Homosexuality in Medieval Europe Tobias Lanslor, Although the church condemned homosexuality in the late Middle Ages they had not been too worried about homosexual behavior and such an attitude also prevailed in the secular world However around the thirteenth century these tolerant attitudes changed dramatically Some historians relate this change to the climate of fear and intolerance that prevailed in the century against minority groups that departed from the norm of the majority This persecution reached its peak in the medieval Inquisition when the Cathars and Waldenses sects were accused of obscenity sodomy and Satanism In 1307 accusations of sodomy and homosexuality were important during the Knights Templar trial **Urban Diaspora** Jette Linnaa, 2021-01-13 This is a book on the rise and fall of diasporic communities in Early Modern urban centers in Denmark and Sweden It contains 17 chapters written by archaeologists historians and scientists ranging from in depth studies of artefacts biofacts and archaeological features to large scale analyses of community formation among natives and migrants of multiple origins The plethora of sources and approaches afforded by the numerous disciplines involved enables a significant new insight into the creation and recreation of migrant communities in these Early Modern towns **Food in Medieval England** C. M. Woolgar, D. Serjeantson, T. approach to the subject this volume written by leading experts in different fields unites analysis of the historical archaeological and scientific record to provide an up to date synthesis The volume covers the whole of the middle ages from the early Saxon period up to c 1540 and while the focus is on England wider European developments are not ignored The first aim of the book is to establish how much more is now known about patterns of diet nutrition and the use of food in display and social competition its second is to promote interchange between the methodological approaches of historians and archaeologists The text brings together much original research marrying historical and archaeological approaches with analysis from a range of archaeological disciplines including archaeobotany archaeozoology osteoarchaeology and isotopic studies

Jews and the Wine Trade in Medieval Europe Haym Soloveitchik, 2024-05-03 Although Jews were at the centre of commercial activity in medieval Europe a talmudic ban on any wine touched by a Gentile prevented them from engaging in the lucrative wine trade Wine was consumed in vast quantities in the Middle Ages and the banks of the Rhineland hosted some of the finest vineyards in northern Europe German Jews were until the thirteenth century a merchant class How could they abstain from trading in one of the region's major commodities In time they ruled that it was permissible to accept wine in payment of debt but forbade trading in it and they maintained that ban throughout the Middle Ages Further study in the twelfth century however led Talmudists to discover that Jews were only forbidden to profit from trading in Gentile wine if they dealt with idolaters but that trade with Christians and Muslims was permitted Nevertheless the German community refused to take advantage of this clear licence Using Jewish and Gentile sources this study probes the sources of this powerful taboo In describing the complex ways in which deeply held cultural values affect Jews engagement in the economy of the surrounding society this book also illustrates the law of unintended consequences how the ban on Gentile wine led both to a major Jewish contribution to German viticulture and to the involvement of Jews in moneylending with all its tragic consequences
