## Introduction to the EU

### ▼ Overview of the week

In this first week, we will give a 'crash course' into the fundamentals of the EU. On Wednesday, we start with an overview of the history of the EU as well as some theoretical approaches to studying the EU. On Friday, we turn to the institutional framework of the EU.

We discuss the various EU institutions (such as the European Commission, the European Parliament, and the Council), as well as the procedures used to take decisions. You will learn what role(s) each institution plays, what kinds of decisions the EU can take and how to navigate the maze of EU decision-making procedures. The two meetings combined provide the background against which more specific topics will be discussed in subsequent weeks.

# Regional Institutions And Governance In The European Union

**Mary C. Murphy**

## **Regional Institutions And Governance In The European Union:**

**Regional Institutions and Governance in the European Union** José Magone, 2003-08-30 European integration has profoundly changed the relationship between national and subnational governments and has led to the emergence of the Europe of the Regions This edited volume highlights some of the problems involved in the integration of the three main levels of governance in the European Union the regional national and supranational level The contributors address recent developments in various regions and examine the way these regions have adjusted to the growing importance of the European Union s multilevel governance system Among the issues discussed are the emergence and institutionalization of new regional political systems such as those of Scotland Wales and Flanders the channels available to the regions for influencing the EU policy process in relation to their constituencies and horizontal projects of integration among regions which make the whole multilevel governance system more flexible as well as more complex

**The Institutions of the European Union** Michael Shackleton, 2012-03-22 The book explains functions powers and composition of the EU s institutions including the Council of Europe the Council of Ministers the College of Commissioners the European Commission the European Parliament the Court of Justice of the European Union the European Central Bank the Court of Auditors and OLAF and the Committee of Regions After a historical overview of the attempts at EU institutional reform three chapters examine how different institutions provide political direction manage the Union and integrate interests

*The Institutions of the European Union* Dermot Hodson, John Peterson, 2017 This book is the key text for anyone wishing to understand the functions powers and composition of the EU s institutions From the Council of Ministers to the European Central Bank all of the most important organizations are analysed and explained by international experts providing students with everything they need to know

**Switzerland and the European Union** Clive H. Church, 2007-01-24 This book demonstrates the range depth and complexity of Switzerland s developing relations with Europe and provides detailed and up to date information on Switzerland itself

**Northern Ireland and the European Union** Mary C. Murphy, 2016-05-16 This unique study breaks new ground in engaging the study of Northern Ireland politics directly with broader debates about European integration and European governance The text offers the most comprehensive coverage to date of the institutional development of Northern Ireland following the UK government s devolution programme and Northern Ireland s development as an autonomous policy actor in Europe This study marshals evidence from Northern Ireland s relationship with the European Union EU during the contemporary era of devolved power The text argues that in Northern Ireland a series of national and regional constraints complexities and divisions limit regional autonomy These original insights question the synergy between devolution and the EU and query the existence of new forms of governance This is a contribution of both immense substance and considerable importance and should be essential reading for those with an interest in Northern Ireland and EU politics

*New Regionalism and the European Union* Alex Warleigh-Lack, Nick Robinson, Ben

Rosamond,2011-06 The debates on regionalism have been polarized between European Union EU scholars and non EU scholars with the assumption being that regionalism within the EU and other regions of the world are quite distinct with little to be learnt from dialogue with each other This book challenges such assumptions and calls for a genuine debate between scholars of regionalism This book demonstrates that more can and needs to be learned about regional integration all over the world through comparison and reflection on specific regional trends Beginning with a theoretically driven introduction leading experts in the field are brought together to offer a series of case studies on regional integration within Latin America Africa Asia North America and Europe In Part III the authors investigate the links between the EU and selected other regional organisations and processes exploring the dynamics through which these interregional relations are developing and the implications they have for the study of contemporary regionalism regionalisation both inside and beyond the continent of Europe The conclusions set out a challenging research agenda for comparative studies in the field Addressing one of the under explored aspects of EU studies the EU s coexistence with other pan continental regional organisations in the European continent this book will be of interest to students and scholars of regionalism IPE European Studies and international politics

*The Developing Place of Portugal in the European Union* Jose Magone,2017-12-02 After decades of isolation and a turbulent transition to democracy Portugal s integration into the European Union has given political economic social and cultural stability to a country that had to overcome the trauma of losing an empire This volume clearly is a major contribution to the study of how Portugal became part of the European Union as a political system and its development towards Europeanization and domestication Magone first lays a theoretical framework for the study of Europeanization and discusses political parties the political system and Portuguese society in terms of Europeanization He then examines public administration how the European Union and the OECD impacted on the modernization agenda and includes a discussion of the national EU policy coordination Magone also considers the Portuguese Euro elite and how they interacted with the Portuguese presidency and the processes of decision making going on among the different levels of the governance system of the European Union He highlights a case study of the Portuguese presidency of the European Union which took place in the first half of 2003 In addition Magone discusses the impact of the EU structural funds on Portugal and scrutinizes Portuguese foreign and defense policies in particular its reconstructed foreign policy which was clearly instrumental in achieving the independence of East Timor He reviews the growing integration of Portugal into the emerging structures of the Common Foreign and Security Policy CFSP concluding with the challenges that Portugal will face in the future in the education health and business sectors An interesting finding is the growing alienation of the population from the political class who clearly make all the decisions in relation to the European Union without proper consultation of the population through referenda In sum this book is vital to understand one of the oldest nation states of the world Jos M Magone is senior lecturer [The Rise of the Networking Region](#) Are Vegard Haug,2016-02-17 How regions and cities adapt to a Network Society and a globalized

environment the policies they pursue and how structures of governance are transformed in the pursuit of those policies are major themes in this volume. These issues are addressed with specific reference to the Nordic regions of Europe. Covering the four Nordic countries of Denmark, Finland, Norway and Sweden plus the Faroe Islands, this volume charts the changes in networking activities and related development initiatives that have taken place over the last ten years. This means analysing regions in their pursuit of new policies, partnerships and styles of representation. Through this process, regions are becoming partners and players in European integration and a movement of integrative regionalism is taking shape which is different from inward looking identity regionalism or self-centred competitive regionalism and takes regions beyond lobbying in Brussels.

*Britain and European Integration Since 1945* David Gowland, Arthur Turner, Alex Wright, 2009-10-30. This book provides both a comprehensive introduction and a perceptive examination of Britain's relations with the European Community and the European Union since 1945, combining an historical account with political analysis to illustrate the changing and multifaceted nature of British and European politics. Few issues in British politics since 1945 have generated such heated controversy as Britain's approach to the process of European integration associated with the European Union. The long running debate on the subject has not only played a major part in the downfall of prime ministers and other leading political figures but has also exposed major fault lines within governments and caused deep and rancorous divisions within and between the major political parties. This highly contested issue has given rise to bitter campaigning in the press and between pressure groups and it has bemused, confused and divided the public at large. Key questions addressed include: Why has Europe had such an explosive impact on British politics? What impelled British policymakers to join the European Community and to undertake one of the radical if not the most radical changes in modern British history? What have been the perceived advantages and disadvantages of British membership of the European Union? Why has British membership of the European Union rarely attracted a national consensus? Engaging with both academic and public debates about Britain and the European Union, this volume is essential reading for all students of British history, British politics and European politics.

Interregionalism and the European Union Mario Telò, Louise Fawcett, Frederik Ponjaert, 2016-03-09. Is the EU isolated within the emergent multipolar world? Concentrating on interregional relations and focussing on the European Union's EU evolving international role with regards to regional cooperation, this innovative book collects a set of fresh empirical analyses of interregional ties binding the EU with its Eastern and Southern neighbourhood as well as with Asia, Africa and the Americas. The 25 leading authors from 5 continents have contributed original and diverse chapters and the book advances a novel theoretical post-revisionist approach beyond both the Eurocentrism of Europe First perspectives as well as the Euroscepticism of those advocating to simply move beyond Europe. After a Foreword by A. Acharya, the book's five sections reflect the main drivers of EU interregional policies: The European Union as a Sophisticated Laboratory of Regional and Interregional Cooperation with chapters by M. Telò, L. Fawcett and T. Risse; De Facto Drivers of Regionalism; F. Ponjaert; M. Shu; A.

 approach to studying the European Union's regional and global relevance It recasts into a dynamic perspective the three
