Vardalas, 2001-07-27 The forces that shaped Canada's digital innovations in the postwar period After World War II other major industrialized nations responded to the technological and industrial hegemony of the United States by developing their own design and manufacturing competence in digital electronic technology In this book John Vardalas describes the quest for such competence in Canada exploring the significant contributions of the civilian sector but emphasizing the role of the Canadian military in shaping radical technological change As he shows Canada's determination to be an active participant in research and development work on advanced weapons systems and in the testing of those weapons systems was a cornerstone of Canadian technological development during the years 1945-1980 Vardalas presents case studies of such firms as Ferranti Canada Sperry Gyroscope of Canada and Control Data of Canada In contrast to the standard nationalist interpretation of Canadian subsidiaries of transnational corporations as passive agents he shows them to have been remarkably innovative and explains how their aggressive programs to develop all Canadian digital R D and manufacturing capacities influenced technological development in the United States and in Great Britain While underlining the unprecedented role of the military in the creation of peacetime scientific and technical skills Vardalas also examines the role of government and university research programs including Canada's first computerized

systems for mail sorting and airline reservations Overall he presents a nuanced account of how national economic political and corporate forces influenced the content extent and direction of digital innovation in Canada      **The Canadian**

**Encyclopedia** James H. Marsh, 1999 This edition of The Canadian Encyclopedia is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known

Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada **OECD Regional Development Studies Regional Development Policies in OECD Countries** OECD,2010-09-28 This book is a handy reference guide to the regional policies of OECD countries and a broader analysis of trends in regional policies based on sound comparable information Regional Policy in a Changing World Niles Hansen,Benjamin Higgins,Donald J. Bruce Doern,1982-01-01 No matter what the politicians say it's the way a government decides to spend its money that reveals its true priorities The authors discuss the underlying policy priorities and contradictions that these expenditure proposals reflect and present some interesting insights about the direction in which the Trudeau government was then heading The 1982 edition of How Ottawa Spends Your Tax Dollars focuses on the federal government's spending plans for economic development programs
