aid for students and newcomers to the field of International Relations Fifty Key Thinkers in International Relations Martin Griffiths,2013-03-07 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **International Relations** Steven C. Roach,Alexander D. Barder,2023-09-29 Featuring 16 new entries International Relations The Key Concepts now in its fourth edition is the essential guide for anyone interested in international affairs Comprehensive and up to date it introduces the most important themes in international relations New entries include the following Anthropocene Authoritarian populism Borders Brexit Dignity Hierarchy Intersectionality Pandemic Postmodern warfare Race war Resilience Featuring suggestions for further reading as well as a unique guide to websites on international relations this accessible guide is an invaluable aid to an understanding of this expanding field ideal for student and non specialist alike It will serve as a vital reference text for undergraduate IR courses **International Relations** Martin Griffiths,Terry O'Callaghan,Steven C. Roach,2008 Featuring over twenty new entries International Relations The Key Concepts now in its second edition is the essential guide for anyone interested in international affairs Comprehensive and up to date it introduces the most important themes in international relations in the post 9 11 era Key areas cover international criminal law human rights the developing world the Arab League African Union globalization and strategic studies New entries include the English School the Digital Divide the War on Terror the Bush Doctrine the International Criminal Court legitimacy global warming unilateralism the Organization of Petroleum Exporting Countries OPEC Featuring suggestions for further reading as well as a unique guide to web sites on international relations this accessible guide is an invaluable aid to an understanding of this expanding field and is ideal for the student and non specialist alike **The Emergent Global Information Policy Regime** S. Braman,2004-01-20 There is a struggle over governance of the global information network among national governments and international organizations corporations and NGOs elites and civil society The outcome will determine how we communicate the extent of our civil liberties and human rights the profitability of e commerce and the richness of cultural expression This collection looks at the processes by which the global information policy regime is being formed themselves in conflict as a foundation for understanding its emergent features **Handbook of International Relations** Walter Carlsnaes,Thomas Risse,Beth A Simmons,2012-09-18 The original Handbook of International Relations was the first authoritative and comprehensive survey of the field of international relations In this eagerly awaited new edition the Editors have once again drawn together a team of the world s leading scholars of international relations to provide a state of the art review and indispensable guide to the field ensuring its position as the pre eminent volume of its kind The Second Edition has been expanded to 33 chapters and fully revised with

new chapters on the following contemporary topics Normative Theory in IR Critical Theories and Poststructuralism Efforts at Theoretical Synthesis in IR Possibilities and Limits International Law and International Relations Transnational Diffusion Norms Ideas and Policies Comparative Regionalism Nationalism and Ethnicity Geopolitics in the 21st Century Terrorism and International Relations Religion and International Politics International Migration A truly international undertaking this Handbook reviews the many historical philosophical analytical and normative roots to the discipline and covers the key contemporary topics of research and debate today The Handbook of International Relations remains an essential benchmark publication for all advanced undergraduates graduate students and academics in politics and international relations

Stability And Change in the Law of the Sea Alex G. Oude Elferink, 2005 This work looks at topics which can contribute to an understanding of how the Convention has been adapted to newly arising issues and how further adaptation may be achieved in the future without a readjustment of the basic legal framework contained in the Convention *International Relations--Still an American Social Science?* Robert M.A. Crawford, Darryl S.L. Jarvis, 2001-01-01 Challenges the parochialism and Americanization of the field of International Relations **The Law of Investment Treaties** Jeswald W. Salacuse, 2021 In this new edition of an authoritative work in the field Jeswald W Salacuse thoroughly examines the law of international investment treaties particularly with respect to its origins structure content and effects He takes into account all major developments in the law to provide an up to date guide for students scholars and practitioners **The Onset of Global Governance** Eric K. Leonard, 2017-03-02 Assessing the formation process of the International Criminal Court ICC this study provides a fuller and richer understanding of this institution It does so by adopting three analytical approaches neoliberal institutionalism regime theory and global governance Examining the implications of the ICC the volume draws conclusions about the changing nature of world politics in terms of conflict management authority governance and actor relevance It is highly suitable for courses and research in humanitarian and international law international relations theory globalization global governance and regime formation *Global Environmental Governance* Louis J. Kotzé, 2012-01-01 This book is a novel sophisticated broad ranging and insightful study of the idea of global environmental governance but from a legal dimension and perspective While recognising that concepts and ideas used to describe governance are generally abstract vague and slippery this project brings clarity to the field by being theoretically informed contextually sensitive and pragmatically circumscribed Its conclusions and arguments open up a field of inquiry that has to be genuinely interdisciplinary and in that sense has great potential to contribute to a better understanding of environmental themes and issues This book is destined to become a landmark for legal academics who will write about environmental governance in that its concern is with the global governance of nature rather than a text that uses the environment as a pretext for understanding governance It is well written easy and enjoyable to read and while it traverses through diverse bodies of literature it manages to effectively communicate with a variety of scholarly communities Afshin Akhtarkhavari Griffith Law

School Australia Fourth generation global environmental regulation attempts to address the complex realities of an interconnected environment global environmental problems and collective regulatory responses It merits conceptual clarity Louis Kotz reveals the legal contours and content of global environmental governance by chipping away such parts of the conceptual marble block as are not needed For the environmental lawyer it is a welcome and much needed process of elimination This book provides a toolkit for lawyers to engage critically with the extra legal concept of environmental governance Its scrutiny and careful analysis contribute meaningfully to the environmental discourse Christine Voigt University of Oslo Norway Global Environmental Governance is a truly important book Drawing on a multitude of disciplines award winning environmental law Professor Louis Kotz masterfully explains the emerging concept of global environmental governance and its elements of globalism environmental law regulation and governance theory He makes a compelling case that the world has outgrown the sustainability model and moved toward this more all encompassing approach to environmental regulation This admirable book makes global environmental governance theory understandable and pertinent so environmental leaders lawyers and regulators can engage comfortably with this new vision for an ecologically and economically healthy world George Rock Pring University of Denver Sturm College of Law US This book in examining the relationship between global environmental governance and environmental law provides an important and timely contribution to the quest to fashion a more viable approach to regulating the relationship between humanity and the environment While the term governance is much employed in international environmental law scholarship its conceptual underpinnings have not on the whole been adequately addressed in the legal sphere and understanding of the symbiotic relationship between the two areas has suffered as a result This book makes a welcome start to tackling these issues and it is to be hoped will trigger renewed vigour in this socially and legally vital area of inquiry Karen Morrow University of Swansea Wales UK For years scholars of international law and international relations have developed parallel literatures In Global Environmental Governance Louis Kotz offers a common conceptual theoretical and normative ground in the global environmental field As a skillful lawyer he dissects terminology explains core assumptions and constructs causal chains But he does not stop there His shrewd analysis of power and authority individual incentives and collective action management and regulation builds a bridge between law and politics as disciplines concerned about what global environmental governance is and how it can be improved Maria Ivanova University of Massachusetts US In search of shelter from the buffeting blasts of climate change biodiversity loss resource depletion famine and disease states and public agencies community representatives resource users advocacy networks and citizens huddle together under the vast and varied institutional umbrellas of environmental governance Louis Kotz s innovative study systematically describes the role of environmental law as the springs stretchers ribs and handles of the decision making umbrellas we so desperately hope will hold firm when they are opened up in times of need Jamie Benidickson University of Ottawa Canada The concept of global environmental governance has been part of the

lexicon in accounts of global environmental politics for some time Yet to date it has escaped comprehensive assessment from a legal perspective This groundbreaking work fills this gap in the literature It offers a masterful analysis of the theoretical underpinnings of the environmental governance and highlights the critical importance of environmental regulation in ensuring that environmental governance lives up to its promise as a means for achieving truly ecologically sustainable development Tim Stephens University of Sydney Australia This timely book brings much needed clarity to the concept of environmental governance as manifested in the global regulatory domain The author argues that despite being used as a fashionable term by many including economists political scientists environmentalists and increasingly lawyers its theoretical contours and conceptual content remain unclear incoherent and inconsistent In addressing this problem the book begins by describing globalization as a general context of governance It comprehensively interrogates and clarifies both the governance and global governance concepts and then explains aspects and components of global environmental governance Finally it investigates the role of law in global environmental governance Providing a much needed definition of environmental governance and global environmental governance this comprehensive study will appeal to academics and researchers post graduate and under graduate students intergovernmental organizations such as UNEP WTO IUCN as well as governments and governmental agencies involved with environmental regulation

Idealism and Realism in International Relations Robert M. A. Crawford, 2005-07-27 The author argues for a revised conception of international relations that acknowledges the irreconcilability of realist and idealist theories and concerns itself instead with important substantive issues

Indian Ocean Region Manoj Gupta, 2010-08-09 It is a privilege to introduce the reader to this book as I believe that it will make a significant contribution to given the difficulties in the knowledge of the Indian Ocean developing cooperation in the Indian Ocean region There have been numerous failed efforts at regional cooperation in different fora in the Indian Ocean As a result of the land based orientation of the people in the region the importance for countries to develop the power to govern the sea has largely been ignored The maritime approach taken by Manoj Gupta to the Indian Ocean as a region in international relations offers a timely and critical assessment of the potential for regional cooperation and ocean governance The political leadership in the region can no longer ignore the need for cooperation in maritime affairs in the Indian Ocean This book enriches the literature on Indian Ocean issues as it argues convincingly that the security of nations economic well being of the people and health of the Indian Ocean cannot be divested from one another All are fundamentally dependant on the ability of the countries in the region to individually and collectively exert the power to govern the sea

The Regulation of International Financial Markets Rainer Grote, Thilo Marauhn, 2006-02-16 International financial relations have become increasingly important for the development of global and national economies At present these relations are primarily governed by market forces with little regulatory interference at the international level In the light of numerous financial crises this abstinence must be seriously questioned Starting with an analysis of the regulatory problems

at the international level with only minimal powers entrusted to international organisations this book develops various possibilities for reform On the basis of an historical analysis the book first adopts a comparative approach to national attempts to regulate international financial markets then outlines the potential of relevant institutions and finally develops a policy perspective It seeks to provide a framework for analysing options for the regulation of international financial markets from a public international law and comparative law perspective

The EU-Russia Strategic Partnership Hiski Haukkala, 2010-02-25 This book explores why despite the initial promise and enthusiasm at the beginning of the 1990s the European Union EU and the Russian Federation have encountered severe difficulties in developing their institutionalised relationship

Czech Yearbook of International Law - Rights of Host States within the System of International Investment Protection - 2011 Alexander J. Bělohlávek, Prof. JUDr. Naděžda Rozehnalová, 2011-03-01 With the successful introduction in 2010 of the Czech Yearbook of International Law Professor Alexander J B lohl vek and Professor Nad da Rozehnalov the editors present the 2011 volume of this ambitious project The second volume focuses on the admittedly controversial topics relating to a shift from the investors viewpoints on investment protection to the contrasting viewpoints of the host states which are facing growing numbers of alleged claims by investors Volume II has set as its objective to plot the shift in the paradigm towards a new balance between investors and host states in the investment protection system Such a shift can be observed in the rising number of counterclaims brought by host states against investors by the introduction of new standards for evaluation of investments in light of the good faith of the investor at the time of an investment and by the choice of an absolute means of protection of a host state s interest against investor claims by termination of an existing investment treaty These topics represent pieces of the whole mosaic of this problem to which the second volume of the Czech Yearbook of International Law is dedicated to a wide professional audience The Czech Yearbook of International Law CYIL is a collective effort by the following persons and institutions
